29th ANNUAL HOG ROAST - FAIRCHANCE

Saturday morning in Light Varmint 100 Wayne Campbell started out with a .119 and never looked back. In challenging conditions Wayne only had one group in the twos and ended up with an egg of .1778. Don Rosetti finished second with .2012 and Allen Arnette took third with .2158. Billy Stevens won small group with .112.

Saturday afternoon in Heavy Varmint 100 Wayne started with .149. In match 3 he stumbled a bit getting a .333, but finished with .151 to take first with an egg of .1920. Don Rosetti again won second with .2158 and Billy Stevens took third with .2232. Steve Lee won small group with .134.

Sunday morning Don Rosetti started with .269 and never let up. He won with an outstanding .2007. Bill McIntyre took second with .2629 and Steve Lee was third with .2638. Kevin Donalds won small group with .232.

Sunday afternoon in Light Varmint 200 the wind was quite tricky and everyone had at least one big group. Russel Rains delivered a solid performance winning with .2822, Billy Stevens was second with .2915 and Bob Scarbrough Jr. took third with .3086. Hugh Williamson won small group with .281.

Billy Stevens won LV Grand with .2596, Bob Scarbrough was second with .2631 and Russel Rains took third with .2739. Don Rosetti won HV Grand with .2083, Wayne Campbell took second with .2341 and Billy Stevens was third with .2466. Billy won the 2 gun with .2531. Don Rosetti was second with .2584 and Wayne Campbell took third with .2639.

Thanks to Fairchance Rod and Gun Club for putting on an outstanding shoot.

45th SUPPER SHOOT 2017

Other than the weather, we had a great shoot, with a Super turn out.

Congratulations to Jeff Summers, for his 3rd Super Shoot 2 GUN.

and to Wayne Campbell, the very first 3 GUN Super Shoot winner.

Photos by: Turk Takano

At this point we are having the Unlimited for 2018. The format may change from 2017. We will keep you informed.

Thank you everyone for coming, hope to see you in 2018.

Have great shooting season,

Jim Kalbly

That &%\$#@ Mirage!

Many new and seasoned shooters are intimidated when they sit down at the bench and look at their scope at their respective targets and see a blurred sight picture of mirage.

While many shooters view mirage as a minor or even a major hindrance in their ability to resolve the same aiming-point necessary to shoot good groups and aggregates, I believe with the right mindset mirage can be an extremely valuable wind-reading tool in conjunction to your flag-reading skill set.

When I started shooting Benchrest in 1998, I was very fortunate to be mentored by Perry Morton, a Hall of Fame member, and a good friend, whom has since passed away....

I can distinctly remember shooting the afternoon LV200 aggregate match at Holton Gun and Bow Club, in Holton Michigan, in July of '98.

As many whom remember the range at Holton, prior to its reconstruction in 2005, the original Holton range had much lower target frames and range made of almost entirely sand with very little grass. The combination of the lower target frames, field of sand and hot afternoon temperatures were the perfect storm of conditions; whereby no one could see the rings on their 200 yard targets, including Holton's range master! As a matter of fact, I can remember the range Master at Holton calling a cease-fire, due to the large number of competitors seeking his assistance to see if their sighters were hitting their respective targets!

I, too, had great difficulty in seeing any of my many shots on the sighter target. As I whined about how bad the mirage was and how

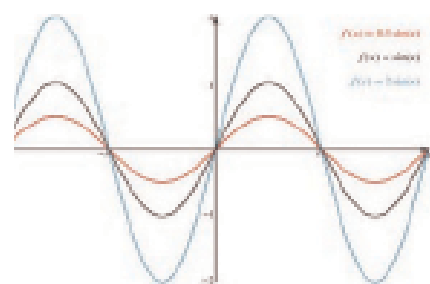

could we possibly continue with the afternoon's LV200 agg. Perry Morton came to the rescue...

Perry pulled me aside during the long cease-fire and told me that in his experience, when the mirage was this bad at Holton, he would simply split the Target Square with his Vertical cross-hair and the split one of the black mirage stripes on the target frame with his Horizontal crosshair. Doubting Perry's advice, I pushed back and not so respectfully told Perry "There is no way I could resolve a small aim-point each time using his technique to shoot a good group". With great patience, Perry firmly responded I was repeating my same aim-point much more accurately than I realized by

holding my crosshair in the Target square and using the mirage board black stripe aiming points....

Perry also instructed me on the various sinewaves amplitude shapes... Essentially the larger the sinewave amplitude we see indicates slower wind speeds. Conversely, the smaller sinewave we see denotes faster wind intensity, much like a fast river of light...

During our cease-fire, I set-up

a

my scope on the Record target and then split the Target Square with my scopes vertical crosshair and then placed the Horizontal crosshair on one of the higher black mirage stripes opposite of the mothball, as he instructed, and when and only when the mirage would flow gently left-to-right, with a large slow-moving large sinewave, I should then start shooting my record group.

After many shooters returned from walking down to examine their targets first-hand to see if their sighter shots were actually hitting their targets, we returned to our benches and the match recommenced...

Doing as Perry instructed, I patiently waited looking through my scope at the Record target with the aim point Perry had recommended, the sinewave finally started to move slowly left-to-right. I started my group... Upon completion of my last record shot, I looked through my scope to see what I thought was a vertical group of six tenths or larger... When I turned around, I found Perry watching me shoot through his spotting-scope and give me a thumbs-up! Upon returning back to the bench to shoot our second match, Joe Freeman, whom was shooting next to me, informed me I had shot a .230" Scream group. Perry Morton was there to congratulate me and did not miss the opportunity of reinforcing that we are repeatedly aiming smaller than we realize....even in heavy mirage!

One of the best uses of mirage, as a wind-reading tool, is when we encounter benign wind conditions at 200 yards. With no wind movement seen on the flags, when do you start shooting your group? Many will shoot a couple of quick sighters, hoping we catch an unforeseen good benign honest wind

Perfect Shoulder Bump!

Competition
Shellholder Set

— With No Die Adjustment —

The easy to use Redding Competition Shellholders enable you to perfectly match the headspace of your reloaded ammo to any firearm. Once the proper shellholder is determined, your results are repeatable — *no die adjustment is necessary*. Each shellholder is clearly marked to indicate the amount it will change case to chamber headspace — *no special tools or gages are needed*.

— Packaged in five piece sets in .002" increments —

Greg Swezey

Benchrest Rifle Club of St. Louis - VFS and Hunter Score Match

We had a pretty good day as far as temperature goes but more wind than we all really wanted. And the switching head wind later turned into a switching cross wind with varying velocities, a tough day for all. The mirage at 200 yards was at a point that seeing the scoring lines was nearly impossible. We really do thank those that drove a long distance and welcome back competitor Jeff Ditto.

Varmint for Score

At 100 yards the VFS class the winner was Jeremy Mataya with 250-16X, 2nd was Bud Mundy with 250-12X and 3rd was Bill

Haynes with 250-7X. At 200 yards Jeremy Mataya was again the winner with 246-6X, 2nd was Wayne Corley with 244-2X and 3rd was Bill Haynes with 244-1X. In the grand aggregate the winner was Jerry Mataya with 496-22X, 2nd was Bill Haynes with 494-8X and 3rd was Wayne Corley 493-15X.

Custom Hunter Class

In the Hunter class the 100 yard winner was Mike Sohneidman with an official Soreamer 250-19X, 2nd was Paul Hon with 249-9X and 3rd was Jerry Kloeppel with 248-15X. At 200 yards the winner was Paul Hon 243-1X, 2nd was Mike Sohneidman

with 241-4X and 3rd was Ron Hoehn with 240-4X. In the grand aggregate the winner was Paul Hon with 492-10X, 2nd was Mike Sohneidman with 491-23X and 3rd was Ron Hoehn with 486-10X.

Thanks to all for coming out, hopefully we have some better conditions next match which will be on Sunday May 7 at 9 AM.

HOLTON GUN & BOW CLUB KICKS OFF THIER FIRST MATCH OF THE YEAR "THE PRESIDENT CUP"

Michigan weather COLD and Rainy!

Saturday started out with variable winds, swichy which made it very difficult to shoot

Sunday morning brought a rainy condition with increasing wind. The cold weether stuck around throughout the hole match.

Congrats to the winners!

condition allowing us to shoot a good group? Luck and hope are never good strategies to use as signals as to when we start shooting our groups....

When you encounter these benign wind conditions, predominantly at 200 yards, I would suggest trying to pick-up mirage movement in your scope. Many agree, shooting the "Boil" mirage, whereby there is stagnant wind, is normally to be avoided, as it can yield group "patterns" as the wind is in transition from moving in a consistent direction.

Most of the time, if you have a higher magnification scope of 40X+ magnification, you can pick-up the mirage moving in either direction. To prove the mirage is honest, as it usually is, shoot two sighter shots while the mirage is moving consistently in the same direction... I'll bet if your rifle is fairly tuned, you will see your sighter shots have doubled-up on top of each other. This should create your confidence in using mirage as a wind reading tool! Now, go to your record target and use the mirage tool, as you did on your sighter, and shoot yourself a little group! Using this technique will give you a distinct advantage over other competitors whom are hoping they chose a good time to try and shoot their group. Many times you will hear many competitors groan with their poor groups whom have ignored using this simple wind reading technique when the flags are completely calm.

Accugauge 6mmPPC

Quick case sizing measurement to 0.0001
Readjust sizing die w/o using bolt feel
Observe case ageing as you load

Can be used for other calibers using your 7/8 seating dies by means of an optional \$5 bushing

www.6mmPPC.com \$90 shipped U.S.

Lastly, another great way to use mirage as a wind reading tool, is when you are shooting your group during light wind conditions. How many times over the years have you lost a shot out of your good group as one of your shots went into the condition? Upon losing this shot, you look up to see your flags starting to reverse in the opposite direction in accordance with the light wind that caused your lost shot out of the group. Grrrr!

If you should you start your group in a light condition, be cognizant of the movement of the mirage. Make

sure the mirage is moving with the direction of your wind flags! Should you start your group and you suddenly notice the mirage go to a Boil and/or reverse its direction, it's wise to put the brakes on and shoot a sighter or simply wait until the mirage reverses again in accordance with the wind condition you initially started group with.

I know the mirage we think we see through our scope is near the target, as that's where our scopes are focused. Many reading this article may refute my suggested use of using mirage as a valuable wind read-

SHILEN HAS MORE TOP 10 WINS IN THE HISTORY OF THE PROFESSIONAL SHOOTING LEAGUE, THAN ALL OTHER BARREL MANUFACTURERS COMBINED.

SHILEN RIFLES
World Class Accuracy Since 1955
www.shilen.com

ing tool as mirage does not show the wind angles, etc.... That's Ok... I would pose anyone whom may see mirage still as a detriment to go to your favorite practice range, set-up some good practice targets at 200 yards, and try shooting some groups, using mirage as your only wind reading tool! You will be amazed of the small groups you can shoot, even on fairly windy days! Fred Hausecuster, a HOF member, and avid mirage shooter, used to tell me "Mirage is real-time wind that you can".

Hope you will give these mirage tips a try! I believe they will help your group shooting!

If you have any questions, give me a call!

Dana Andrus wins the 2 Gun -2 years in a Row

CENTRAL UTAH, SPRINGVILLE MAY 6 – MAY 7, 2017 State Championship

Well "Mother Nature", fickle as she is, gave us mostly good weather this past weekend. Temps were in the 70's with occasional strong, gusty winds and a brief heavy shower during Saturday's last match. Otherwise, we had the normal light to moderate switchy canyon winds. These conditions were just tough enough that no teen eggs or screamers were shot.

Going to take a minute to note that our range is in the mouth of a narrow east-west canyon with steep mountain walls on either side. We experience down canyon winds in the morning which normally reverse to up canyon winds around 10 am. Additionally, there is a berm adjacent to the east side of the range. This range topography creates switchy canyon winds that are not conducive for small groups or small eggs.

As an aside worth mentioning, to get to our range you have to drive over a small dam. Utah experienced near record snowfall this past winter and a very late, wet spring with lots of rain. Hobbie Creek, which runs adjacent to our range and feeds the dam's reservoir, was running over its banks for the first time in years. Over the weekend, the reservoir rose several feet and the spillway was releasing water at a record rate...our drought may be over!

Dana Andrus started Saturday morning off right by winning the Sporter 100 yard stage with the only egg in the 2's, a .2986. Dan Dowling was second shooting a .3048 egg and narrowly beat out Dave Gibson's .3050. Dave took third place and also had the small group for the yardage, a nice .116.

After a pizza lunch break, Brad Jensen won the Unlimited 100 yard stage with a flat .3000 egg. Duke Rovarino took second place with a .3114 egg and Dallen Andrus was third with a .3298 egg. Marty Childers .193 was the small group for the yardage.

Dana Andrus took charge of the Unlimited

200 yard stage Sunday morning. His wining egg of .3490 was solidly ahead of Tom Stiner's second place egg of .4105 and Dave Woodward's third place egg of .4266. Gusting winds were playing havoc on the 10 shot groups but once again Marty Childers had the small group for the yardage, a .435 in match #3.

For the second year in a row, Dana Andrus wins the Unlimited Grand Aggregate this time with a .3575 egg. Dave Woodward came in second with a .3810 egg and Dave Tunbridge takes third place with a .3936 egg.

The conditions got better after lunch and for the first time in a long while we experience decent conditions. John Verhagen figured out the subtle change in conditions and wins the Sporter 200 stage with a nice .2541 egg. Shooting a .2664 egg, Joe Olas comes in second and Lowell Frei shoots a .2791 egg for third place.

John Verhagen wins the Sporter Grand Aggregate with a .2876 grand egg. Dan Dowling's .3054 grand egg takes second place and Joe Olas takes third place with a .3070 grand egg.

The Utah State Two Gun Champion is Dana Andrus with a winning egg of .3401. Second place goes to John Verhagen and his .3543 egg and in third place is Dave Tunbridge with a .3616 egg.

Congratulations to the winners and to all who came and competed this weekend. We had competitors from six states and it was a pleasure having you compete at our range and we appreciate your attendance. We look forward to seeing you in August for the second half of the Utah state Championship.

A Big Thanks to Dave Tunbridge for his continuing dedication to hosting these tournaments. It takes a lot of labor and long hours preparing for these matches and we certainly appreciate Dave's efforts. Along with Dave, a big Thank You also to our target and range crew led by Shane, Marsha, Mistie and Angel.

Joe Olas is always pitching in and helping Dave and we would be remiss if we didn't

acknowledge his efforts too. So Joe, Many Thanks for your behind-the-scenes assistance all these years. Your time and efforts do not go unnoticed and we appreciate your involvement.

Safe travels and small eggs everyone!

Oak Hill Gun Club's NBRSA HV

May 21, 2017

Nine shooters gathered in mid 50 degree, switchy wind weather to start a group match at the Oak Hill Gun Club's May NBRSA HV registered match. The temperature remained stable all day, however, in the afternoon came stronger winds that challenged most of the competitors.

Keith Christensen shot the 100 yard small group on the first target of .051 with his new rifle. Jim Carstensen shot steady all morning with a HV 100 yard .2128 agg. Keith Christensen stayed with him and was edged out by .0006 with a .2134 agg. which placed him second. The HV 200 yard proved a little more challenging but Jim Schmidt shot a .232 for small group. Jim Schmidt also shot well for the conditions with a HV 200 yards agg. of .2579 followed by J.J. Coe who shot a .3065 agg. Jim Carstensen stayed steady all day and won the HV grand agg. with a .2614 agg., followed by Keith Christensen who shot a .2646 agg.

Hydro Bullet Seater with extended base and interchangeable loading blocks

Our New 21st Century Reloading Hydro Bullet Seater is designed for bullet seating with hand dies. Height adjustment is a simple twist of the knob with very little effort. With this press you will receive the feedback and data to help control neck tension. Unique design for the field or bench. No need to bolt or fasten to bench. Extended base also available with the New Generation Press.

Click Head Stainless Steel Bench Rest Quality Primer Tool

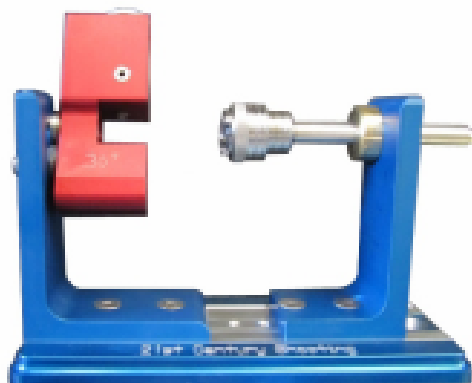

The feel, the precision, the quality and the ease of adjustment of this tool are unique. Features include click head adjustments for precise primer seating and all stainless steel components with aluminum handle.

Concentricity Gauge with wheel

This device enables the user to rotate the case one complete revolution with about 1/8 of a turn on the wheel. Providing consistent pressure on the case. Easily retrofits in a snap to the 21st Century Shooting Concentricity Gauge (run out gauge - as shown). Features include canting to the left or right to keep the base of the case rotating against the stop. For unlimited setup scenarios. Simply amazing!

Neck Turning Lathe

The floating design of our neck turner and the universal floating case driver allows the case mouth (bore) to run on the arbor absolutely concentric. Therefore allowing O.D. to be turned concentric with I.D. The tail-stock creates a horizontal inline support for the base of the case. Also allows the operator to keep both hands on the power screw driver or drill. This makes it very easy to control feed rate of the cutting operation, generating a very fine turned finish. Case holder drivers are designed to be the most gentle driver, yet providing an adequate hold.

DOES NOT DRIVE OFF THE PRIMER POCKET

NO PRIMER POCKET OR CASE DAMAGE.

Driver shaft is hexed to use power screw driver or drill.

17 cal. Fireball to a .416 Rigby. Also 50 cal.

NOTICE TO GENERAL MEMBERSHIP

The general membership meeting of the NBRSA will be held during the Group Nationals on Wednesday, September 20, 2017 immediately following the completion of competition for the day. It will be held at the Benchrest Club of St. Louis located at 2280 Kohn Road, Wright City, MO 63390. Please plan on attending. Agenda items up for consideration at the meeting are listed below.

Eastern Region Agenda Items:

None.

Gulf Coast Agenda Items:

1. Should NBRSA have a standard, "Shooter Registration Form" for all registered matches which is to be completed by all participants? If so, what information should this form entail? (Scott Hunter).

Mississippi Valley Region Agenda Items:

1. Board discussion on target paper. (Bud Mundy).

North Central Agenda Items:

None.

Southeast Region Agenda Items:

None.

Mid-Continent Region Agenda Items:

None.

Southwest Region Items:

1. Consider changing the "Unlimited format for the Nationals to a 6 match-10 shot contest. Include a warm-up match and 3 records matches. Use the usual 100 yard followed by 200 yard procedure. Provide a 2 year trial period with

2017 Agenda Items for the Board of Directors...

final acceptance/rejection at the end of the trial period. Submitted by Tom Libby.

Replace the current unclear description of what constitutes a Regional "Unlimited" Championship Tournament with the wording used in earlier rule books (e.g. "Regional Unlimited Championship Tournaments shall be five ten shot matches at 100 yards and five ten shot matches at 200 yards..." taken from 27th edition rule book). If not acceptable, provide information as to when the change in the unlimited regional event rule was revised and approved and the reason for the change. Submitted by Dave Tunbridge.

Northwest Region Items:

None.

President's Items:

1. Board to consider eliminating the 50 bench requirement for a range to host a Group National event.
2. Board to consider allowing the Directors to appoint their Alternate Director instead of them being elected.
3. Board to consider whether a membership renewal should be dated the actual due date or the current month that it is processed.
4. Board to consider who should be paying the credit card processing charge fee - NBRSA or member/advertiser.

5. Board to consider who pays for the postage when a member does not receive a magazine but magazine was mailed to the correct address (lost in mail, etc.) or the membership has expired.

6. Board to consider selling magazines to advertisers/members to sell.

7. Board to consider a situation where someone wants to receive the magazine but does not want to join NBRSA.

Bids for 2019 National Events

Bids for 2020 National Events

ATTENTION READERS

A BIG "Thank You" to those of you who have taken the time and effort to get me your Match Results in a Word/Excel Document, so helpful and appreciated.

There were a lot of Matches backed up from previous month/years. I am working hard at trying to get all those Results in the magazine by the end of this year, so I can start next year out with a fresh start.

Please be patient with me if you aren't seeing your Match Results yet, they are coming.

My goal is to get Match Result in the magazine in a orderly/timely matter in the up coming year.

I'd like to add----If anyone has an article or bio about someone/thing they'd like to share, feel free to contact me.

Editor in Chief
Nancy Scarborough

Thank you,

Nancy Scarborough
