ON THE COVER: Wayne Campbell (left), the 2-gun winner of the 2021 East-West Show Me Shootout. On right, big winners in the Sam Wilson Memorial and Sniper King Match. (L to R: Larry Boers, Mustafa Bilal, Steve Kostanich).

BRIAR HAIL MEMORIAL SHOOT

June 19-20, 2021 -- Sidney, Ohio

Results Received: 6/24/2021

Shelby County Deer Hunters Association hosted the annual Briar Hail Memorial Shoot in Sidney Ohio. 22 shooters were present to try their skills at the challenging range. To help them out, Mother Nature supplied rain, thunder, tornados, wind, sun, humidity, and high heat. It turned out to be a great time for all who were there.

Saturday morning was wet and cool with switching winds. That did not seem to bother Dewayne Wood from heading to the winners circle in the 100 yard Light Varmint with a .2134 Agg. He was followed by Victor Potts with a .2184 and Lee Hachigian with a .2190. Small Group went to Bob Hawkins at .121".

The cloudy and threatening weather stayed with us during the afternoon shooting. Steve Theye did not seem to notice and finished first in the 100 yard Heavy Varmint shooting a .2182 Agg. Second went to Lee Hachigian with a .2208. Brian Robinson rounded out the afternoon shooting a .2316. Small group was shot by Ken Hottenstein and measured .113".

When Sunday broke so did the threatening weather. Sunny skies and 10-15 mph winds greeted the shooter as they prepared for the 200 yard events. Lee Hachigian prevailed in the morning by winning the 200 yard Heavy Varmint shooting a .2356 Agg. Mike Johnston took second with a .2373 and Ken Hottenstein placed third shooting a .2608. Small group was claimed by Ken Hottenstein at .197".

The 200 Light Varmint started to heat up as the temperature and humidity increased steadily all afternoon. Complaints of sticky bolts could be heard from several shooters. That did not seem to be a problem for Lacy Tilley who won the afternoon with a .2167 Agg. He was followed by Jack Neary at .2223 and Ted Heindselman at .2250. Small group again belonged to Bob Hawkins at .176".

A good time was had by all as measured by the laughing and chatter in the loading areas.

Our hosts made everyone feel at home and welcomed. The shooters showed their appreciation by the many kind comments made to the club volunteers who worked very hard to make the match a success.

Please keep the weekend to October -16 & 17 open so you can join us for the Eastern Region Fall Finale.

See you then.....

John Petteruti
Match Director

18TH ANNUAL EAST-WEST SHOW-ME SHOOTOUT

June 26-27, 2021 -- St. Louis, Missouri

Results Received: 7/6/2021

The 18th Annual East-West Show-Me Shootout was a rip-roaring success thanks to all the competitors who were anxious to get out and do some shooting after spending the last year all cooped up avoiding the COVID-19 Pandemic. 72 shooters competed in the match which is pretty awesome considering this was a non-points year, just imagine what we can expect next year during a points year! Quite a few of the shooters were anxious to clean the cob webs out of their guns and get in some much needed practice so campers started rolling into the BRRC Campground six days before the match. The six days prior to the match didn't go without a hitch though. Mother nature decided to 'dampen our spirits' by providing thunderstorm, heavy rain and plenty of wind on most of those days. Jack Neary held his shooting symposium on Friday evening and during his approximate one and a half hour presentation we received over five inches of rain accompanied by high wind. A couple of hours later all electrical power went out in that section of the county plunging the campground into darkness. By midnight though power was back on and things were back to normal.

Saturday morning we were greeted by cloudy skies, moderately switchy winds but no rain, thankfully, for the start of the LV 100 Match. Lee Hachigian, last year's winner, started the weekend off by winning the first match with a .077 group which placed him well in the lead. Al Auman came in strong and moved into the lead in match 2 through four by shooting some very consistent groups. Harley Baker took over as the small group leader by shooting an incredible .050 in match four which remained as small group for the match. Match five changed the standings though when Harley came through with another good group which put him in first place with a .1816 agg. Rounding out the top five were Wayne Campbell in 2nd, Pando Vasilovski in 3rd, James Carstensen in 4th and Al Auman in 5th.

Saturday afternoon was the HV 100 and it started off with a lot of excitement when Wayne Campbell shot a potential NEW WORLD RECORD of .031. That tiny little hole didn't look like much more than one bullet went through it. There were lots of very envious shooter looking at that group on the wailing wall! Needless to say, Wayne was in 1st place with nobody close behind.

GRAF & SONS
THE RELOADING AUTHORITY

Graf.com/precision-reloading

The second match of the day also had a little excitement when it was time for relay three to shoot. As they were sitting down at their bench's, lots of lightning and thunder was taking place just West of the range moving quickly toward the firing line. As soon as the commence fire order was given most competitors shot the match in the first minute. Those that didn't wish they would have as the rain played havoc and quite a few larger than expected groups were shot! When the relay concluded the target crew braved the pouring rain to try and salvage the targets before they became totally waterlogged. After about a 45 minute delay the target crew changed out the recently installed new targets with fresh ones and the match continued. Wayne continued to hold his lead until the fourth match when Rex Reneau took over the lead by a small margin. It was short lived though as this match was destined to be all Wayne Campbell's. Wayne finished with a .1826 agg. Larry Costa shot a really nice

5th group which moved him up to 2nd place closely followed by Mike Elliott in 3rd, Jeff Peinhardt in 4th and Dave Coots locking down 5th. Honorable mention should also go to Don Powell for shooting a .068 in match 3.

Sunday morning brought fairly light winds and NO RAIN to start the HV 200 off in good fashion. Paul Mitchell just edged out Larry Costa to take an early lead in match one by shooting a .301. But in match 2 Larry shot a little .202 to take over the lead. Larry's .202 held on to take small group for the aggregate. Right behind Larry was Eddie Harris, Ed Collins and Robert Jacobs. It was very close going into match 3. The lead shuffled a bit and after three it was Eddie Harris in the lead closely followed by Robert Jacobs and Cecil Peterson. At this point it was anybody's match but during match 4 and 5 Robert showed us he intended to make this his win. After five Robert was the agg winner by shooting a nice .2022. Larry Costa took 2nd, Ed Collins took 3rd,

4th went to Eddie Harris and Mark Harpenau took the 5th spot.

The Heavy Grand Winners were Larry Costa shooting a .2121, 2nd Jeff Peinhardt with a .2323, 3rd Wayne Campbell .2354, 4th Robert Jacobs .2366, 5th Mark Harpenau .2454, 6th Eddie Harris .2479, 7th Victor Potts .2513, 8th Dana English .2528, 9th Dean Ekstrom .2568 and 10th Don Powell .2598.

The final match of the shoot was the LV 200. The weather had remained nice all day and everybody was anxious to get the match underway because storms were due in later in the afternoon. It's pretty easy to sum of this match in only two words. JIM CHANEY. Jim took the lead in match one and remained in that position for the whole match. The other positions fluctuated a bit between Mark Buettgen, Wayne Campbell, Kip Jones and Pando Vasilovski. In the end Jim's .1572 dominated for 1st place. 2nd went to Mark Buettgen with a .1885. Rounding it out was 3rd Kip Jones, 4th Paul Mitchell and 5th John Hawkinson. Bart Sauter shot the small group with a tiny .179.

The LV Grand winners were Jim Chaney 1st with a .1938 2nd Wayne Campbell .2086, 3rd Pando Vasilovski .2154, 4th Mark Buettgen .2246, 5th Victor Potts .2259, 6th Bart Sauter .2304, 7th Greg King .2334, 8th Bud Mundy .2377, 9th John Hawkinson .2409 and in 10th Jeff Peinhardt .2450.

The 2 Gun winner was Wayne Campbell which was well earned after shooting that potential world record in Heavy Varmint 100 on Saturday afternoon.

Wayne finished with a respectable .2220 aggregate. Finishing out the top ten were 2nd Jim Chaney, 3rd Victor Potts, 4th Jeff Peinhardt, 5th Robert Jacobs, 6th Bart Sauter, 7th Dean Ekstrom, 8th Jeff Summers, 9th Greg King and 10th Al Auman.

The timing was perfect after the match. The awards ceremony started about 45 minutes after the last round was fired and concluded about 20 minutes before the rain returned. Considering all the rain, strong winds, road flooding, power outage and temporarily broken campers I think everyone had a great time.

At least it wasn't 90 plus degrees as it's been in some past East West Matches. There are a lot of people to thank that made this match so special but the **big-gest thanks** goes out to the shooters and their wives for making this such a special week!! I'd also like to thank Scott Peiper and the Board of Directors for making BRRC available to us for this match, Range Master Kyle Anders, Scoring and Statistician Jessica Sutton and Stacey Garson, Target Captain Kaitlyn Weshoff, Bob Miller for designing those awesome T-shirts and Food Service by Angel Foods.

We'd also like to thank our numerous prize contributors for their generous donations. Bartlein Barrels contributed two barrels. One that the target crew sold raffle tickets for and the other was a random drawing that ended up going to the competitor that took 61st place.

Other contributors were; Benchrite, Brunos, Bullet Central, C-Bar, Edgewood, Graf & Sons, Jewell Triggers, Krieger Barrels, Lilja Barrels, Dennis Mazur, PMA Tool, Redding and Shade Tree Engineering. Thank you all for supporting the 18th Annual East-West Show-Me-Shootout.

That's All!! Hope to see you at more matches this year and at the 19th East-West next year.

— Harry and Dennis

LV Winners: (L to R) Robert Jacobs. Mark Buettgen. Harley Baker. Wayne Campbell. Pando Vasilovski. Victor Potts.

HV Winners: (L to R) Ed Collins. Robert Jacobs. Wayne Campbell. Mike Elliott. Jeff Peinhardt. Larry Costa.

New World Records!

On February 13, 2021 at the Sahuaro Gun Club in Tucson, Arizona, Charles Greer NBRSA #85570 set two new World records in 1000 yard Heavy Gun Single Target.

1. Single Target Heavy Gun Score 100-10x eclipsing the record of 100-6x set by Bill Schrader on 4-17-2005.

2. Single Target Heavy Gun Group of 2.6566-10x. eclipsing the record of 3.650 set by Tim Height on 10-12-2019.

In anticipation of a 100- 10x being shot we amended the rules to now include the group size when the maxamine score and x's are reached.

So, to break the score record of 100-10x, a smaller group than 2.6566 must be shot along with the 100-10x.

Submitted by Bill Johnston

Funniest Benchrest Memory to Date?
Bill Brawand telling raunchy escapades in the loading barn at Holton many years ago. Jack Neary running around the range in his boxer shorts at Saint Louis after he won a great trophy and was drinking from the trophy cup.

Member of the Month

Steve Theye - Fort Wayne, IN

How long have you been shooting Benchrest?
“Best guess would be about 1984, not long after I started working at Sinclair International when they were still here in Fort Wayne”

Favorite Benchrest shooting discipline?
“I shoot Short Range Group only. Unfortunately, there are no Score matches held close to Fort Wayne.”

Home Range: Holton, Michigan
Favorite Matches: Super Shoot, all Nationals, East-West

Rifle Components?
Bat DS actions, Scarbrough stocks, Leupold scopes, Krieger, Bartlein or Hart barrels

Greatest Accomplishment: “Winning the Heavy Varmint Grand at the Super Shoot (long time ago), and setting a world record in Sporter at the IBS Nationals – also a long time ago. Eastern Region Shooter of the Year a couple of times some years ago.”

SNIPER KING AND SAM WILSON MEMORIAL

July 2-4, 2021 -- University Place, Washington

Results Received: 7/7/2021

The 77th annual Sniper King match, the oldest continuously awarded trophy in benchrest, was held July 2-4 at the Tacoma Rifle and Revolver Club (TRRC). Awarded annually since 1944, the winner receives the trophy based on the smallest 10-shot group shot at 200 yards. Shooters had 15 opportunities to shoot that one small group. There is an impressive list of bench rest shooters compiled on that one trophy.

The course of fire was 100 yard/200 yard 10-shot groups on Friday, with Saturday being all 200 yard 10-shot groups. Sunday was 200 yard/100 yard 5-shot groups. On all days, the mornings started off overcast and cool but then the afternoons were sunny and warm. The wind was present throughout the mornings and afternoons.

Mustafa Bilal shot an impressive .276" 10-shot group (actually shot the same sized group twice) to win the Sniper King and a place on the trophy. His name now appears twice on the trophy. Great shooting Mustafa!

Larry Boers demonstrated superb performance on Friday when he put on a clinic for all the world to see, literally, by setting a potential 100 yard unlimited world record aggregate. Larry won every 100 yard match on Friday morning and finished with a .1624 agg. That afternoon Larry won the 200 yard aggregate with a .2078" aggregate. The 10-shot grand agg for Larry was an astonishing .1851" which is another potential world record. Both of the previous records were also set at TRRC by Jeff Yost and Steve Kostanich.

Notable performances include:

- Steve Kostanich won the Agg King trophy with a .2027" 10-shot agg at 200 yards.
- Larry Boers won the Sam Wilson Trophy with an incredible 2-gun agg of .1947".
- Larry Boers won the 10-shot unlimited grand agg with a .2436".
- Jeff Crose won the Double 200 10-shot unlimited grand agg with a .2209".

• Jeff Crose shot an incredible 100 yard 5 shot agg of .1304" Sunday afternoon.

• Jeff Crose won the 5-shot unlimited grand agg on Sunday with a 1412".

• Bryan Zolnikov shot the smallest group of all of the matches with a tiny .061 at 100 yards.

Small group award winners this weekend were:

Steve Kostanich, Jeff Lewis, Larry Boers, Jeff Crose, Musafa Bilal, Eric Stanton, Bryan Zolnikov, Jim Lynn, Gary Vanlier, and Mark Walker.

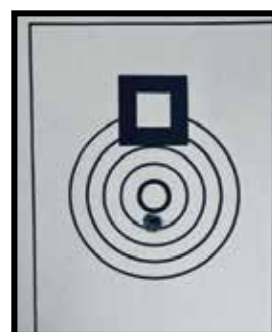

We appreciate the outstanding crew we have behind the scenes making the match happen: Geoff Hallett, Cai Warner and Craig Kensler. We also appreciate and thank Paul Parosky of PRP Bullets who donated three 500-count boxes of his outstanding Diablos bullets to the prize table.

This was a great match with tiny groups, potential world records, and overall great vibe among the match contestants! Thank you all who participated!

A great spring day greeted our shooters after the long hiatus because of the covid virus. We had a great match with 16 shooters. It was good to see Cindy and Heather helping out with registration. Again we must thank Barry Bluhm for being the Match Director for all these years. Our next matches will be in July and August, the match in September left in September will not be held because of a conflict with a match in Visalia. Information of past and future matches can be found at our Web Site at: <http://www.ojaibenchrest.org>

MONTANA STATE LONG RANGE (200/300 Yd)

June 5-6, 2021 -- Sloughhouse, California

Results Received: 6/29/2021

Montana State Long Range (200/300 yd.)
Whittecarr Rifle & Pistol Club
Varmint for Score: June 5th
Hunter Class: June 6th

Very few shooters have had the opportunity to shoot at the Whittecarr Rifle & Pistol Range, which is located in the Bitterroot Valley south of Missoula, Montana. The range is located at 3500 feet at the base of the Bitterroot Mountain Range which tops out at about 10,000 feet. The Whittecarr Range sits right in the middle of the valley with the unpredictable north/south wind and the wind from the west down a large drainage area between mountain peaks.

On Saturday, the VFS 200/300 yd, was a challenge for all the shooters. I can't speak for all the shooters, but for me it was very humbling. No two flags pointed the same direction at the same time. The first flag could indicate a fast left to right, second flag could show a slow right to left and the third flag sat there like it was glued in place. During this time, the mirage was boiling straight up. Shooting style for the day was "Dumb A__ Luck" You could not dial your scope on high power and still make out the rings on the bulls. It was pretty comical looking at the targets when posted and see how many shots were taken at the "sighter." If you want to test your shooting skills, wing reading, beginners luck, or "Dumb A__ Luck", come to Hamilton, Montana.

As for the 200/300 yd hunter class.....please read paragraph one and two.....minus about 9 mph on the wind speed. Only advantage with the hunter class, was that with the six power scope, the mirage didn't "look" quite as bad, but it was still a major factor at the scoreboard. The wind and mirage stopped when new targets were being set and during the lunch break. Funny how that works. If you want to experience the same conditions without coming to our range, try this: mount some car leaf springs to the bottom of your shooting bench and shoot during a six magnitude earthquake.

TRI-COUNTY GUN CLUB 600 YARD MATCH

June 27, 2021 -- Sherwood, Oregon

Results Received: 7/2/2021

The match began with temperatures in the mid 80's but by the end of the second relay they were approaching 100 degrees. Winds were light 0-6mph but increased to 6-10 with gusts to 15mph during the second relay. These conditions were challenging for the eight shooters that came out to test their skills.

Steve Simons a veteran shooter from La-Grande, Oregon won first place honors in six of ten categories and was our match winner.

Larry Wright who is a relative newcomer – in only his 2nd 600 yard match - did well in four of the categories shooting a 1.636" LG single target group; a 3 target LG agg of 2.0583"; first place 3 target HG score of 277-3X; first place in 2-gun score of 416-3X. Good shooting Larry!

Hall of Fame and veteran shooter Bill Johnson who also chairs our NBRSA Long Range Committee placed in the top 3 in seven categories and had the highest single HG target score with a 97-3X. Congratulations Bill for some good shooting in those conditions.

The top three places in Match Rank were first place Steve Simons with 7 points; Larry Wright second with ten points; Bill Johnston third with 11 points.

Our thanks to all our shooters who braved unusual and challenging conditions – especially the historic/record setting high temperature of 117 which is rare in the Portland area. Special to Steve Simons, Bill Johnston and Rich Jette for helping to set up the pits. Thanks to Tri-County Gun Club for hosting the match.

2021 NBRSA Election Results.....

Congratulations to the following Directors/Alternates on your election/re-election to the Board of Directors in the Gulf Coast, Mid-Continent, North Central and Northwest Regions. Mike Bryant and Dickie Pustejovsky both decided not to run for re-election in the Gulf Coast region. Thanks for your service Mr. Bryant and Mr. Pustejovsky to the NBRSA. We welcome Mike Conry as the new Director of the Gulf Coast Region and Kelly Morman as the new Alternate Director for the Gulf Coast Region. We also welcome Jim Shipley as the new Alternate Director for the Mid-Continent Region. Sam Langhofer served as the Alternate Director for this region. Thanks for your service Mr. Langhofer to the NBRSA. Mike Bigelow was elected as the Alternate Director for the North Central Region.

Regrets go to Sam Langhofer who was defeated by Don Creach for the Mid-Continent Director position and to Dave Brooks who was defeated by Chris Harris for the North Central Director position.

Gulf Coast Region Director – Mike Conry
Gulf Coast Region Alternate Director – Kelly Morman

Mid-Continent Region Director – Don Creach
Mid-Continent Region Alternate Director – Jim Shipley

North Central Region Director – Chris Harris
North Central Region Alternate Director – Mike Bigelow

Northwest Region Director – Dan Zaccanti
Northwest Region Alternate Director – Tom Peyton

Their new term will begin on the first Monday following the conclusion of the Group Nationals, which is the week of September 20-25, 2021. A heartfelt **THANK YOU** to those participating in the election and congratulations again to those elected to serve in this capacity.

NCBRS FIRST LEG OF 4 GUN

June 12 - 13 2021 -- Eaton, Colorado

Results Received: 6/7/2021

Howdy all! Wile E Coyote reporting from Northern Colorado Benchrest Shooters. My story today takes place on June 12-13, 2021 for the first leg of the 4-Gun.

The first leg of our 4-Gun begins with Sporter Varmint at 100 yards. Phil Sheldon's 0.2296 took the first place spot. The Small Group and Screamer went to Cliff McNairy with a 0.0960. Great shooting guys!

After a nice lunch break and much congratulating the shooters once again lined the benches and blasted the Sporter Varmint 200 yards match. Cliff McNairy took first place with his score of 0.2907 and the Small Group again, 0.3350. Amazing shooting Cliff!

Sunday we started with Heavy Varmint at 100 yards and mulled over whether Cliff was going to get another Screamer. However, Sam Langhofer scored first place with his 0.2040. Irv Sheldon was the Small Group winner with his 01240. Super shooting coyotes!

After a short lunch break we finished the weekend with Heavy Varmint at 200 yards. Sam and Irv once again took the winnings. Irv's agg of 0.2460 won him the first place trophy, while Sam's Small Group of 0.2870 sent him home with a Roadrunner. Amazing coyotes!

When all the shooting was done, everyone gathered for the final score results. For Sporter Varmint, Cliff McNairy took home the trophy with his Agg of 0.2762. Sam Langhofer was standing tall with his first place win over the Heavy Varmint; an Agg of 0.2322. And now for our 2-Gun winner, drum roll please... Cliff McNairy is the big winner with a score of 0.2771. Outstanding shooting!

As always none of this could happen without the shooters who come to play and the top notch staff, match director and target crew. Give a shout out to Dean, Kathleen, Tina, and Dakota! Don't forget about our Annual Firewalker Match!

Until next time, keep 'em tiny.
Wile E Coyote out.

Perfect Shoulder Bump!

— With No Die Adjustment —

The easy to use Redding Competition Shellholders enable you to perfectly match the headspace of your reloaded ammo to any firearm. Once the proper shellholder is determined, your results are repeatable — *no die adjustment is necessary*. Each shellholder is clearly marked to indicate the amount it will change case to chamber headspace — *no special tools or gages are needed*.

— Packaged in five piece sets in .002" increments —

The 4th Lowell Hottenstein Memorial Match was held the weekend of June 12th and 13th at the Western Wayne County Conservation Association (WWCCA) range in Plymouth, MI. A total of eighteen shooters had to master their load-tuning skills for the muggy hot temperatures on Saturday and the extremely low humidity (not common to Southeast Michigan) conditions of Sunday. Unfortunately, again the Covid-based border restrictions prevented our Canadian friends from participating. However, the match brought in several past competitors to WWCCA, including Hall of Fame shooter Joe Krupa and Firearm Industry businessman Bill Gravatt.

Prior to the start of shooting on Saturday, Joe Krupa provided a brief tribute to recognize Lowell Hottenstein before we all had a moment of silence in his memory. Several of the newer shooters did not have the opportunity to ever meet Lowell, so Joe told a story about a phrase Lowell would always say just when you think it can't go any worst and you're ready to pack up and go home. He would say in a very calming and an encouraging way, it's time for you to "Scratch and Claw".

We started on the 12th with the Light Varmint class at 100 yards. The weather for the morning match was hot, humid and calm winds, i.e., a trigger pull. When the smoke cleared there was three teen aggs. The lowest belonging to Steve Theye (of Benchrite LLC), a great agg of .1700. Local shooter Tim Bassham finished second with a super nice .1742, and Kurt Schultz finished third with a .1838 agg. Steve Theye also squeaked out a fine .110, which held up the Small Group honors.

As we started the afternoon 100-yard Heavy Varmint match the winds were up a little with the temps climbing to near 90, and the humidity was still high.

This time only one shooter was able to muster a teen agg, and that was Pat Reagin (of PMA Tool) who fired a winning agg of .1908. In second place was Lee Hachigian with a .2068 agg, and in third was Ron Bush with a .2824 agg. The small group was shot again by Steve Theye with a very nice .123. After the shooting was over, WWCCA hosted their well-known steak dinner cookout.

On Sunday the shooters were welcomed to a beautiful sunny day with comfortable temperatures and dry humidity, but the winds were up, so the shooters needed to be on their game to do well. Heavy Varmint was fired first at 200 yards. Lacy Tilley seemed to have everything working and posted a fine agg of .2110. Lee Hachigian finished second, with .2289. Pat Reagin finished third with a .2563 agg. Lacy had the small group of the match of .219.

In the afternoon 200-yard Light Varmint match, conditions continued to be a challenge. In third place was Pat Reagin with a .2647. Sneaking just ahead of him for the second place was Tim Bassham with a .2587. Winning the range agg was DeWayne Wood with a fine .2438. Exceptional for the conditions also was the small group turned in by Steve Theye of .249.

When it was time for the Grand Agg and 2-Gun gun awards we were pleased to see that many competitors remained to cheer for the winners and enjoy some ice-cold refreshments in WWCCA's fine club house. Light Varmint Grand Aggregate was won by Tim Bassham with a .2165. In second and third was Pat Reagin with a .2331 and Kurt Schultz with a .2413, respectively. The winner of the Heavy Varmint Grand Aggregate was Lee Hachigian with a .2179. In second place was again Pat Reagin with a .2236, and in third was Steve Theye with a .2476.

When it came to hand out the 2-Gun trophy and the winner of the 4th Annual Lowell Hottenstein Memorial

Long Range National Championship

600 yard and 1000 yard

October 18-25, 2021

October 18:

- Registration and 600-yard practice day
8:00 am - 3:00 pm

October 19-20: 600-yard Nationals

- Late sign-in: 7:15 - 8:00 am.

October 21:

- Registration and 1000-yard practice day
- Used as a rain day if needed.

October 22-23: 1,000-yard matches

- Late sign in: 7:15 - 8:00 am.

October 24-25:

- Used for rain day if needed.

Match, stepping up to accept the honors was Pat Reagin. He beat the best, with winning agg of .2283. This was Pat's first Two Gun, and you can bet there will be more in the future. Finishing in second was Lee Hachigian with a .2397. Finishing in third position was Steve Theye with a .2459.

2021 Agenda Items for the Board of Directors
(The annual Board of Directors meeting to be held on Saturday, September 18, 2021)

Eastern Region Agenda items:

1) Move the 200 yard unlimited to Saturday instead of Thursday for the NBRSA Nationals. I think that might get us a few more shooters that shoot bag guns only. Submitted by Don Rosette.

2) Allow our Alternate Regional Directors to fully participate in our annual BOD meeting. Currently, our Alternate Regional Directors are permitted to attend our annual BOD meeting, but unable to join in any of the discussions. This discussion restriction has resulted in discouraging all of our Alt. Directors from attending our annual BOD meeting over the past years, stifling the exchange of membership feedback and new growth ideas. Submitted by Jack Neary.

3) Allocate up to 60 minute agenda time during the annual BOD meeting for any members wishing to meet privately with our Board of Directors to review any issues or growth opportunities within the NBRSA. Submitted by Jack Neary.

4) Introduce a "Show Your Bolts" Range Master command requirement immediately after the cease-fire command during all NBRSA discipline registered matches - Long Range/Score and Group. I believe we have become much more cavalier regarding our gun safety at the firing-line, regarding all shooters remaining at the bench until the cease-fire command. The addition of a "show your bolts" bolts command after the cease-fire command will help prevent any potential dangerous safety issues with a loaded rifle leaving the firing line. Submitted by Jack Neary.

5) Create specific Long Range, Score and Group membership volunteer committees to properly focus on any pertinent operational issues and for the sustainable growth of each respective NBRSA shooting discipline. Each of these shooting committees would report, at least on a quarterly basis, during a BOD conf. call meetings their respective emerging issues or activities. Submitted by Jack Neary.

6) Install a two-term limit for all Regional Directors, Vice-President and President leadership roles within the NBRSA. This proposed two-term would help prevent complacency, provide new leadership strategies and provide increased opportunities for more members to participate in the steering direction of the NBRSA. In the event of the lack of an opposing candidate during a given NBRSA officer election, the unopposed incumbent Regional Director, VP and/or President would continue to serve in his/her current leadership role for the next 2-year term. Submitted by Jack Neary.

Gulf Coast Region Agenda items:

We met and had our annual Gulf Coast membership meeting on Saturday May 1st at the Bluebonnet at New Braunfels. The issue with the Seb front bag that happened where two shooters were disqualified at Midland at the Buffalo Shoot because their front sandbag was made with a dip in the middle of the bag to where the sandbag could not be made to make full contact across the forend of the rifle stock.

This is the way that the current rule reads with regard to the front sandbag.

Sandbags:

CURRENT RULE as written in the
Revision #43 Jan 2021 online rule book.

2.11.1. The front sandbag. The front shall be a bag, without additions, containing sand only, and at least 1/2" thick over its entire surface. The portion which contacts the rifle shall contact the entire surface under the fore end. Tape on the sandbag is legal.

Agenda Change Item 1, A or B

Proposed Change to 2.11.1

A.

2.11.1 The front sandbag(s). The front sandbag shall be a bag(s) without additions, containing sand only, and at least 1/2" thick at any point where it contacts the rifle stock. Tape on the sandbag is legal.

OR

B.

2.11.1 The front sandbag(s). The front sandbag shall be a bag(s) without additions, containing a pliable non-metallic filler, and at least 1/2" thick at any point where it contacts the rifle stock. Tape on the sandbag is legal.

This agenda item was **presented by Darryl Whitman** and voted to send as an agenda item to the annual directors meeting by the 30 members present at the regional meeting.

Below on the left is a photo of the Seb bag that was ruled illegal at Midland according to the above rule 2.11.1 in black above. The bag dips down in the middle of the bag and it can not be raised up in the middle of the bag to make full contact with a flat bottomed forend. The photo on the right is of another bag that would also not be legal for NBRSA competition according to rule 2.11.1 as currently written. Technically, as I read the rule as it is written, the front sand bag is a single bag as it is written "it shall be a bag". Changing the rule to front sandbag(s) allows that more than one sandbag

can be used. Without having the front rest in the left hand photo in front of me, the sandbag in the photo appears to be a separate bag on the left and a separate bag on the right side with a separate bottom bag. This is made so that a single front rest can be used with forends of different widths. The shooter moves the bag on each side of the forend in or out to accommodate the width of your forend. I can particularly see this being of benefit to someone who has taken advantage of the NBRSA sporter class rules that have in effect done away with the 3" wide forend width restriction. You either have to have something like this or you have to have at least a separate top for your existing front rest if you are going to take advantage of the change to the sporter class rules. I personally see no reason why the bag on the left should be illegal or the one that is shown on the Mini front rest in the right photo. Making either of these two rule changes would seem to be consistent with the stated objectives of the NBRSA especially line 1.1.1 of the objectives as stated in this email below the two photos shown. With either change to the rule book shown in the blue lettering above as A 2.11.1 or B 2.11.1, both of these front sand bags would be legal sandbags. I am sure that both of these front sand bags were developed with F-Class matches in mind and not designed to circumvent NBRSA rules. Either of these changes would do away with the requirement that the front sandbag make full contact under the forend of the stock. Change B. would also allow other fillers to be used besides sand. It may not be necessary to make that change and other materials to fill the bag may not be any better, but at least with this change people could try other fillers and be able to compete and prove in competition whether it made a difference or not. It would still have to be a pliable material and lead shot would still not be legal to use as a filler. I think as a sport the last thing that we want to become is so hung up on standardizing our competition that we lose innovation.

On the first page of the rule book, the objectives of the NBRSA are stated as following:

1. OBJECTIVES OF THE NATIONAL BENCHREST SHOOTERS ASSOCIATION

- 1.1. The development and encouragement of extreme accuracy in rifles, ammunition, equipment and shooting methods.
- 1.2. The achievement of extreme precision in rifles, ammunition, equipment and shooting methods by shooting "groups".
- 1.3. To standardize on a national basis the entire Benchrest shooting program so that targets, ranges, scoring methods, records and match procedures will be uniform and comparable.
- 1.4. To assist and encourage any individual or organization in the promotion of Benchrest Shooting.
- 1.5. To gather and make available to its members pertinent statistics and technical data

Agenda Change Item 2

Change 1.1.2 to read as follows:

1.1.2 The achievement of extreme precision in rifles, ammunition and shooting methods by shooting "groups" and/or the achievement of extreme accuracy in rifles, ammunition and shooting methods by shooting "score". **Presented by Mike Bryant.**

NBRSA Proposed Rule Change – 6/1/2021, Submitted by Jason Peterson

Summary
The suggested rule changes are designed to change the relay and aggregate formats to achieve the following objectives:

1. Ensure that a competitor does not get to shoot ALL their targets at one time while other shooters work the pits or wait for their opportunity. It is quite common, especially at ranges in the Western U.S., for conditions to grow progressively worse in terms of both wind and mirage. The current relay structure virtually ensures that different relays shoot in much different conditions.

Studies of past matches have shown that shooters that shoot in the first relay almost always have the advantage and are commonly seen at the top of the group/score standings.

To try and make the format more equal we are suggesting that the match proceed in this order:

- Relay 1 shoots first 2 LG targets
 - Relay 2 shoots first 2 LG targets
 - Relay 1 shoots first 2 HG targets
 - Relay 2 shoots first 2 HG targets
 - Relay 1 shoots last 2 LG targets
 - Relay 2 shoots last 2 LG targets
 - Relay 1 shoots last 2 HG target
 - Relay 2 shoots last 2 HG targets
2. Expand aggregates from 3 to 4 targets for both LG and HG to establish a better standard to determine the winner of each class and the overall 2 gun, match champion.
 3. The number of record shots for LG and HG will not change. LG will continue to be 5 record shots per record target. HG will continue to be 10 record shots per record target.

Responses to likely questions:

1. Will this require existing records to be retired? Yes – EXCEPT in the case of single TARGET records (for score or group). All records will be retired to make room for new aggregative records that reflect the new 4 target format. It is our suggestion that we wait until the end of the first year of the format change to measure and finalize any new aggregate records. The match director will retain the TOP THREE sets of winning targets from each match during that year. At the end of the year, match directors and records committee shall review all winning entries and submit the best group/score aggregates to the records director for official scoring/measurements.

2. Will people be willing to rotate more frequently? The hope is that people will recognize that the benefits of the new format, in terms of equalizing match outcomes, outweighs the small inconvenience of having to rotate more frequently. With some practice, competitors should become more efficient in transitioning off benches and to the pits. Preliminary discussions with competitors of ALL AGES have revealed strong support for the suggested changes.

Revised Portions of Rulebook

*****Note - suggested rule changes impact the following parts of the current rule book in the order they appear. The changes are bolded and underlined and previous rules are denoted by [–]. Unless superseded by the rule changes, all other rules will remain unchanged.**

1.2.27. Relay: Competitors on the firing line or in the pits pulling targets or on standby. A relay consists of Light Gun **or** **and** Heavy Gun sighter and record targets.

1.4. Tournament Format

1.4.1. The following tournaments are recognized by the NBRSA and records may be set in these formats only.

1.4.1.1. One Day Tournament: Each Competitor shoots **four [three]** Light Gun record targets and **four [three]** Heavy Gun record targets. A Competitor may choose to shoot only Light Gun or only Heavy Gun class.

1.4.1.2. Two Day Tournament: Each Competitor shoots **four [three]** Light Gun record targets and **four [three]** Heavy Gun record targets each day. A Competitor may choose to shoot only Light Gun or only Heavy Gun class on any day of the of the Tournament.

1.4.1.3. Three Day Tournament: Each Competitor shoots:

- **Day 1: Four (4) Light Gun record targets and two (2) Heavy Gun record targets.**
- **Day 2: Four (4) Heavy Gun record targets and two (2) Light Gun record targets.**
- **Day 3: Two (2) Light Gun record targets and two (2) Heavy Gun record targets.**

A Competitor may choose to shoot only Light Gun or only Heavy Gun class on any day of the of the Tournament.

~~Three Day Tournament: Each Competitor shoots two Light Gun record targets two Heavy Gun record targets each day. A Competitor may choose to shoot only Light Gun or only Heavy Gun class on any day of the of the Tournament.~~

1.4.1.4. One Day Light or Heavy Gun Tournament: Each Competitor shoots **eight [six]** Heavy Gun record targets or **eight [six]** Light Gun record targets.

1.4.4. One Day Tournament Aggregates

1.4.4.1. The following aggregates are calculated for a one day tournament. See “3. Scoring Ties and Penalties” for definitions of the aggregates.

- 1.4.4.1.1. **Four [Three]** Target Light Gun Group Aggregate.
- 1.4.4.1.2. **Four [Three]** Target Light Gun Score Aggregate.
- 1.4.4.1.3. **Four [Three]** Target Heavy Gun Group Aggregate.
- 1.4.4.1.4. **Four [Three]** Target Heavy Gun Score Aggregate.
- 1.4.4.1.5. **Eight [Six]** Target Group Aggregate.
- 1.4.4.1.6. **Eight [Six]** Target Score Aggregate.

1.4.4.2. The following aggregates are calculated for a one day tournament where **eight [six]** Light Gun record strings or **eight [six]** Heavy Gun record strings are shot. See “3. Scoring Ties and Penalties” for definitions.

- 1.4.4.2.1. **Four [Three]** Target Light or Heavy Gun Group Aggregate.
- 1.4.4.2.2. **Four [Three]** Target Light or Heavy Gun Score Aggregate.
- 1.4.4.2.3. **Eight [Six]** Target Light and Heavy Gun Group Aggregate.
- 1.4.4.2.4. **Eight [Six]** Target Light and Heavy Gun Score Aggregate.
- 1.4.4.2.6. World record score or group aggregates can only be set of the first **four [three]** targets **(targets 1,2,3,4) [(targets 1,2,3)]** or second **four [three]** targets **(targets 5,6,7,8) [(targets 3,4,5)]** small group single target and high score single target.
- 1.4.4.2.7. All **four [three]** target group and aggregates shall be checked for records.
- 1.4.4.2.8. World records cannot be set on **eight [six]** target group or score aggregates.

1.4.5. Two Day and Three Day Aggregate.

1.4.5.1. The following aggregates are calculated for a two day or three day tournament. See “3. Scoring Ties and Penalties” for definitions.

- 1.4.5.1.1. **Eight [Six]** Target Light Gun Group Aggregate
- 1.4.5.1.2. **Eight [Six]** Target Light Gun Score Aggregate
- 1.4.5.1.3. **Eight [Six]** Target Heavy Gun Group Aggregate
- 1.4.5.1.4. **Eight [Six]** Target Heavy Gun Score Aggregate
- 1.4.5.1.5. **Sixteen [Twelve]** Target Group Aggregate
- 1.4.5.1.6. **Sixteen [Twelve]** Target Score Aggregate

1.5.19. Course of fire is:

1.5.19.1 For one day and two day tournaments:

- Relay 1 shoots first LG Relay
- Relay 2 shoots first LG Relay
- Relay 1 shoots first HG Relay
- Relay 2 shoots first HG Relay
- Relay 1 shoots last LG Relay
- Relay 2 shoots last LG Relay
- Relay 1 shoots last HG Relay
- Relay 2 shoots last HG Relay

~~[Light Gun first, then Heavy Gun except in an all light gun or heavy gun Tournament.]~~ This is the same for all days of a tournament, all relays. The Competitor shoots from the same bench all relays, all days.

1.5.19.2 Course of fire for a 3 day tournament:

1.5.19.2.1: Day 1:

- Relay 1 shoots 1st LG Relay
- Relay 2 shoots 1st LG Relay
- Relay 1 shoots 1st HG Relay
- Relay 2 shoots 1st HG Relay
- Relay 1 shoots 2nd LG Relay
- Relay 2 shoots 2nd LG Relay

1.5.19.2.2: Day 2:

- Relay 1 shoots 2nd HG Relay
- Relay 2 shoots 2nd HG Relay
- Relay 1 shoots 3rd LG Relay
- Relay 2 shoots 3rd LG Relay
- Relay 1 shoots 3rd HG Relay
- Relay 2 shoots 3rd HG Relay

1.5.19.2.3: Day 3:

- Relay 1 shoots 4th LG Relay
- Relay 2 shoots 4th LG Relay
- Relay 1 shoots 4th HG Relay
- Relay 2 shoots 4th HG Relay

1.5.20. A Light Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, and a second record string.

~~[1.5.20. In a one day or two day tournament, a Light Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, a second record string, a third sighter period and a third record string. Once the Light Gun is complete, the Competitor shoots a Heavy Gun relay similar to the Light Gun relay.]~~

1.5.21. A Heavy Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, and a second record string.

~~[1.5.21. In a three day tournament, a Light Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, and a second record string. Once the Light Gun is complete, the Competitor shoots a Heavy Gun relay similar to the Light Gun.]~~

3.1. Record String

3.1.2. Four [Three] Target Aggregate

3.1.2.1. A "4-Target" Aggregate is defined as either target numbers 1, 2, 3 and 4 or as target numbers 5, 6, 7, and 8 of any multiple target aggregate shot in the same competition, regardless of the number of days of the competition.

~~[3.1.2.1. A "3-Target" Aggregate is defined as either target numbers 1, 2, and 3 or as target numbers 4, 5, and 6 of any multiple target aggregate shot in the same competition, regardless of the number of days of the competition.]~~

~~(Effective as of 1/1/08).]~~

3.1.6. Group Aggregates

3.1.6.1. Light Gun Group Aggregate is calculated by adding together the Light Gun record string groups **(four or eight targets)** ~~[(three or six targets)]~~ and dividing by the appropriate number of targets **(four or eight)** ~~[(three or six)]~~.

3.1.6.2. Heavy Gun Group Aggregate is calculated by adding together the Heavy Gun record string groups **(four or eight targets)** ~~[(three or six targets)]~~ and dividing by the appropriate number of targets **(four or eight)** ~~[(three or six targets)]~~

3.1.6.3. Two Gun group aggregate **(eight or sixteen targets)** ~~[(six or twelve targets)]~~ is calculated by adding together the Light Gun and Heavy Gun group aggregates and dividing by two.

3.1.7. Score Aggregates

3.1.7.1. Light Gun score aggregate is calculated by totaling the Light Gun record string scores **(four or eight targets)** ~~[(three or six targets)]~~ including X's.

3.1.7.2. Heavy Gun score aggregate is calculated by totaling the Heavy Gun record string scores **(four or eight targets)** ~~[(three or six targets)]~~ including X's

3.1.7.3. Two Gun score aggregate **(eight or sixteen targets)** ~~[(six or twelve targets)]~~ is calculated by totaling the Light Gun and Heavy Gun score aggregates including X's.

3.1.8.3. Aggregate Group – 4 target, 8 target, 16 target [3 target, 6 target and 12 target]

3.1.8.3.1. In case of a tie for aggregate group - the higher aggregate score determines the winner.

3.1.8.3.2. In case of a tie the aggregate group, and the aggregate score is also tied - the higher aggregate "X" count determines the winner.

3.1.8.3.3. If the tie still exist, duplicate winners are recognized.

3.1.8.4. Aggregate Score - **4 target, 8 target, 16 target** ~~[3 target, 6 target and 12 target]~~

~~[3.1.8.5. X count tied – go to highest single target score.]~~

~~[3.1.8.6. Highest single target score tied – go to X count.]~~

~~[3.1.8.7. You have up to 6 chances to break a tie on 3 target total and 12 on 6 target total.]~~

5.2. World Records

5.2.1. NBRSA recognizes the following World Records for 600 and 1,000 yard Light Gun class (to begin in 1996 season);

5.2.1.3. Smallest **8-Target** ~~[6-Target]~~ Group Aggregate

5.2.1.4. Highest **8-Target** ~~[6-Target]~~ Total Score

5.2.1.5. Smallest **4-Target** ~~[3-Target]~~ Group Aggregate

5.2.1.6. Highest **4-Target** ~~[3-Target]~~ Total Score.

5.2.2. NBRSA recognizes the World Records for 600 and 1,000 yard Heavy Gun class (to begin in 1996 season):

5.2.2.3. Smallest **8-Target** ~~[6-Target]~~ Group Aggregate

5.2.2.4. Highest **8-Target** ~~[6-Target]~~ Total Score

5.2.2.5. Smallest **4-Target** ~~[3-Target]~~ Group Aggregate

5.2.2.6. Highest **4-Target** ~~[3-Target]~~ Total Score.

made in USA

The match began with temperatures in the mid 50's and ended at noon in the mid 70's. Heavy mirage was a factor from the start of the match. Winds were between 3 to 10mph with gusts of 14mph – with swirling conditions throughout the match. Flags at 50 yards showed the wind blowing L-R, while flags down 100-200 yards showed the winds blowing R-L.

The match was dominated by veteran shooter Billy Copelin from Tacoma, Washington. He placed first in seven out of ten categories we measure and was the overall match winner. Congratulations Billy for a fine shooting performance! Bruce Teel had the smallest LG and HG single target group targets with 1.998" and 2.389" respectively while Billy Copelin captured highest LG and HG single target scores with 48-1X and 96-4X.

In the 3-target aggregate category Billy C. won both LG and HG score. George MacDonald won LG group. The HG group was interesting as Bruce Teel and Billy C. had identical aggregate groups of 4.0777" but the tiebreaker went to Billy C. with the higher 3-target aggregate score of 284-8x to Bruce's 255-1X.

Billy C. won first place in both two gun score and group. Again, Billy Copelin was first in match rank points with 5 followed by Jeff Locke in second place with 16 and Matt Daly with a third place finish of 17 points.

Thank you to all our shooters for attending with special thanks to Jeff Locke for measuring/scoring and George MacDonald, Larry Kahle, Matt Daly and Bruce Teel for setting up the pits for the match. As always thanks to Tri-County Gun Club for hosting the event.

~Fred Dobson~

Please keep written match reports
to one page, two pages at most!

Reminder!

All match reports and content must be received by the 13th of each month to be included in the next month's issue.

Send to Editor Serena Juchnowski
serenajuchnowski@gmail.com

Please note that all match reports submitted are subject to editing to fit space constraints. Email editor for full report and include match name/date/ requested info.

Attention All Match Directors:

Please be advised, going forward, the NBRSA will only be publishing match reports for those ranges who are checking and verifying NBRSA membership cards for confirmation of current member status, as per the NBRSA Match Agreement you have each signed. Most regrettably, there are Match Directors who are knowingly allowing non-members to compete in our various Group/Score and Long Range registered matches, resulting in numerous issues including receiving award plaques, potential world records, etc... robbing current paying NBRSA members, not to mention our liability insurance carrier requires all match competitors to be NBRSA members. Thank you in advance for your cooperation.

- Jack Neary

Important Message to All Members:

This is just a reminder of the importance of keeping your membership current. Should you ever decide to run for a Regional Director position, you must comply with the bylaw listed below. If there is any lapse in your membership, even a day, you would not be eligible to run until you comply with the three (3) years of consecutive membership immediately prior to running bylaw.

ARTICLE III – BOARD OF DIRECTORS 1. Power of Board and Qualifications of Directors. 1.1. The Association shall be managed by its Board of Directors. Each director shall be at least eighteen years of age and shall have been a member of the Association for at least three (3) consecutive years immediately prior to running for director with no lapses in membership and shall be a resident of the Region which he or she is elected to represent.

You also must be a member of the NBRSA to compete in our registered matches, receive acknowledgement of world records, and receive your monthly magazine.

The Business Manager sends out renewal cards at least five (5) weeks prior to your expiration date. This is a courtesy to our members but does not excuse members for not taking care of renewals prior to their expiration date.

We value all of our members and want each member to be able to participate in all of our NBRSA events.

May 2021 be a very successful year for all of you.

- Pam Campbell, Business Manager

Change of Address: To change your address or report a damaged or undelivered magazine, write: NBRSA, PO Box 349, Concord, VA 24538. Do not return damaged copies. Change of address should include both new address and a mailing label bearing the old one. In case of duplication send both labels.

Contributors: The editor is not responsible for unsolicited manuscripts or photographs. Advertisers: Rate cards and terms are available online at www.nbrsa.org/membership-info. We appreciate your support!

Safety Disclaimer: The publication, writers, organization officers, staff, and directors explicitly advise the readers that they make no representation of safety for any loads, techniques, and procedures if reported herein. The nature of participating in a shooting sport automatically requires caution at all times. Given the many variables present—weather, equipment, and components—the information presented is for your reading enjoyment.

Printed in the USA

Hydro Bullet Seater with extended base and interchangeable loading blocks

Our New 21st Century Reloading Hydro Bullet Seater is designed for bullet seating with hand dies. Height adjustment is a simple twist of the knob with very little effort.

With this press you will receive the feedback and data to help control neck tension. Unique design for the field or bench. No need to bolt or fasten to bench. Extended base also available with the New Generation Press.

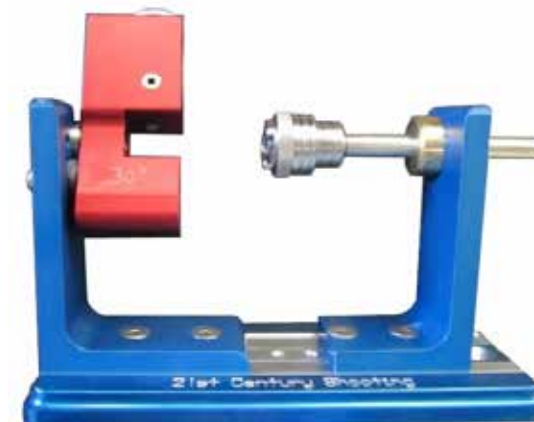

Click Head Stainless Steel Bench Rest Quality Primer Tool

The feel, the precision, the quality and the ease of adjustment of this tool are unique. Features include click head adjustments for precise primer seating and all stainless steel components with aluminum handle.

Concentricity Gauge with wheel

This device enables the user to rotate the case one complete revolution with about 1/8 of a turn on the wheel. Providing consistent pressure on the case. Easily retrofits in a snap to the 21st Century Shooting Concentricity Gauge (run out gauge - as shown). Features include canting to the left or right to keep the base of the case rotating against the stop. For unlimited setup scenarios. Simply amazing!

Neck Turning Lathe

The floating design of our neck turner and the universal floating case driver allows the case mouth (bore) to run on the arbor absolutely concentric. Therefore allowing O.D. to be turned concentric with I.D. The tail-stock creates a horizontal inline support for the base of the case. Also allows the operator to keep both hands on the power screw driver or drill. This makes it very easy to control feed rate of the cutting operation, generating a very fine turned finish. Case holder drivers are designed to be the most gentle driver, yet providing an adequate hold.

DOES NOT DRIVE OFF THE PRIMER POCKET
NO PRIMER POCKET OR CASE DAMAGE.
Driver shaft is hexed to use power screw driver or drill.
17cal. Fireball to a .416 Rigby. Also 50cal.
