# A Dropped Shot

## *Letters To The Editor*

Lee Hachigian,
Editor

### Trading Post

Lee, I would just like to say you are doing a great job with the magazine. I would also like to float a ideal out there when precision shooting magazine was running they had the trading post I know with all the forums and internet trading maybe there not a need maybe try it a month or two like I said great job keep up the great work

**EF**
**South East Region**

*Thank you for the nice comments. The idea about a Trading Post was kicked around by the NBRSA Leadership Team. I'm not against it or for it. I've always found greater success selling items on the internet. I personally think that the new website should host a new Classified Section to sell stuff (and make it cost neutral for members). Also, as we get into the shooting season, magazine space/pages will become a premium for match reports.*

### Match Fee Increase

Lee, When I started in 2010, the Match Fee was $80; then it increased to $90; now at some matches it is $120 for a 2-Gun. Are we making a mistake pricing ourselves out for newer shooters? I trust that nobody will be going around with a can asking (not subtly) for donations for the target crew.

**CG**
**Eastern Region**

*I reached out to Jack Neary, ER Director for the background to the price increase.*

*Lee, The reason for the 2-Gun maximum fee increase to $120 dollars is simple..., as you are well aware, the attendance at all regional group NBRSA matches has been trending down over the past 10+ years to a point where a number of range/match directors have said if they can't make money, they will no longer hold any more matches. I know what you're thinking.... lower the 2-Gun match fee from $100-$120 down to $XX dollars and you'll get more shooters...! This sounds good..., but has not worked for the few brave ranges whom have tried this in offering half or reduced fee matches to bolster attendance. Additionally, due to the vast amount shooter complaints..., the NBRSA will also be transitioning to a new target paper and new printer source. This change in target paper and to a new printing company will result in much higher target costs to each of our ranges. The NBRSA Leadership Team have tried and tried and tried, some more, to find another target paper and printing company with the same low cost of our current supplier.*

### New Gear/Equipment

Lee, I really enjoy the "New Gear / Equipment" section in the magazine. In the March issue you highlighted the Frankford Arsenal Platinum Series Intellidropper Powder Scale and Dispenser that you saw at the Shot Show. I was wondering if you have an experience or opinion on the unit. Questions like, how fast is it, is it accurate and repeatable, is it stable enough for outside use, etc.?

**BS**
**Eastern Region**

*When I received your enquiry, I reached out to the folks at Frankford Arsenal, and they were kind enough to send me a unit on consignment to give it a try and provide the readers a report. You can read my review next month.*

Precision Rifleman Magazine welcomes letters to the editor. We reserve the right to edit all published letters for clarity and length. In sending your letters and emails, you agree to provide the NBRSA approval to use the material in any format. Letters to the Editor, can be sent to leeh6p-pc@gmail.com.

# 2019 NBRSA SHORT RANGE SCORE NATIONAL CHAMPIONSHIPS

**August 6-9, 2019**

**Mark your calendars, plan the trip and come to beautiful Colorado!**

**Northern Colorado Benchrest Shooters are hosting the 2019 short range score national championships on August 6th through August 9th, 2019, at the Weld County Fish and Wildlife Inc. High Plains Shooting Range in Galeton, Colorado. The official range address is: 38967 County Road 51, Eaton, Colorado 80615.**

**Hunter will be the first two days, August 6th and 7th with Varmint for Score following on August 8th and 9th. Check in for Hunter will be August 5th. Check in for Varmint for Score will be August 7th. Practice days for both disciplines will be August 4th and 5th. There will also be a 100 yard range available for Varmint for Score practice only, on August 4th and 5th. All matches will begin at 8:00 am. There will be a 4-bench rotation per target on each day.**

**We have a covered loading area with solid benches and a cement floor. Flag stands need to be capable of being as low as 16" and as tall as 5'. Modern restrooms and showers are available for everyone. Unlimited camping is available but electricity is limited and will be on a first come first served basis. Reservations for electrical camping sites WILL NOT be accepted. Camping fees are $5.00 per day without electricity and $10.00 per day with electricity. Breakfast and lunch will be provided by the Roosevelt Citizenship Washington Focus, a local 4-H group, Monday through Friday.**

**For your non-shooting partner there is excellent shopping in Greeley, Loveland and Fort Collins. The major chain stores are available in all three cities as well as a myriad of small stores and shops that will garner the interest of the "antiquers", the "hobbyists" and the "looky loos". A little further drive of about two hours into the beautiful Colorado Rockies will get slot machine, blackjack, etc. at Blackhawk and Central City west of Denver, Colorado. There is also sight-seeing in Estes Park and Rocky Mountain National Park.**

**Motels are available nearby with the closet ones being the Cobblestone Inns in Eaton, 970-454-2077 (12 miles) and Kersey 970-351-9411 (15 miles). Full service hotels are available in Greeley, Loveland and Fort Collins.**

**For more information please contact Bud Schalles at 970-224-3740 / budschalles@aol.com or Dean Thomas at 970-396-2240 / Koyotekaller@comcast.net.**

**Pre-Registration is appreciated (form available on NBRSA.org website at https://www.nbrsa.org/forms/**

**We hope to see you in August!**

# Ready on the Firing Line...

*"Ready on the Firing Line..." is a monthly feature of the magazine, where questions on all aspects of precision shooting are answered by Benchrest Hall of Fame members and/or seasoned benchrest shooters.*

This month is the continuation of questions asked in April.
Question #1: How do you set up your sizing die (based on your chamber, i.e., 0.262, etc.)?
Question #2: Do you clean your brass; necks (inside and out) and/or primer pockets between reloads?

**Jack Neary**

Question #1: I am very pragmatic with my FL die set-up to ensure I use several cases, shot with different loads, to ensure my shoulder push-back from my full-length die will properly size from both lighter loads and my cases that were shot with hotter loads. I am looking for a consistent shoulder bump that provides a good feel of my bolt closing a sized case that is never too tight.
I will generally use a carbide bushing that is from .002" to .003" smaller than my neck diameter on a loaded round.

Question #2: Do you clean your brass; necks (inside and out) and/or primer pockets between reloads?
- I always clean the outside of each of my necks with steel wool to ensure I do not get a build-up of carbon residue inside my barrel chamber. I also use a nylon brush to knock-down the carbon on the inside of the case neck.
- I also use a primer pocket cutter/cleaning tool that has a shoulder to ensure my primer pockets are ALWAYS cut to the same depth. This is of vital importance to ensure all my primers are seated the same depth, which is recessed below the case head. If you do not cut/clean your primer pockets consistently you will change your ignition from the primers that are seated deeper versus the primers that are just flush with the case head. You will definitely see a loss in accuracy with your rifles if you do not get this right.

**Dave Coots**

Question #1: I use a old fashioned .262nd die. My reamers and die are working well together and I would rather

Match Report Received on 3/10/19

**March 10, 2019**
**Score Match**

**Jerry Kloeppel wins Varmint for Score**
**Clark Greene wins Hunter Class**

We had a very light turnout for our first match of the year, the weatherman scared people away but the winds turned out to not be as bad as predicted. We had 3 Hunter shooters and 9 Varmint for Score shooters for a total of just 12 shooters. We had 2 new shooters that traveled from eastern Illinois and we truly do appreciate that, especially on a not-so-nice day. There was no shortage of wind at 200 yards but we accepted the challenge and all had a good time. The winds were generally from the west but really changed velocity quickly.

In the VFS class at 100 yards the winner was Dennis Boyet with 250-17X, followed by Jerry Gresko with a 250-16X and 3rd place was Bob Miller with a 249-16X. At 200 yards the winner was Jerry Kloeppel with a 245-4X, 2nd was Bob Miller with 244-3X and 3rd was Wayne Corley with a 243-3X. In the grand aggregate Jerry Kloeppel was the winner with a 493-20X, 2nd was Bob Miller with 493-19X and 3rd place was Wayne Corley with a 492-18X.

In the Hunter class the 100 yard winner was Clark Greene with 248-7X, 2nd was Mike Schneidman with a 247-10X, 3rd was Tom Sisler with a 245-7X. At 200 yards the winner was Clark Greene with a 243-4X, 2nd was Mike Schneidman with a 239-1X and 3rd was Tom Sisler with a 232-1X. In the grand the winner was Clark Greene with a 491-11X, 2nd place shooter was Mike Schneidman with a 486-11X and 3rd was Tom Sisler with 477-8X.

## NBRSA 600 Yard Bench Rest Match
## March 17, 2019

A cool early spring day greeted our shooters after a very wet winter in this area. Phil Peterson dominated this month's match by placing first in all categories. He shot a 0.989 group in Light Gun as well. GREAT SHOOTING PHIL

The next match will be May 19th. And the weather should be terrific. Please come out and shoot with us. Look us up on the web: www.ojaibenchrest.org

# Sahuaro 1000-Yard Benchrest

Match Report Received on 3/26/19

**Sahuaro 1,000 Yard Match**
**March 3, 2019**

Would you be disappointed after shooting a 6.08 inch aggregate in light gun? Especially after shooting the smallest group of the match with a 3.62". Well, maybe just a little if your agg. didn't win first place. That was Wayne McDonald. He was third in light gun group. Second was Ed Schween posting a 6.04" 15 shot aggregate. But then shooting in the afternoon, Jeff Billotte walked away with top honors for his 6.00 group aggregate, and that was after a year's layoff! Maybe I need to take a year off.

The top three were separated by only .04". It was some outstanding shooting by just about everyone at the March 2019 Sahuaro match. Conditions were a bit better than normal and it was almost a trigger pulling contest. In light gun alone there were no less than 30 sub-MOA groups out of 45. That's two thirds of all of the groups! All but two shooters had at least one and mostly two sub-MOA groups, while the top six shooters had all sub-MOA groups and the first nine shooters had sub-MOA aggregates.

The same top three in group were again tops in score. The first six competitors all nicely keeping their scores in the 40's. Wayne prevailed this time, only dropping 9 points to win with a 141-1X. Jeff was right behind him with a 139-1X and then Ed shooting a 137. High single target score went to Ed with a 49.

Heavy gun was similar, but this time with Lon Person leading the way. He was also shooting against the afternoon winds in relay four which had finally arrived to keep us on our toes. Lon posted amazingly consistent groups of 7.37", 7.37" & 7.56" for a winning aggregate of 7.43". Don't forget, that's 30 shots!

Out of 30 groups in heavy, we had 20 that were sub-MOA, once again exactly two thirds. The top seven had all sub-MOA aggregates and the top three had all sub-MOA groups. Wow, what a great bunch of riflemen.

Runner up in group was Wild Bill Warner with an 8.10" agg. And right on his tail was John Benz with his 8.41". In fact 2nd place through 5th place all had 8" aggregates. Super Dave Osborn and Jerry Riesdorff tied for 4th and 5th, both shooting 8.625" aggregates, but it was Super Dave that shot the smallest 10 shot group of 5.50"!

I have spoken before about how hard it is to keep all of your scores in the 90's in heavy gun. On this day the top three heavy gun shooters were able to do that. At first, thinking he was looking good, Dale Arenson's 282-4X turned out to only be third. Super Dave was really rockin. Remember that awesome 5.5" group? Well it was also the highest single target score of 99-4X. And his total score was an impressive 288-8X. But even then Bill Warner was not to be outdone, shooting a 98, a 97 and a 96, Wild Bill only dropped 9 points (just like the light gun winning score) to win with a 291-4X.

Back shooting with us at this match after a long lay off was world record holder Charles Greer, and he is not the only world record holder in this crowd. There are at least three more.

Sometimes we are battling conditions and sometimes the biggest battle is putting together good loads, staying calm and having good table manners (at the bench). You just never know. Either way, this is one great bunch of shooters. If you feel like trying your hand against them, it happens the second Saturday of every month at the Three Points Range, 30 miles west of Tucson. It is expertly run by Long Range Bench Rest Hall of Famer Karl Hunstiger.

Oh... and that part about my taking a year off? You can forget that. This is just too much fun.

Dale Arenson

# Middle Georgia Gun Owners Assoc. - Shamrock

Match Report Received on 3/31/19

**Buddy Ross Wins the Shamrock**
**March 16-17, 2019**

We had the 18th Annual Shamrock Shoot on March 16 and 17 in Dublin Georgia. Fifty-three people shot on Saturday. The match ran a lot faster on Sunday so only a few people quit early. Gordon Earp could not score this year, so I had to do it. It was my second time scoring a match. The groups were tight and a lot of three hole patterns were being shot. It took me a while to get up to speed.

Saturday started out with good weather. Later in the day it rained; but, only for the target crew. The scattered rain seemed come when the target crew was down range. Then as they were driving back the rain would stop for the shooters. There was not enough rain to get the ground soggy so we didn't have to pull anyone out of the mud.

Saturday only had two people in the top ten for both LV and HV. Wayne Campbell placed 2nd and 7th and Harley Baker placed 8th and 9th respectively. At the end of Saturday, it was anyone's Shoot to win. Harley had the LV 100 small group of .089" and Wayne had the HV 100 small group at .058". It looked like Wayne Campbell would win again. The LV 100 had Craig Rowe in first place with a .2238 agg. Paul Mitchell in second with .2270 and third place was Jeff Graves with .2286. The HV 100 in the afternoon had Billy Stevens with .1548, Wayne Campbell with .1870 and Rob Maclennan with .1956.

Sunday had beautiful weather and the day ran smoothly; I got into a rhythm for scoring the targets. HV 200 was shot in the morning and had Hugh Williamson place first with a .1596 agg. Second place was Buddy Ross with .1938 and Billy Stevens was third with .2029. The LV 200 groups got bigger in the afternoon. Jeff Summers first place agg was .2189. Buddy Ross had a second place agg of .2215 and third place was Larry Costa with .2344.

## Ready on the Firing Line...

(Continued from pg. 8)

turn brass than try to get a couple more good reamers and a good die to match if I change to thicker necks. My gunsmith, Hacksaw, does a excellent job chambering my barrels so they all measure very close to the same on headspace.. I use a straight line full length .256 die and a Hood Press. The press has the micrometer adjustment in 1/2 thou increments. I'm always in the ballpark when working with a new barrel and usually only have to bump the shoulders more when the brass gets on in life. At the end of every day I go through my match brass to make sure it cycles good when closing the bolt and usually have to hit a few pieces a bit more to make them cycle good. I want my brass cycling

# Sloughhouse Benchrest Shooters

Match Report Received on 4/10/19

**First Match Of The Year**
**April 6&7, 2019**

Sad news to start, we lost one of our fellow shooters, Bill Mellor. Bill was an original SAC shooter from the beginning, he was a 25 plus year NBRSA shooter and former director. He will be greatly missed.

Small turnout, only ten shooters. Weather was very cold on Saturday but Sunday was nice and actually warmup to over 70.

LV 100 was won by Greg Wilson with a .2588. He had two small groups. Small group of the match was Steven Raeder with a .120 agg.

LV 200 was won by Ron Pepper with a .2720. Ron won with a .356 Small group on match 5. Steve Epstein had three match winner groups to finish second. LV Grand went to Greg Wilson with a .2825 agg.

HV 100 was won by Greg Wilson with a .2298. Small group goes to Marty Childers with a .134. HV 200 went to Steve Epstein with a .2342. He also shot small group at .299. Steve also won the HV Grand with a .2415 agg.

Greg Wilson won the 2-Gun agg with a .2704.

# WWCCA - Spring Tune-Up

Match Report Received on 4/15/19

**WWCCA Spring Tune-Up**
**April 13-14, 2019**

Each year the April group match at WWCCA brings together shooters from the Eastern Region who been hibernating the past 6 months eager to get back into shooting form. The weather and conditions at WWCCA in April are somewhat of a crap shoot, sometimes bringing warm temperatures in the 70s during the 2017 match, to bitterly cold temperatures (in the low 30s) in 2018. This year 27 shooters were greeted with comfortable spring weather on Friday's practice day.

However, on Saturday during the 100-yard matches, conditions changed as they typically do in Michigan during the spring. Conditions were both difficult to tune to and difficult to handle during the matches. Starting off the day with sunny conditions and temperatures around 50-58 degrees, the west winds were howling 20-25 mph. For those of you that haven't shot at WWCCA, a west wind blows directly down range and comes over a large loading/range house directly behind the firing line. You can easily see your bullets hit low on the target when the daisy on your first flag is spinning hard. The other condition which many of us watch is humidity. In Michigan, the humidity is typically between 45%-65% when it isn't raining. We started the day with humidity around 36%, and it went down to 24%. This made it challenging to maintain tune on your load for most of us that typically shoot VihtaVuori 133 in Michigan. I know I couldn't get my gun to shoot well, so I shot LT32 in the afternoon but not well with my lack of experience with that powder.

The shooter that did have a handle on the tough conditions was Lacy Tilley, who shot a .2536 agg to win the LV 100. Dale Dillingham's .2602 and Peter Smith's .2890 came in second and third, respectively. There were only four shooters that could muster up a .2xxx agg. Steve Theye had a .155 for the smallest group.

**Back L-R: Lloyd Miller, Jeff Gaidos, Dale Dillingham, Jack Neary, Lacy Tilley**
**Front L-R: Victor Potts, Lee Hachigian**

In the afternoon during the HV 100 match, none other than Jack Neary (our Eastern Region Director) pulled away from the crowd with a fine .2394 agg. Jeff Gaidos came in second with a .2668 agg, and again Lacy Tilley was third with a .2680 agg. Small group went to Jeff Gaidos with a nice .145.

After a nice steak dinner on Saturday evening hosted by WWCCA, the

**(Continued on page 20)**

# WWCCA - Spring Tune-Up (Continued)

competitors were back to the range on Sunday morning to shoot the 200 yard aggregates. Well, as can be expected the conditions changed drastically on Sunday. Temperatures were outright cold (at 36-39 degrees), the winds were out of the East/Northeast at 15 mph into the shooters faces, and it rained the entire day.

In the morning HV 200 match, Mario Sanchez shot a respectable .2653 agg to win first place. I shot a .2755 to secure second place and Jack Neary shot a .2779 agg for third. I shot the small group with a .174 (sometimes the wind blows them in the same hole). The HV Grand Agg was won by Jack Neary with a .2587 agg. Jeff Gaidos came in second with a .2829 agg.

In the afternoon, my luck continued, and I was fortunate to win the LV 200 with a .2304 agg. Bill Gammon shot a nice .2458 agg to come in second, and Victor Potts shot a .2547 agg to place third. Small group was shot by Lloyd Miller, a nice .263. The LV Grand was won by Dale Dillingham with a .2725 agg.

The 2-Gun and Spring Tune-up Champion was Jack Neary with a .2925 agg. Jeff Gaidos came in second. There were only three shooters that could muster up a .2xxx agg in the 2-Gun.

# Tri-County Gun Club

Match Report Received on 4/9/19

**March 2019**
**600 Yd match**

The day started in the low forties and warmed to the low fifties. As the sun brightened the mirage built until it was a real factor on the second relay. Special mention should be given to Jeff Locke from Bellevue WA who placed first in five categories. Curt Mendenhall of Sutherlin OR and Bill Johnston of Prineville OR showed consistent shooting with Curt winning the two gun score and Bill winning the two gun group. Thank you to all our shooters and to TCGC for hosting the event. Hope to see you all back on May 19 for the next 600-yd event. Fred Dobson

# Bench Rest Rifle Club of St. Louis

Match Report Received on 4/11/19

**April 6-7, 2019**
**Group Match**

Twenty-seven shooters traveled to Benchrest Rifle Club in Wright City, Missouri for the 6-7 April match and I must say the weather was much better than it was in February. Conditions Saturday brought a nice day with temperature in the upper sixties and winds only 5-8 MPH which brought in some nice groups in Light Varmint 100 yards. Bob Hammack got off to a nice start and held down one of the top two spots through the 4th match with Dave Coots and Mike Schneidman close behind. However, Bill Storbeck, who started middle of the pack, was not to be outdone as he steadily climbed the ladder and overtook Bob on the last match to take the win. Bob ended up in 2nd and Mike took the 3rd spot. Jerry King took the small group with a real nice .099 target in the second match.

Bill Storbeck continued strong in Heavy Varmint 200 yards as he continued his streak winning the first two matches. Through the final three matches though it was the Dean Ekstrom show. Dean shot three superb groups which moved him into 1st and he never looked back. Bill Storbeck held onto 2nd place and our Regional Director Bud Mundy took the 3rd spot. Dean shot the small group with a .076 and finished off with a 1718 agg. Nice shooting Dean!!

Saturday evening the flags were moved to 200 yards early enough to get in a little practice before sitting down for a nice steak dinner and a little camaraderie. Scott Pieper was the head chef and grill master and he did a fantastic job providing us that delicious meal and the lunches on Saturday and Sunday.

Conditions on Sunday were a little tougher. Temperatures were nice, and in the low seventies, but the winds kicked up a bit and were gusting up to 14 mph by late morning which took a toll on Sunday's group sizes.

**L-R: Bob Jacobs, Bill Storbeck, Dean Ekstrom, Dave Coots, Greg King, Wayne Corley, Larry Scharnhorst and Jerry King**

Larry Scharnhorst got off to a quick lead but the next two matches went to Dean Ekstrom with Wayne Corley, Bud Mundy and Greg King all closely behind. Greg picked up the pace for the final two matches winning both of them and edging out Wayne Corley who took 2nd and Dean Ekstrom just nudged out Larry to take a 3rd. In the 3rd match Bob Jacobs shot a nice .301 for small group honors.

The winds continued to cause a lot of frustration for 200 yard Light Varmint and there were a lot of big inch plus groups shot and a handful of two inchers!! There was plenty of mumbling going on in the reloading room. There were three lead changes in the match between Wayne Corley, Dave Coots and Greg king. Dave took three of the matches but it was very close between those three and Larry Scharnhorst. Dave Coots ended up winning the match with Greg taking 2nd, and Larry taking a 3rd. Bill Storbeck shot a .301 in the 3rd match to win small group. None of the other small groups were even close to Bill's group.

Light Varmint Grand was very close between the top five shooters but Greg King prevailed as the Top Gun just edging out Dave Coots who took 2nd place. The next three places were very close with Mike Schneidman in 3rd, Larry Scharnhorst in 4th and Mark Harpenau in 5th place. It wasn't as close in the Heavy Varmint Grand as Dean Ekstrom easily took 1st place with the next 4 places all pretty close. Greg King ended up with a 2nd place, Wayne Corley got a 3rd, Bud Mundy took 4th and 5th went to Larry Scharnhorst.

Top spot for the 2 Gun Grand was very close between Greg King and Larry Scharnhorst but Greg edged him out for another 1st place win this year.. Larry took 2nd place. The next three spots were neck and neck with Wayne Corley, in 3rd, Dave Coots in 4th and

**(Continued on page 22)**

# Bench Rest Rifle Club of St. Louis (Continued)

Bill Storbeck taking 5th.

I want to thank everybody for coming out and making this match such a success and thanks to our target crew and scorer. And just a reminder that our next match will be the East-West Show-Me Shootout on 22-23 June. Hope to see you all there.

Harry Ward

# Bench Rest Rifle Club of St. Louis

Match Report Received on 4/14/19

**April 14 2019**

**Wayne Corley wins Varmint for Score**
**Matthew Hon wins Hunter Class**

We really have had mixed weather this spring at our club, 70 degrees for week and on match day it drops into the 30's with snow flurries mixed with switching headwinds makes it a tough day for a match. The weather kept a lot of our usual shooters away. See attached photo as we started to set up wind flags. The wind started in the morning blowing snow in on the benches and equipment and the snow did let up about mid-day but the wind only eased up a little. We only had 10 competitors but we did have a jovial time.

In the VFS class at 100 yards the winner was Wayne Corley with the only 250, a 250-9X, 2nd was Harry Ward with 249-18X and 3rd was Mike Schneidman with 249-12X. At 200 yards Wayne Corley was the winner with 246-7X, 2nd was Bud Mundy with 246-4X and 3rd was Jerry Gresko with 243-6X. In the grand agg the winner was Wayne Corley with 496-16X, 2nd was Bud Mundy with 493-16X and 3rd was Mike Schneidman with 492-15X.

**L-R: Mike Schneidman, Clark Greene, Bud Mundy, Matthew Hon, Paul Hon and Wayne Corley.**

In the Hunter Class the 100-yard winner was Matthew Hon with 242-6X, 2nd was Clark Greene with 239-7X and 3rd was Paul Hon with 239-3X. At 200 yards the winner was Paul Hon with 239-4X, 2nd was Matthew Hon with 238-3X and 3rd was Clark Greene with 231-2X. In the grand agg the winner was Matthew Hon with 480-9X, 2nd was Paul Hon with 478-7X and 3rd was Clark Greene with 470-9X.

In the photo left to right are: Mike Schneidman, Clark Greene, Bud Mundy, Matthew Hon, Paul Hon and Wayne Corley.

Thanks to all for coming out on such a lousy day we hope to see you at our next match on Sunday at 9 AM on May 5th.

# UNITED STATES BENCHREST HALL OF FAME

## A Brief History and Listing of Inductees as of March 2019

By Joe Krupa

**Every year in mid-May, those fortunate to achieve the points necessary for the "Benchrest Hall of Fame" are inducted at Kelbly's Supershoot in front of their peers. Pictured above is the author inducting Jack Neary in 2010**

In every competitive sport there is some metric where accomplishment is measured and chronicled for the sake of history. It's how we measure ourselves, set goals and work tirelessly to attain. Theodore Roosevelt once said "…nothing in the World is worth having or worth doing unless it means effort, pain and difficulty". If you have shot competitive Benchrest before, you know what I'm talking about. I would venture a guess that very few of us have not drove home from a match where we didn't think that we had not left something on the table. But, that is why we keep going; it's the combination of the tease that your next target could be a potential world record and the shear challenge of competition that brings us back.

This article is about The United States Benchrest Hall of Fame; a little history and some discussion about the shooters in our sport who have taken up the challenge and got past the mark on the yardstick that put them into this record book. This measurement happens to be about competitive group shooting and is not in any way dismissive of an accomplishment in any of the other shooting disciplines. Any of us who have shot score benchrest can certainly attest to the significant difficulty of that discipline. But, it was our fathers in the shooting sports and staff at Rifle Magazine who originally set the criteria for this attainment, and that is what I'm writing about today. One can have few honors that give as much satisfaction than the be called a "Hall of Famer".

The United States Benchrest Hall of Fame was started by the staff of Rifle Magazine in 1972. It set the criteria for induction to shoot one's way into the Hall by acquiring ten points by winning yardages, grand aggregates or the Three-Gun championship at the NBRSA Varmint and Unlimited Nationals; with a point for a yardage win and two points for a grand aggregate and three-gun win. Rifle Magazine had gone back and looked at NBRSA Nationals wins back to 1954 and began the tally. The original NBRSA Nationals in 1954 only included the Unlimited class, which in that year was won by Ed McNally. Varmint classes were added in 1960 and then the Three-Gun was included in 1961 when Warren Page took that initial title. The original six members of the United States Hall of Fame were L.E. (Red) Cornelison, Tom Gillman, Paul Gottschall, Dave Hall, Warren Page and Ed Shilen.

In 1984, the Hall of Fame was transferred to an outside agency independent by the NBRSA. And in 1985 winners of similar events of the IBS Nationals were appropriately included with the NBRSA inductees, with these wins reviewed back to the first IBS Nationals in 1970 when Jack Demming won that initial IBS 3-Gun.

The members of the Hall also have provision to recognize honorary inductees who have brought significant contributions to the shooting disciplines.

As of 2019 there are eleven Honorary Members of the Unites States Benchrest Hall of Fame:

Homer Culver
Harvey Donaldson
Skip Gordon
Clyde Hart
Robert W. Hart
Ross Sherman
Ray Speer
Merle H. (Mike) Walker
L.E. (Sam) Wilson
Nate Boop
Lowell Hottenstein

Today, the United States Benchrest Hall of Fame is administered by 1993 inductee Rex Reneau. In the past 47 years since its inception (and the 65 years that Nationals were held), there have been 339 shooters who have earned Hall of Fame points and 50 individuals have accomplished the necessary Nationals wins to attain this honor. They are listed below:

| Inductee | Points |
|---|---|
| Tony Boyer | 176 |
| Lester Bruno | 51 |
| Wayne Campbell | 48 |
| Alan Euber (D) | 47 |
| Larry Costa | 35 |
| Gene Bukys | 35 |
| Gary Ocock | 34 |
| Ed Watson (D) | 28 |
| Don Geraci | 26 |
| Ron Hoehn | 26 |
| Bob Scarbrough, Jr | 26 |
| Don Powell | 26 |
| Tom Gillman (D) | 25 |
| Lowell Frei | 25 |
| Perry Morton (D) | 22 |
| Charles Huckeba | 21 |
| Jack Neary | 20 |
| Walt Berger | 20 |
| Jef Fowler (D) | 18 |
| Lee Euber | 17 |
| Russell Boop | 17 |
| Bart Sauter | 17 |
| Jack Deming (D) | 16 |
| Jim Stekl | 16 |
| Paul Gotschall (D) | 16 |
| Joe Krupa | 16 |
| Harley Baker | 16 |
| L.E.(Red) Cornelison (D) | 15 |
| Smiley Hensley | 15 |
| Bill Forrester | 15 |
| Richard Maretzo | 14 |
| Ferris Pindell (D) | 14 |
| Warren Page (D) | 14 |
| P.J. Hart | 14 |
| Jim Borden | 14 |
| Allen Arnette | 14 |
| Myles Hollister (D) | 13 |
| Ed Shilen | 13 |
| Dave Hall | 13 |
| Tom "Speedy" Gonzalez | 13 |
| Fred Hasecuster | 12 |
| Rex Reneau | 12 |
| Pat Byrne | 12 |
| Faye Boyer. | 12 |
| Gerald Masker | 11 |
| Jeff Gaidos | 12 |
| Richard Baker | 10 |
| John Brown Jr. | 10 |
| Dwight Scott | 10 |
| Mike Ratigan | 10 |

Some other interesting facts. The most Hall of Fame points won at one Nationals was eleven by Tony Boyer at the 2012 IBS Nationals at Weikert, PA. There were four times that one shooter won the next highest tally of eight points at one Nationals: Tony at the 2009 IBS Nationals again at Weikert, the author at the 2007 IBS Nationals at St. Louis, Gene Bukys at the 2012 NBRSA Nationals at Phoenix (Gene also won seven at the 2014 NBRSA Nationals at Holton, MI) and Larry Costa at the 2016 NBRSA Nationals at Phoenix. The shortest time that one shooter attained the necessary ten points was by Alan Arnette when he won three points at both the 1998 IBS and NBRSA Nationals and followed it up with five points at the 1999 IBS Nationals; all over the span of about 13 months. Walt Berger (yes, of Berger Bullets) won his first point in 1973 and his most recent (and 18th) 43 years later at the 2014 NBRSA Nationals at Holton, MI. Lester Bruno has had a similar run with his first with the IBS Three-gun in the 1979 and is still winning points 39 years later (with his most recent two at

**Continued on page 22**

**Continued from page 21**

the 2018 Nationals at Holton).

And our current U.S. World Team Captain Wayne Campbell won his first point in 2000 at the NBRSA Nationals and is still winning points, with five at the most recent Nationals at Holton.

And then there's Tony Boyer. Tony won his first point in the Heavy Varmint class at the 1979 IBS Nationals. He won his unprecedented 176th point 38 years later at the 2017 NBRSA Nationals at St. Louis (where he won six points at that venue). He and his wife Faye (who not surprisingly is the only female shooter in the Hall, so far) have been top-level competitors for the greater part of four decades.

On a final note, one has to ask how does one get to be enshrined in the Hall of Fame. The long-standing quip comes to mind (author still unknown) about how you get to Carnegie Hall: Practice, practice, practice. But, it's more than that. You need a system that continually does failure analysis, constant refinement of equipment and components, being selective as to where you shoot certain equipment that is high-performing, some skill and a lot of luck and timing. One could shoot the best aggregate of their shooting life and come in second. Bullet-maker extraordinaire and 2014 inductee Bart Sauter stated after he got his tenth point that getting into the Hall was the hardest thing that he ever accomplished. And he flew Blackhawk helicopters in combat.

When I asked the undisputed King of Benchrest Tony Boyer about how you get there, he simply smiled and said "you got to show up and shoot. Oh, and one other thing: don't quit."

The listing of the United States Hall of Fame can be see at NBRSA.org and tab on the Short Range Group link.

**Tony Boyer, accumulating 5 more points at the 2005 NBRSA Nationals in St. Louis, MO**

**Gene Bukys, accumulated 8 points at the 2012 NBRSA Nationals in Phoenix, AZ**

**Faye Boyer, inducting Dwight Scott into the Hall of Fame in 2006**

**About the Author:**

**Joe Krupa is a 2008 inductee into the U.S. Benchrest Hall of Fame and the 2007 Precision Shooting Magazine Shooter of the Year.**

*Editor's Note: I met Joe Krupa during my first group match at WWCCA. He became my mentor and travelling partner for many years. He was a great coach and I owe a lot of my shooting success to him.*

# Time to Vote: Director /Alternate Director Elections

To Members of the following Regions:

**Gulf Coast Region**
**Mid-Continent Region**
**North Central Region**
**Northwest Region**

If you are in one of these regions you will receive official ballots to elect your next Regional Director.

**Timeline:**

1. All Ballots will be mailed to regional members by June 1 for voting.
2. The completed Ballots must be returned to the NBRSA office by July 1 to be counted.
3. The results will be tabulated by the Business Manager and notification made to the candidates by July 15.
4. The results will then be published in the first available magazine issue and posted online (NBRSA.org) for members.

**Mail your Ballots by July 1 to be counted!**

(Continued from page 16)

smooth in case I run em....I do this by feel with the firing pin removed and no primer in the case.

Question #2: I clean the outside of my brass with 000 steel wool. I've been shooting for 18 years. Thirteen of those 18 years I cleaned the inside of the necks with a hard nylon brush. The other 5 years I basically did not clean the necks unless the brass hadn't been shot for a while and the inside looked weird from non use. Two of those 5 years that I didn't clean the necks I qualified for the World Team. Then in 2018 I didn't clean them , and I probably will not clean from now on. I don't see any way residue can build up on the inside of the necks with all the heat coming out that little hole. I think a consistent bullet release is possible without cleaning the necks for short range Benchrest.

When competing I clean the primer pockets with a Whitetail tool in my cordless drill. When tuning or practicing, sometimes I skip cleaning them one time.

**The Editor**

Question #1: My first sizing die was smithed by Jim Borden in 1999, and I used it for at least 10 years. In those early years of my competitive shooting I seldom loaded over 29.8 grains of V-133 in my 6ppc. During a practice day at 2009 Supershoot, I experimented with higher powder loads, and everything seemed to work great. However, after the second day of competition, I started to experience stiff bolt lifts, and I couldn't size my brass enough to prevent this. I was loading next to Gene Bukys, and he helped me out by lending me one of his sizing dies which squeezed the cartridge base a little more. I subsequently purchased the die, and never had a problem again. I set up my sizing die with the use of the Accugauge (see Ad on page 20). This is one tool every benchrest shooter should have to ensure you are not moving the shoulder back too much when sizing your brass. In my .262 neck chambers, I use a .257 bushing. In my .268 neck chambers, I use a .264 bushing.

Once you determine the size of the bushing you want, you need to make sure that your necks are concentric. You may need to try several bushing or flip them upside down to get the best results.

Question #2: I clean the outside necks of my brass with Krazy Cloth, and I use a nylon brush to smooth out the inside of the neck. As to the primers, I always clean out the pocket residue with a Primer Pocket Uniformer tool.

Next Months Questions:

- What is your barrel break-in process? How do you clean your barrels, what do you use? How do you verify that your cleaning process is working? Do you clean after each target, match, etc.?
- When setting up your rest and bags on the bench, are there any key items shooters should focus on? Do you shoot free-recoil?

**Change of Address:** To change your address or report a damaged or undelivered magazine, write: NBRSA, PO Box 349, Concord, VA 24538. Do not return damaged copies. Change of address should include both new address and a mailing label bearing the old one. In case of duplication send both labels.

**Contributors:** The editor is not responsible for unsolicited manuscripts or photographs. Advertisers: Rate cards and terms are available online at *www.nbrsa.org/membership-info*. We appreciate your support!

**Safety Disclaimer:** The publication, writers, organization officers, staff, and directors explicitly advise the readers that they make no representation of safety for any loads, techniques, and procedures if reported herein. The nature of participating in a shooting sport automatically requires caution at all times. Given the many variables present—weather, equipment, and components—the information presented is for your reading enjoyment.

## Hydro Bullet Seater with extended base and interchangeable loading blocks

Our New 21st Century Reloading Hydro Bullet Seater is designed for bullet seating with hand dies. Height adjustment is a simple twist of the knob with very little effort. With this press you will receive the feedback and data to help control neck tension. Unique design for the field or bench. No need to bolt or fasten to bench. Extended base also available with the New Generation Press.

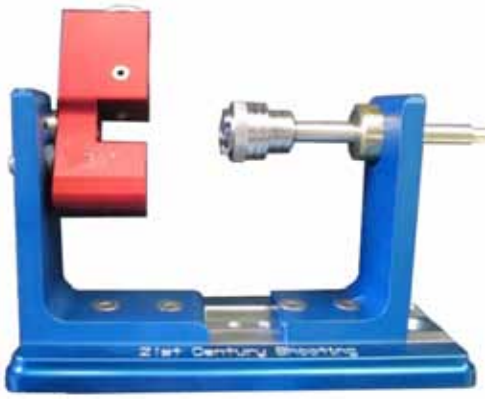
## Click Head Stainless Steel Bench Rest Quality Primer Tool

The feel, the precision, the quality and the ease of adjustment of this tool are unique. Features include click head adjustments for precise primer seating and all stainless steel components with aluminum handle.

## Concentricity Gauge with wheel

This device enables the user to rotate the case one complete revolution with about 1/8 of a turn on the wheel. Providing consistent pressure on the case. Easily retrofits in a snap to the 21st Century Shooting Concentricity Gauge (run out gauge - as shown). Features include canting to the left or right to keep the base of the case rotating against the stop. For unlimited setup scenarios. Simply amazing!



## Neck Turning Lathe

The floating design of our neck turner and the universal floating case driver allows the case mouth (bore) to run on the arbor absolutely concentric. Therefore allowing O.D. to be turned concentric with I.D. The tail-stock creates a horizontal inline support for the base of the case. Also allows the operator to keep both hands on the power screw driver or drill. This makes it very easy to control feed rate of the cutting operation, generating a very fine turned finish. Case holder drivers are designed to be the most gentle driver, yet providing an adequate hold.

DOES NOT DRIVE OFF THE PRIMER POCKET
NO PRIMER POCKET OR CASE DAMAGE.
Driver shaft is hexed to use power screw driver or drill.
17cal. Fireball to a .416 Rigby. Also 50cal.
