ON THE COVER:

Member of the Month Charles Greer stands next to the 2.8125" group (100-10x) he fired with his Heavy Gun from 1,000 yards at the Sahuaro match on February 13, 2021.

Upcoming Director/Alternate Director Election

The deadline has passed for nominations for the upcoming Board of Directors/Alternate Director election. Here is the slate of nominations to be on the ballots for their region:

- 1) **Gulf Coast Region** – Director – Mike Conry
Alternate Director – Kelly Morman
- 2) **Mid-Continent Region** – Director – Don Creach
Director – Sam Langhofer
Alternate Director – Jim Shipley
- 3) **North Central Region** – Director – Chris Harris
Director – Dave Brooks
Alternate Director – Mike Bigelow
- 4) **Northwest Region** – Director – Dan Zaccanti
Alternate Director – Tom Peyton

Each region will have a place for write-ins for both Director and Alternate Directors. Ballots will be mailed to all members in each of the above regions by June 1. Ballots will need to be received in the Business Office on or before July 1, 2021. Results will be posted no later than July 15, 2021.

Good luck to each of you!

MENTORSHIP REPORT

From the Mentor...

I would like to thank you all and the NBRSA for structuring an opportunity to provide mentorship to shooters new to bench rest. It is a wonderful opportunity for me to repay the great mentorship I have received from many people in our shooting community. I am glad to report that Jeff Crose reached out to me through this program to support his development in the sport. We spent some time getting his equipment situation in order and once we had the bare essentials, we took to the range to set up his equipment. Within a couple hours of setting up dies, presses, etc., Jeff was shooting groups in the zeros! It took him some getting used to with a left load right eject action and joystick rest but he quickly developed a good technique. I would say that “he’s off to a great start” is an understatement. Nice shooting Jeff!

Thanks,
Bryan Zolnikov

NBRSA Mentorship Program in Action!

From the Mentee...

I don’t think I’ll ever be able to thank Bryan and Jack properly for all of the help they have given me since I discovered the mentorship program on the NBRSA website. I have wanted to get into benchrest shooting since I read the spiral-bound Bob Pease Accuracy Collection on my grandpa’s floor as a kid. Even though I had no idea what “stuffing a tight neck turkey” meant, there was an unexplainable allure to putting bullets through same hole. I have shot recreationally and competitively over the years (4-position smallbore, smallbore silhouette, air rifle & pistol silhouette) but nothing compares to the excitement I had at the range today. With Bryan at my side, and Jack on the phone, I can’t think of two nicer guys to have shared the experience with. Thank you both for helping me fulfill my childhood dream. I look forward to what this year has in store!

- Jeff Crose

NBRSA MEMBER OF THE MONTH

Charles Greer

FAST FACTS

Favorite Benchrest Discipline: Long Range
Location: Tuscon, Arizona
Home Range: Sahuaro/Tuscon Rifle Club
Favorite Matches: NBRSA Long Range Nationals

What makes these matches so special?

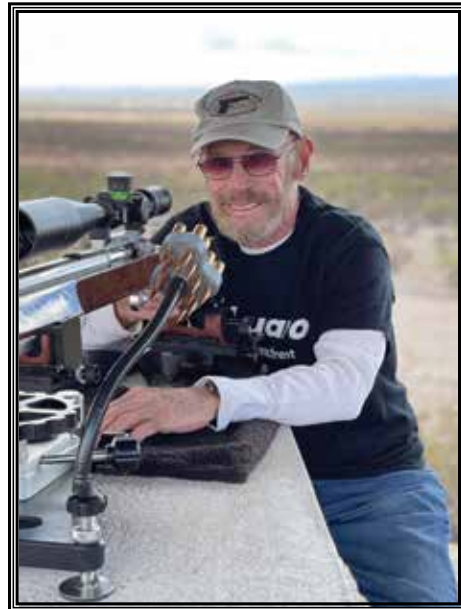

The opportunity to compete against and interact with shooters from all over the country and to test myself against these top level competitors.

Favorite Traveling Companion:

During the last year my son, Brian, has become my match shooting companion. We go out together every month. Brian was able recently to purchase the great 300 Ackley HG that I competed with and set world records with in 2010. I sold the rifle to a friend who never shot it and it found its way back into our family. He's becoming a serious competitor.

BR History:

Between 2007 and 2011 I competed intensely in Tucson's monthly matches and for several years at the NBRSA Long Range Nationals. After the 2011 NBRSA Long Range Nationals I felt rather burnt out on shooting. I sold all my guns and equipment and headed South looking for perhaps one more adventure. I found some but they did not include shooting as South of the border folks tend to shoot back when they hear anything go bang..

GUNS & GEAR

What rifle components do you use (Scope, Stock, Action, Barrel, Trigger)?

Currently I'm using two Borden BRMXD actioned rifles in Wheeler/McMillan LRB stocks with Jewell triggers. These both carry Krieger 4 groove, 10 twist HV barrels chambered in 300WSM. I'm using Vortex Golden Eagle 15-60 scopes on both and the rifles are essentially clones except for weight. The HG weighs 27lbs vs the LG weight of 17lbs.

Greatest Accomplishment:

I had set four NBRSA world records when I was shooting previously...LG Agg in 2008, and all three possible Highest Three Target Score records in 2010, two of which still stand. The first was probably the most satisfying as was my performance in the 2010 Nationals where I placed high in several categories and was Heavy Gun Champion for Score.

Pictured on Cover - A group of 2.8125" along with a score of 100-10X fired 2/13/2021

Any advice you would share with new shooters?

Make a commitment to excel at whichever discipline you choose. Get the best equipment and components that you can afford and consider each match a learning experience. At some point anything that can go wrong will go wrong and one must learn from these mistakes. Most importantly, be patient and keep coming back. In Arizona good shooting conditions are rare. You gotta be in it to win it and if you show up at every match you can attend eventually a great condition will appear on your relay and you'll have a chance to mark a spectacular score.

CACTUS CLASSIC WARM-UP

February 20-21, 2021 - Visalia, California

Results Received: 2/24/2021

Thursday and Friday's practice was held under mild and favorable shooting conditions. Participants were all in good spirits, but everyone knew that harsh weather was on the way.

Twenty-four shooters arrived at the range on Saturday morning for the Light Varmint and Heavy Varmint 100-yard competition. Upon arrival, smiles turned into frowns. Temperatures in the 30's and harsh, cold winds out of the North greeted each of us.

Sitting at the bench for the 100-yard Light Varmint, we all hoped that conditions would soften. They didn't.

Duke Rovarino won the AGG. with a 0.2332, followed by Lou Murdica with a 0.2600. Third place went to Bob McGraw with a 0.2684.

Conditions changed for the afternoon 100-yard Heavy Varmint competition. While the temperature remained cold, the winds became more intense with fast switches and complete reversals. Willard Honjiyo kept his eyes on the flags to take the yardage with a 0.2546 AGG. Bob McGraw captured second place with a 0.2800 and Mike Leonard finished third with a 0.2834. Nice job, Mike!

How the weather can change.

Sunday morning temperatures were in the 40's. The sun was rising and the blue sky was cloudless.

The 200-yard Heavy Varmint commenced in soft, even conditions. The entire range appeared equal with flags showing little or no movement. Duke Rovarino started the ten minute with a disappointing 0.505, but like the wind, things can change. Duke finished the five match AGG. with a 0.1770. This was the only teen AGG. shot the entire weekend. Lou Murdica took second place with a 0.2184 AGG. Third place was shot by John Pierce, with a 0.2198. Great shooting, John!

The 200-yard Light Varmint match began immediately following the morning match. Conditions changed once again. The range was divided and flags changed colors quickly. Keith Cottrell decided to keep his head down and take the match with a 0.2362 AGG. Lou Murdica was all smiles with his second place 0.2724. Bob McGraw finished a strong third with a 0.2730.

Special thanks to Jack Childers and Steve Berg for bringing out Gary Twyford, new shooter. Gary showed his enthusiasm for the sport. I am quite sure he will continue to compete and improve his game.

JACK FROST MATCH - BR RIFLE CLUB OF ST. LOUIS

February 27-28, 2021 - St. Louis, Missouri

Results Received: 3/1/2021

Wow, can you believe St. Louis weather? Ten days ago, the wind chill was -17 and this weekend we shot in short sleeves! Winds were 4-10 mph, fairly nice.

Saturday morning light varmint Dean Ekstrom had it all figured out. He started with a small group of .204 and never looked back. Larry Scharnhorst took second, with James Carstensen in third. Heavy varmint in the afternoon was won by Dennis Boyet. Dave Coots took second and Doc Peterson took third.

The winds had died down to about 4 mph Sunday morning for the 200. Dave Coots took first, Dean Ekstrom took second, Dustin Martin third. Sunday afternoon Dean Ekstrom won light varmint again, with James Carstensen in second, and Dustin Martin in third.

With the completion of both the light and heavy classes, the overall winner was Dean Ekstrom with a .2309 agg., second place was Dave Coots with a .2540 agg., third place was Dennis Boyet with a .2658 agg., fourth place Dustin Martin with a .2954 agg. and fifth place was Harry Ward with a .3060 agg..

Special thanks to Scott Pieper for running the line, to Jessica Sutton our scorer, and special thanks to chef Scott Pieper for an awesome dinner and lunches.

--Dennis & Harry

600 YARD MATCH - SLOUGHHOUSE BR SHOOTERS

February 28, 2021 - Sloughhouse, California

Results Received: 3/8/2021

What a great day for a match.....

A competitive shooter couldn't have asked for a better day to meet with some old and new friends for a shooting competition.

The day started off with all of the competitors arriving earlier than usual and why not, it was a little cool in the morning but it quickly warmed up into the 60's by the time the match was completed. There were minimal wind and no clouds for most of the match.

The turnout was great especially this early in the season with 23 competitors eager to shoot a wide range of rifles at 600 yards. The day's event was special as we welcomed our newest member, Mary Scangarella, who was shooting her 6.5 Creedmoor.

All of our members shot well today but a few competitors really stepped up and shot impressive scores. Our special congratulations to Wally Laursen who had an outstanding day in both light and heavy gun. Wally posted potential record breaking scores in the Heavy Gun category with a score of 294-9X, and a 2-Gun Score record with of 440-13X. The prior heavy record was 293-5X, and the 2-Gun Score record was 439-9X.

We also want to say congratulations to the other 4 competitors that were in the top 5 shooters for the day, Rick Shields, Dan Roberson, Louie Tamagni, and Mike Scadden.

- Duke Bragg

TRI-COUNTY GUN CLUB 600 YARD MATCH

February 28, 2021 - Sherwood, Oregon

Results Received: 3/5/2021

The day was cool with partial sun and the temperature topped out at 46 degrees. The winds were up to 10 mph and tricky with many 180 degree shifts. Mirage intensified as the match progressed.

The match was dominated by Craig Matthew who also won the January match at TCGC. We give awards for ten categories and Craig captured eight of them in his match winning effort. He was first in the four LG categories and took highest single target score and aggregate score in HG.

Bill Johnston won first place in HG aggregate group (4.017") and Richard Jette had the smallest HG group (3.344"). Craig Matthew had the lowest match point total with six. There was a big gap between first and second place in match points with Bill Johnston at sixteen and Richard Jette at seventeen with second through fifth places separated by only one point between each place. Thank you to all our shooters for supporting NBRSA at TCGC. Special thanks to Jeff Locke for statistics and Bill Johnston for scoring.

Tips & Tricks

with NBRSA President Jack Neary

Why Did My Rifle Quit Shooting?

Has this ever happened to you?

Many times I have had my BR rifle with a new barrel shooting very, very well during a past BR Group match and also during a few practice sessions. However, during my next match, my rifle will no longer produce little tiny groups?

To try and resolve this frustrating issue, I have tried going up and down in powder charges, with no improvement in my rifles performance.

I have also thoroughly cleaned my barrel to ensure it wasn't powder/copper fouled to no avail...

My rifle just quit shooting small groups.

When my barrel was new, I did my due-diligence in spending the necessary time to properly tune my rifle to identify the best seating-depth for the given bullet I would be using.

I keep careful notes on the group shapes/sizes the different seating-depths would produce. The chosen seating depth I used was proven to work extremely well for the first 100-200 rounds on the barrel...

Alas, in frustration, I decided to try to make a change by lengthening my seating depth (lengthening the cartridge case-head to ogive measurement) by only .003" longer.

Wow...! This small .003" change snapped my rifle back into tune and returned my rifle back to its previous great shooting form!

It's my humble belief, especially with a new rifle barrel, that as a barrel begins its initial throat erosion, your seating depth may need to be slightly lengthened to account for barrel (throat) wear.

Over the years, I have made this seating-depth correction many, many times and thus fixed my rifle's tune during match.

This small suggested seating depth change has also helped many shooters return their rifles to great shooting glory!

Give this seating depth "fix" a try, if your barrel begins to lose its edge and changing your load has not yielded any improvements... You'll be glad you did!

Please give me a call if you have any questions!

Perfect Shoulder Bump!

Competition Shellholder Set

— With No Die Adjustment —

The easy to use Redding Competition Shellholders enable you to perfectly match the headspace of your reloaded ammo to any firearm. Once the proper shellholder is determined, your results are repeatable – *no die adjustment is necessary*. Each shellholder is clearly marked to indicate the amount it will change case to chamber headspace – *no special tools or gages are needed*.

– Packaged in five piece sets in .002" increments –

Change of Address: To change your address or report a damaged or undelivered magazine, write: NBRSA, PO Box 349, Concord, VA 24538. Do not return damaged copies. Change of address should include both new address and a mailing label bearing the old one. In case of duplication send both labels.

Contributors: The editor is not responsible for unsolicited manuscripts or photographs. Advertisers: Rate cards and terms are available online at www.nbrsa.org/membership-info. We appreciate your support!

Safety Disclaimer: The publication, writers, organization officers, staff, and directors explicitly advise the readers that they make no representation of safety for any loads, techniques, and procedures if reported herein. The nature of participating in a shooting sport automatically requires caution at all times. Given the many variables present—weather, equipment, and components—the information presented is for your reading enjoyment.

Printed in the USA

Hydro Bullet Seater with extended base and interchangeable loading blocks

Our New 21st Century Reloading Hydro Bullet Seater is designed for bullet seating with hand dies. Height adjustment is a simple twist of the knob with very little effort.

With this press you will receive the feedback and data to help control neck tension. Unique design for the field or bench. No need to bolt or fasten to bench. Extended base also available with the New Generation Press.

Click Head Stainless Steel Bench Rest Quality Primer Tool

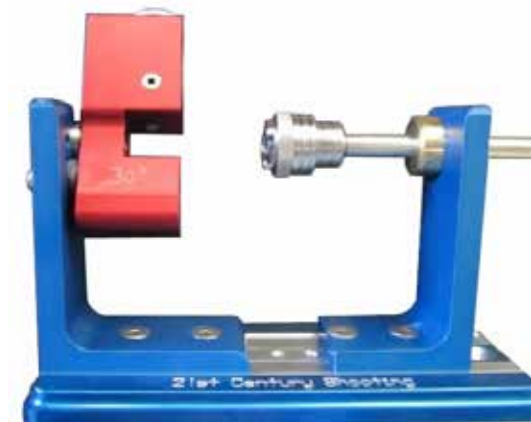

The feel, the precision, the quality and the ease of adjustment of this tool are unique.

Features include click head adjustments for precise primer seating and all stainless steel components with aluminum handle.

Concentricity Gauge with wheel

This device enables the user to rotate the case one complete revolution with about 1/8 of a turn on the wheel. Providing consistent pressure on the case. Easily retrofits in a snap to the 21st Century Shooting Concentricity Gauge (run out gauge - as shown). Features include canting to the left or right to keep the base of the case rotating against the stop. For unlimited setup scenarios. Simply amazing!

Neck Turning Lathe

The floating design of our neck turner and the universal floating case driver allows the case mouth (bore) to run on the arbor absolutely concentric. Therefore allowing O.D. to be turned concentric with I.D. The tail-stock creates a horizontal inline support for the base of the case. Also allows the operator to keep both hands on the power screw driver or drill. This makes it very easy to control feed rate of the cutting operation, generating a very fine turned finish. Case holder drivers are designed to be the most gentle driver, yet providing an adequate hold.

DOES NOT DRIVE OFF THE PRIMER POCKET
NO PRIMER POCKET OR CASE DAMAGE.

Driver shaft is hexed to use power screw driver or drill.
17cal. Fireball to a .416 Rigby. Also 50cal.
