2017 Kane Pennsylvania State Championship

ON THE COVER ... 63 shooters from across many states of the NBRSA Eastern and Southeast Region arrived at the Kane Fish and Game Club last week to pursue winning this year's Pennsylvania State Championship Benchrest match.

Kane's great reputation drew many first time visitors and... several new shooters to this great annual BR match.

As always, the shooters found the Kane Fish and Game Club grounds to be in immaculate condition and warm hospitality extended to all whom attended this annual match. Good times with old friends, great food and... pie are the mainstays of the Kane experience. It was certainly great to see everyone again!

As with every year, everyone seeks a loading spot on the porch for lively discussions about all things Benchrest and certainly what favorite pies of choice we would all indulge over the weekend.

Our master of ceremonies, Howy Levy, arrived by chopper and promptly took roll-call on the now famous loading porch to roast anyone within his eyesight. Oh, boy! No one was safe that made eye contact with little Howy Levy.

Many of us listened intently to Howy on Saturday about how the "heavy mountain air" was loaded into each of Howy's 6PPC cases, making his loads too hot, causing his rifle to be out of tune Saturday morning. Hmmm? You just can't get this great tuning instruction anywhere else! We all love our little Howy!

The shooters were greeted with very benign conditions on most of all of Saturday's Light and Heavy Varmint classes.

Here are the Top 10 shooter's in the Light Varmint 100 yds. With the top four shooters each having an .18XX aggregate and Roy Hunter leading the pack!

Roy Hunter.....0 .1820
Christopher Jeffers.....0 .1858
DeWayne Wood.....0 .1870
Lacy Tilley.....0 .1886

Lee Hachigian.....0 .1920
Lloyd Miller.....0 .1996
Happy Durham.....0 .2014
Don Rosette.....0 .2016
Jeff Peinhardt.....0 .2022
Willie Bauer.....0 .2030

After a very hearty Lunch put on by the Kane Fish and Game Club, we kicked-off the Heavy Varmint 100 yds. Competition with Al Auman putting on a great shooting clinic with a stellar .1618 agg.!

Here are the Top 10 shooters in the Heavy Varmint 100 yds

Al Auman.....0 .1618
Gary Conaway.....0 .1886
Lee Hachigian.....0 .1934
Howy Levy.....0 .1978
Jeff Peinhardt.....0 .2052
Roy Hunter.....0 .2068
DeWayne Wood.....0 .2102
Milt Craven.....0 .2128
Paul Mitchell.....0 .2152
Jack Neary.....0 .2168

After everyone had a chance to reset their wind flags to 200 yds., the club offered a great Spaghetti dinner for everyone. Soon after dinner, the annual porch party kicked-off! While everyone on the loading porch may not have stayed out as long as we all did 20 years ago, we all had a great time regaling in the how many Kane matches we enjoyed over the years with all our many friends!

Sunday morning arrived with mild winds to kick-off the Heavy Varmint 200 yds.

New Grand Father, Dave Bruno, had it working with a fine .2204" aggregate to set the pace for the HV 200 agg.

Here are the Top 10 shooters in the Heavy Varmint 200 yds

Dave Bruno.....0 .2204
Peter Smith.....0 .2237
Jeff Peinhardt.....0 .2374
Don Rosette.....0 .2423

Dave Bruno.....0 .2393
Paul Mitchell.....0 .2406
Howy Levy.....0 .2448
Jack Neary.....0 .2459
Peter Smith.....0 .2461
Al Auman.....0 .2556

As we started our final aggregate, the Light Varmint agg., challenging, switching winds greeted all of the shooters...

Don Rosette showed why he is in peak form to earn his first HOF points this year in winning the Light Varmint 200 yds. aggregate with a very good .2071" aggregate!

Here are the Top 10 shooters in the Light Varmint 200 yds.

Jeff Briggs.....	0 .2920

Congratulations to all the winners and to our new shooters whom attended this great match!

A special Thank You to Steve Timpano, the Match Director, Roger Oakes, the Range Master, for keeping everyone safe, the Kitchen (and Pie baking crew) for all the great food, and for the hard working Target and stat crews.

And a big thank you to all of the many volunteers of the Kane Fish and Game Club for all the many hours of hard work you each put forth to run such a great Pennsylvania State Championship BR match!

Many thanks to all of the shooters

whom traveled near and far to attend this great BR match as well!

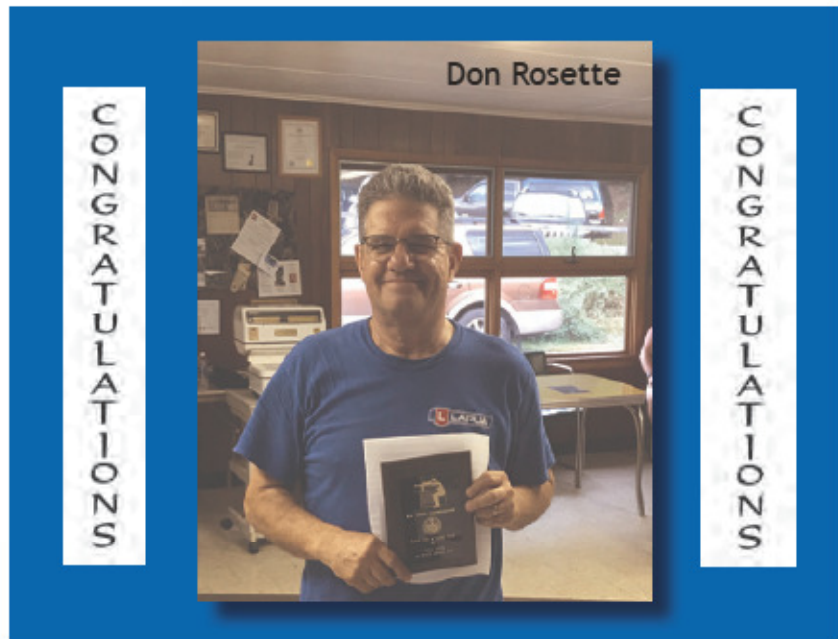

Looking forward to seeing everyone again next year at Kane!

2017 Underground East West Pictorial

Time for another Benchrest match, the East West, held in St Louis every year in June. I didn't shoot particularly well. In fact, I butchered my first yardage like a two year old with a plate of mashed potatoes, but then climbed up with each subsequent yardage. Sort of a moral victory, I suppose, if you believe in those things. Tony Boyer was lamenting about how good gear was hard to find and how he's not handling conditions like he used to. So of course, he aged us all to death and won. I had hoped to have a couple of other matches under my belt before this one, but life sort of interferes with plans now and then. I finally got the Tahoe packed and hit the road. It wasn't as cramped in there as usual. I think pulling the seats and putting that plywood ledge in there really helped. Too bad Chevy thinks that all Tahoe owners want to do is pack it with kids watching DVDs and playing video games over the Internet with a wifi hot spot and an Onstar subscription. I told the salesman when I bought this thing that I didn't know 6 other people I wanted to be in a vehicle with. He laughed.

I found some serious Boulder hippie bread to bring with me. I think there were pot seeds in there, since a sandwich after a target sure eased the pain. I ran out of Twinkies and Ho Ho's pretty quickly though. Jack Neary sure smiled a lot after eating a sandwich made with this. He acted fairly normal too, a sure sign he was medicated.

The St Louis Benchrest club is amazing. I took several pictures of the layout. They have a main clubhouse with showers and a kitchen, so they can serve food out of

there. Next to that is the loading building. When I first starting coming out here, it was just a pavilion with a roof. Then they put sides on it, and added another room with A/C and bathrooms. Truly a first class facility. Below is the club house at the far end. The covered firing line is on the right and hosts 60 well spaced benches.

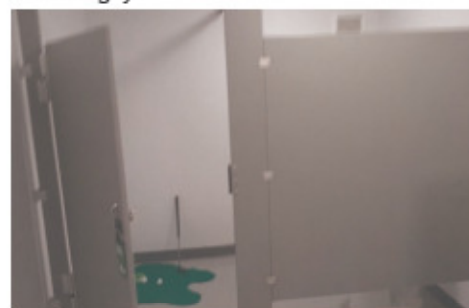

Here is a shot of the loading building. Numerous open garage doors help get breezes through there, but June in St Louis is usually like being in Hell's greenhouse. For some odd reason, the weather was actually quite cool and dry this time. I wasn't complaining, because usually there are heat warnings out this time of year. Typically, I see small children and elderly citizens spontaneously combustion when driving to the motel in the late afternoon. Not this time.

Here's a couple of shots of the inside. I think Benchrest is one part golf, one part drag racing, and one part pissing off liberals and prairie dogs with high precision rifles. And these next shots show the equipment aspect of the sport. This is just like the pits at a race and is where everyone keeps tuning loads and cleaning barrels for the duration. It's really hard to set all this stuff up outside and deal with the elements, this is a much more civilized way to manage your mayhem.

And in one of the best cases of dude amenities I've seen anywhere, they included a special putting green in the head for everyone's practice while taking care of business. My wife doesn't get the hauling newspapers, lap tops, unabridged editions of War and Peace into the bathroom, so this really impressed her. Ah, it is good to be a guy.

And the "commode view" from the throne. I'm sure you were curious, now weren't you? Admit it!

Continuing our tour of the range, let's go out to the line. Here we see a view of the back of the benches and then the front. Note the generous spacing and very nice overhang in front of the benches. Wish all ranges were set up this way. You'll still get a little mist with a heavy north wind when it rains here, but it beats what it could be. A little mist is better than huge alligator drops like we saw from the Hillary lovers after the last election, eh?

OK, with the intro to the layout complete, understand that the camaraderie in this sport is pretty good. Especially in those few days before the match when everyone is arriving and getting set up.

And a more respectable shot of Darryl Loker getting into the zone. He shot very well and handled some incredibly adverse conditions, winning the Heavy Varmint 200 yardage. Should have cropped the other guy out, he adds nothing.

It's all good and everyone got dialed in and ready to go for Saturday am. Here we have the usual semi-controlled chaos known as "flag setting", consisting of an odd coordination of dropped phone calls, two way radios with dead batteries, and cryptic hand signals to assist in flag locating. This is a critical time filled with profanity and golf cart bumper cars.

So with this out of the way, we can start the match and it gets pretty active on the line. Here the target crew is swapping out targets for the next relay. They have a 600 yard (I believe) range that you

can see in the background here.

Here we see Ralph Stewart demonstrating excellent free recoil form. Note he has one point of contact - his trigger finger on a 1.5 ounce trigger. Even his shoulder is slightly off the stock. In all precision rifle shooting, gun handling is very critical and it's so hard to remain consistent throughout the day and week, under mental and physical stress. Because of this, most Benchrest competitors use this technique to keep from influencing the recoil and its effect of a bullet on target. Some shooters do hold on, but they also model for statues and have anti-freeze in their blood stream. I am not so fortunate.

Enough room to shoot, clean, and race go carts.

Nice shooter's view of the range and the back of Dave Coot's head.

Next up we have some schmuck with a cool cart that added a lot of class to his sorry ass. The license plate and drink holders on the other side are an exceptionally cool touch.

Iowa State Championship Score Shoot

What a great weekend for the Iowa State Two Gun Score Championship. Winds were kicking up at times and a little switchy.

We had 18 shooters in hunter class for Saturday's match at 100 yds. In first place was Jason Stanley shooting a 250-18X followed by Steve Grosvenor with 250-15X and in 3rd place Mark Taylor 250-15X.

After lunch we moved to 200 yds. In first place was James Lederer 247-8X, 2nd Jason Stanley 247-3X followed by Mark Taylor 242-5X.

The Iowa State Hunter Grand went to Jason Stanley 497 - 21X, 2nd was James Lederer 496-28X and in 3rd place was Mark Taylor 492-20X.

We always shoot VFS on Saturday for those who have only a VFS gun and there were 8 shooters in the event.

100 yds. First place went to Kevin Mielke 250-18x, 2nd was Bevan Everett 250-17X and in 3rd place Dee Myers 250-15X.

At 200 yards, First place Paul Whitmore 244-5X, 2nd was Dee Myers 243-2X and in 3rd place was Kevin Mielke 239-6X.

Saturday's VFS grand first place went to Dee Myers 493-17X, 2nd was Kevin Mielke 489-24X in 3rd place was Paul Whitmore 488-19X.

On Sunday we shot the Iowa State VFS match 28 shooters weather was great little windy and tricky at 100 yds. First place went to Russ Stiner 250-20X, 2nd place was Craig Nagel - 250-19X and 3rd place went to Mike Bigelow 250-17X.

With Flags set at 200 yds. The last match began first place went to Joe Morgan 249-5X, 2nd place was Randy Robinett 247-7X and in 3rd place was Mike Toby 247-6X.

Iowa State VFS grand

First place Craig Nagel with a 496-29X, 2nd place was Russ Stiner 496-25x and in 3rd place was Randy Robinett 496-23X.

Now for the Iowa State two gun Champ this year first place went to James Lederer shooting a 990-43X (his name will also be added to the Roy Oines memorial traveling trophy), 2nd place went to Jason Stanley 990-43X and 3rd place went to Craig Nagel 981-45X

A big Thanks to all that support our shoots

Sloughhouse Warm-up for the Nationals

A good group arrived for the preview to the Nationals in March. Guys from Idaho and Southern California demonstrated that the wind was not a factor this day. Larry Bryant, Ted Rea (ID) and Bill Hurbina, Bill Bonser (SoCal) scored well. The locals however, came away with the Trophy.

South Dakota State Unlimited and Sporter

Prairie Dog Target Club, Porcupine, SD
June 3-4, 2017

We had a pleasant weekend with cool mornings and temperatures about 80 in the afternoons. On Saturday we shot 10 shot Unlimited, the first leg of the 4 gun and on Sunday we shot Sporter, the second leg of the 4 gun. We had head winds from the north on Saturday and tail winds on Sunday. At 100 yards in the Unlimited the rail guns ruled for the first three places with Rod Brown taking first place with a 0.2394 agg. Bud Schalles was second and Dave Tunbridge 3rd. Small group was shot by

a bag gun, Terry Hettich's 0.165. At 200 yards the rail guns again ruled with Dave Tunbridge taking first place with a 0.2860 agg. Rod Brown was 2nd and Bud Schalles third. Small group was Dave Tunbridge's 0.439. The Unlimited grand agg winner was Rod Brown with a 0.2652 agg, Dave Tunbridge was second and Bud Schalles third.

On Sunday we started at 200 yards in Sporter. Terry Hettich won with a 0.2480 agg with Jeff Anderson second and Rod Brown third. Small group was a 0.193 by Dan Dowling. At 100 yards Mel Klasi cruised into first place with a 0.2254

aggregate with Jeff Anderson second and Bud Schalles third. Bill Pond shot a 0.167 for small group. Jeff Anderson parlayed two second places into first place in the Sporter grand agg with a 0.2572, Terry Hettich was second and Bud Schalles third.

The two-gun winning aggregate was Rod Brown's 0.2835. Bud Schalles was second and Jeff Anderson third.

We had a great weekend with no transgender issues. Don Deckert did the scoring, Dave Tunbridge ran the computer, and the target crew was Kristen Pippert and Vereen Forster.

14 Precision Rifleman

Continue From Page 8...

Back on the other side of the range is the RV and trailer parking. I always lust after these things, although I'm not sure I want to be on the road enough to justify one.

Here are Chris Harris and Bill Storbeck in front of Chris's loading trailer no doubt discussing how many toilet plunger strokes it takes to get 31 grains of powder into a 6PPC case.

Back on the line, here is the obligatory close up shot of a BR rig and the exit pupil of the scope. This is from a new March 48x at 100 yards. I like this scope, it seems clearer than the older 50x, and the 1/16 MOA dot is perfect.

Love these shots, they are tricky to get with a cell phone, but not impossible.

These BR matches are looking more and more like a golf tournament. A lot of folks load near their RVs in the parking lot and shuttle back and forth. At least they carry rifles and not golf clubs.

So in the aftermath, things again return to their natural state, with grown men and a few women trying to enjoy a little life while they're still around. Here we find Ron Miller dreaming of his hi grade tomato plant from Colorado.

And Dave Coots was in normal form, which means out of his mind. Here we see him with his girlfriend, Gladys. She didn't talk much and had a serious scowl. If I hung out with Dave too much, I'd be the same way.

And one more of Dave and his new clip on man bun. We talked about getting him drunk enough to pass out, weaving some spinach into the damn thing, turning a goat loose on him, and putting the video on YouTube. I think there will be an agenda item to ban man buns at matches at the nationals this year.

The trip back was long and long and

sort of long. I think I hit every rest stop, just to polish off some road burn. The landscape sure changes radically along the way. Missouri is green, covered with trees, and usually quite humid. But as you travel west across Kansas and Colorado, it dries out, the grass turns brown, trees become fewer and farther between, and we are reminded that life tends to the follow water. I took this shot of a history lesson from the Arriba, Colorado area. It talks about trying to develop dry farming back when the area was settled. The Indians were probably smart enough to realize it was an uphill battle to live out here. Check out the last line, "Dryland Farming works best in a wet year". No kidding.

Some Neat Benchrest History

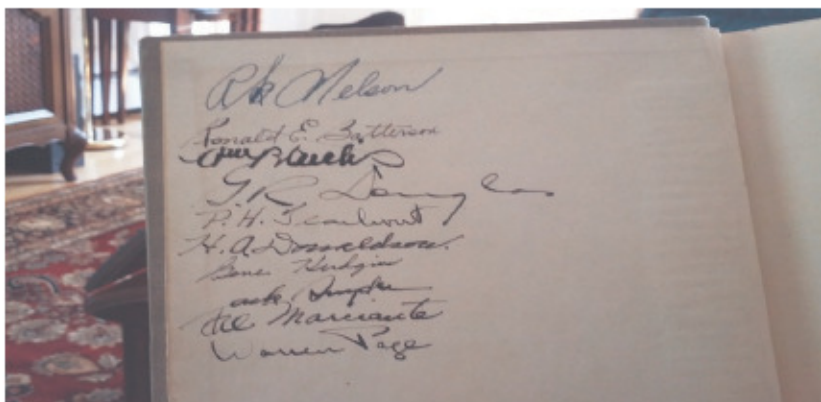

A rare 1st Edition copy of "The Ultimate In Rifle Precision" (1951). These were produced from 1949 - 1954 as annuals. The Sportman's Press, Washington DC, published the first three years and Townsend Whelen did the editing. H.L. Culver gave it to my dad shortly before his death. This was Culver's personal copy that Col. Whelen presented to him in '51. Culver hand signed the cover but unfortunately Whelen didn't autograph it.

As you can see though it was signed by many of the founders of benchrest shooting. Warren Page, Harvey Donaldson, Al Marciante, Gene Hudgins, and RK Nelson to name a few. Culver was part of a very elite group that laid the groundwork for modern precision shooting. My dad and I spent a lot of time with him at the range and in his shop building powder measures, actions, and benchrest rifles. I hope to put out an article on the old guy someday.

**There are no Secrets to Success.
It is the result of preparation, hard
work, and learning from failure."**

- Colin Powell

ATTENTION: MATCH DIRECTORS AND READERS

Happy Thanksgiving Readers...

As we are getting close to closing out this year and getting ready to start a new year, I'm working steady at getting all the Match Results of 2017 in the upcoming issues December, January, February. So keep looking, your match results will be coming

shortly.

I've had several questions on who is writing/submitting articles for the magazine. I personally do not write the articles, all articles are posted as received or submitted. Those of you that wish to submit an article, please send them in to me and I will look them over. Articles from the other shooting disciplines ie. Long Range, Hunter, and Score are a rarity and I have had a request from fellow shooters to see articles from all shooting disciplines.

Also, remember a good article about a fellow shooters history in a specific shooting discipline, is always welcome.

Enjoy your Thanksgiving and keep the Articles coming!

Editor and Chief,
Nancy Scarbrough

NOTICE TO MEMBERS

The Business Office will be closed from October 31, 2017 until November 14, 2017. Should you need assistance during that time, please contact your Director or Alternate Director. Their contact information is located in all editions of the Precision Rifleman magazine.

Thank-You

Call 888-960-2952

Larry Boers Wins 2017 NW Regional HV/UNL Andrews Memorial

On June 3rd the NW Regional HV/UNL was held in Tacoma at TR&RC. The winner took home the 1st annual Andrews Memorial Award, which honors two bench rest brothers who recently passed within a year of each other. Denny and Bruce Andrews contributed significantly and were great ambassadors to our sport. This year's winner is Larry Boers and he celebrated by stuffing all the dollar bills he had won into his trousers, at the waist, like a grass skirt. Unfortunately, nobody thought to bring a ukulele!

17 shooters came together on Saturday morning under a cloudy grey sky with the temperature in the 60's. The wind was mostly light with occasional lulls. Jim Lynn shot a nice .125 small group and Larry Boers took the HV 100 agg with a .2108, besting Jeff Lewis's second place agg of .2280.

As the wind increased during the afternoon, Mustafa Bilal shot a screamer small group of .191. Dan Kjelland cobbled together a .2015 agg which won the HV 200, over Larry Boers's .2200 agg. But at the end of the day it was Larry who won the HV grand with a .2154, beating Dan's .2367 second place agg.

On Sunday the rail guns made their season debut. We had 10 rail guns and 2 bag guns competing in UNL class 5 shot matches. The sky started out overcast again, but soon became mostly sunny. Conditions were good, with light and fairly constant winds. By the 5th match it was pretty

much calm. Larry Muller shot a screamer small group of .230. But Jeff Lewis put together the UNL 200 winning grand agg of .1795, just beating Larry Boers at .1806.

By noon Mustafa was sensing a problem with his rail gun and trying various fixes. Finally, he just tightened all the screws and promptly shot a screaming .049 small group, a pending world record. Jeff put together a fantastic .1380 agg to win the UNL 100 grand, beating Larry Boers's fine .1696 agg. By day's end Jeff had prevailed, piecing together the winning .1587 UNL grand agg and beating Larry Boers's .1751 second place agg.

When the weekend's shooting was over it was Larry Boers who emerged at the top of the score sheet with a HV/UNL winning .1952 grand agg. Jeff came close with his .2036 grand agg but he had to settle for second. Over the weekend a total of 6 screamer groups were shot by Mustafa, Jeff and Larry Muller.

Finally, we wish to thank Jim & Karen Lynn, Zach Silverton, and Craig Kensler for all their efforts in putting together a great match. Next month is the big Sniper King / Agg King / Sam Wilson Memorial match where we'll have lots more rail gun action. Hope to see you there!

~Dan Kjelland

HOW TO USE A TSI TUNERS

How I use my TSI tuners

First a little information about the tuner ---

The ID threads are 7/8 – 32 TPI or .875-32 TPI

I thread about 1" to 1 ¼ "of the muzzle, depending mostly on how I feel that particular day.

DO NOT try to remove the large nut that holds the rubber insert on, ----- It is not intended to be removed ever.

The way I use my tuners.

1. I set the gun up to accept the tuner – (thread the muzzle end of your barrel).
2. Put the rifle together and do not install the tuner.
3. Go to the range and tune the rifle as you normally would. Make it shoot as good as you can.
4. On the same day and in the same conditions, install the tuner. Use a nice, heavy grease on the threads and apply this grease to both the tuner ID threads and the barrel OD threads. I use bolt lug lube. Screw it all the way on the barrel till it stops against the shoulder then back it off at least half of a turn and lock it down. This way you only have one way to go while tuning. You can't go further on the barrel as you will hit the shoulder quickly.
5. I then load up whatever shot well without the tuner on the gun and shoot a 3-shot group.
6. If the rifle sticks them, (you got lucky) mark that spot with a felt tip or such and shoot it again except this time I would shoot a 5-shot group. If I wasn't fooled and it stuck them again, I would move the tuner out 1/8 of

a turn and shoot it again. If it still sticks, I would continue to move the tuner out 1/8 turn at a time and shoot 3-shot groups until it quits sticking.

7. I would put the tuner in the middle of where it was sticking, lock it down, and never move it again.

8. If the rifle tries to go out of tune, I would change powder charge just as if there was no tuner on the rifle.

9. If the rifle shoots big after installing the tuner on the muzzle, (this is the norm) just shoot 3-shot groups and start turning the tuner out 1/8 turn at a time until you find the area where it will stick them. I find that the rifle will usually come into tune before you have made one complete turn, but no big deal if you have to go a little more than one turn.

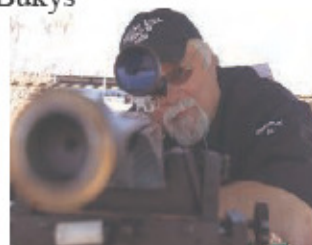

10. I try to find an area where the tuner can be turned thru about three 1/8 turn moves and still

shoot. As you move the tuner out, you will find that there are areas where the rifle will shoot well in a very small spot but when you turn the tuner another 1/8 turn it will go big on you. Try to find a broader area to leave the tuner --- life will be better if you can find an area where you can make the three moves and the rifle continues to shoot well.

In my experience with these things, I think I've never seen a barrel that actually did go to shooting better because of a tuner. What I think the tuner does do is help to keep your rifle in tune thru a larger range. I think that you will see that your rifle stays in tune better thru atmospheric changes than it would without a tuner.

Let me know what you think, after you've had a chance to mess with it.

SHOOTING BAGS • GUNLEATHER

Lewis Clark Wild Life Club -VFS State Championship

June 25 2016 - Lapwai, Idaho

The 100 yard shoot saw conditions of light winds and dust from the back stop that made visibility almost impossible.

200 yard matches became even more difficult with temperatures in the 100 degree range. Mirage became so heavy at times that it was like shooting through a swimming pool. When all was said and done the results were.

Thanks to everyone who came and made this a great shoot.

Perfect Shoulder Bump!

Competition
Shellholder Set

— With No Die Adjustment —

The easy to use Redding Competition Shellholders enable you to perfectly match the headspace of your reloaded ammo to any firearm. Once the proper shellholder is determined, your results are repeatable — *no die adjustment is necessary*. Each shellholder is clearly marked to indicate the amount it will change case to chamber headspace — *no special tools or gages are needed*.

— Packaged in five piece sets in .002" increments —

Hydro Bullet Seater with extended base and interchangeable loading blocks

Our New 21st Century Reloading Hydro Bullet Seater is designed for bullet seating with hand dies. Height adjustment is a simple twist of the knob with very little effort. With this press you will receive the feedback and data to help control neck tension. Unique design for the field or bench. No need to bolt or fasten to bench. Extended base also available with the New Generation Press.

Click Head Stainless Steel Bench Rest Quality Primer Tool

The feel, the precision, the quality and the ease of adjustment of this tool are unique. Features include click head adjustments for precise primer seating and all stainless steel components with aluminum handle.

Concentricity Gauge with wheel

This device enables the user to rotate the case one complete revolution with about 1/8 of a turn on the wheel. Providing consistent pressure on the case. Easily retrofits in a snap to the 21st Century Shooting Concentricity Gauge (run out gauge - as shown). Features include canting to the left or right to keep the base of the case rotating against the stop. For unlimited setup scenarios. Simply amazing!

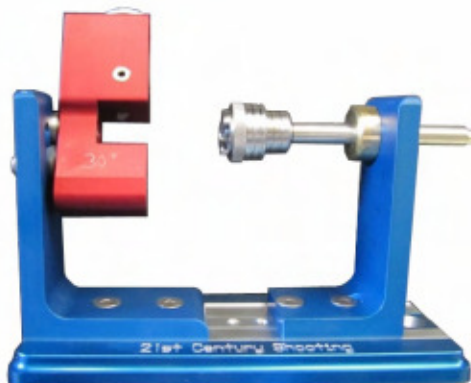

Neck Turning Lathe

The floating design of our neck turner and the universal floating case driver allows the case mouth (bore) to run on the arbor absolutely concentric. Therefore allowing O.D. to be turned concentric with I.D. The tail-stock creates a horizontal inline support for the base of the case. Also allows the operator to keep both hands on the power screw driver or drill. This makes it very easy to control feed rate of the cutting operation, generating a very fine turned finish. Case holder drivers are designed to be the most gentle driver, yet providing an adequate hold.

**DOES NOT DRIVE OFF THE PRIMER POCKET
NO PRIMER POCKET OR CASE DAMAGE.**

Driver shaft is hexed to use power screw driver or drill.
17cal. Fireball to a .416 Rigby. Also 50cal.

BERGER BULLETS

Match Grade Rifle Bullets for
Varmint Target Hunting Tactical

"Her success is a direct result of training, a well built
rifle and the Berger BR Column bullet."

... says Lou Munda of Palm Springs, California. His granddaughter, Angelina Gonzalez, recently shot at
Arizona Benchrest Shooters' Unit-5 Arizona State Invitational and earned 4th place out of 37 shooters
in the 2nd 100 yard egg. Her 0.1612" egg was smaller than 2 benchrest hall of famers!

1000 Yard National Championship - Sacramento Valley

The 2017 NBRSA 1000 Yard National Championship was held at the Sacramento Valley Shooting Center last weekend (April 22-23, 2017).

Congratulations to Richard Schatz the 2017 NBRSA 1000 Yard National Champion. Congratulations are also in order for Dan Roberson who set a new National Record in Light Gun 3 Target Group 3.395. Check out the attachment for all the groups and scores.
