BEN AVERY 5 SHOT UNLIMITED

April 2021 -- Phoenix, Arizona

Results Received: 6/7/2021

Attendance for this years 5 shot Unlimited was down considerably from previous years for several reasons. One was Covid another was the forecasted weather. It was hot even for Arizona this time of year. We started with 19 shooters and finished with 15.

As always we shot 100 yards on Saturday and 200 yards on Sunday. Shooting conditions were very similar for the weekend; however with slightly less wind on Sunday for 200. Temps ranged from 83 to 100 degrees. Winning the first 100 was Duke Rovarino with a .1916. Duke also shot the small group for the yardage a .099. There were some really competitive Rail gun shooters shooting this match; when you see a winning agg for 5 shots with a rail at .19 you can tell it was really tricky shooting conditions.

Top 6 first 100 yard aggregate 5 shot Unlimited

1. Duke Rovarino .1916
2. Chuck Miller .2126
3. Gary Ocock .2246
4. Brad Jensen .2286
5. Lester Bruno .2292
6. Bud Mundy .2298

Honorable mention goes to Paul Weaver who purchased a few days before the match a rail

gun shooting a .2306 for 7th place.

After a lunch break we shot the second 100 yard stage. At this point the temperature was 97 degrees and the winds were picking up as well. Winning the second 100 was again the Dukester Rovarino with a .1950. Duke has been working at group benchrest the last few years really hard and this year especially is seeing the fruits of his efforts. Shooting small group for the yardage was Lou Murdica with a .092.

Top 6 2nd 100 yard aggregate 5 shot Unlimited

1. Duke Rovarino .1950
2. Joe Stanovich .2224
3. Dan Sutton .2308
4. Chuck Miller .2316
5. Gary Ocock .2406
6. Brad Jensen .2408

Honorable mention goes to Matt Schwartzkopf for 12th place beating several very good and experienced rail gun shooters; Matt was shooting a LV/SP rifle, no stinken rail for the match director.

Sunday we shot the 200yard stages. Since, we started one hour earlier than Saturday the temperature was 6 degrees less (83) to start

the match and the winds were a few mph less all day as well. The wind was switching as it was on Saturday but not as quick or as often. Winning the yardage with a really nice aggregate was Gary Ocock shooting a .1576. Gary shot 4 three's and a .171 that was also small group for the yardage.

Top 6 first 200 yard aggregate 5 shot Unlimited

1. Gary Ocock .1576
2. Dukester Rovarino .2038
3. Chuck Miller .2253
4. Barry Benson .2256
5. Bud Mundy .2436
6. Joe Stanovitch .2502

Honorable mention goes to Paul Weaver for finishing one place higher than one of the best group benchrest shooters ever.

After a very short break we shot the second 200 yard stage. At this point the temp was 95 degrees, again the winds were picking up as well. Winning this aggregate was Hall of Famer Lester Bruno with a .2357. Shooting small group for the aggregate was Gary Ocock with a .312. All 5 targets in this agg were won with groups in the threes.

Top 6 2nd 200 yard aggregate 5 shot Unlimited

1. Lester Bruno .2357
2. Gary Ocock .2385
3. Duke Rovarino .2435
4. Chuck Miller .2737
5. Bud Mundy .2970
6. Dana Andrus .3038

Dishonorable mention goes to Joe Stanovich who with one shot; shot a 2.562. Without that one shot Joe would have finished in 5th place in the aggregate.

Top 6 first Grand 5 shot Unlimited

1. Gary Ocock .1911
2. Duke Rovarino .1977
3. Chuck Miller .2190
4. Barry Benson .2310
5. Bud Mundy .2367
6. Paul Weaver .2488

Top 6 2nd Grand 5 shot Unlimited

1. Duke Rovarino .2192
2. Gary Ocock .2396
3. Chuck Miller .2526
4. Lester Bruno .2627
5. Marty Childers .2738
6. Dana Andrus .2778

6. Barry Benson .2700

This was our last match at Ben Avery for our early 2021 schedule; we'll start up again in October. Hopefully the Covid situation will be well behind us and some of the active group benchrest shooters will come back and give it a go. Thank you to Matt, Michelle and Sherri, Match Managers and the Wickenburg High School Rifle Team for being our target crew, they do a great job as always. I also want to thank the shooters who help repair our target frames in the off season; those who also help set up, take down and move the frames from 100 yards to 200. These frames are heavy duty and are a bear to move around. We need them like that as we can get winds that will not only move the frames around as we are trying to shoot small groups but they can also be damaged. So the volunteer help we get allows us to have registered group matches at the Ben Avery shooting complex. Thank you.

Match reporter
- Gary Ocock

Duke Rovarino, Lester Bruno, Gary Ocock,
Chuck Miller and Lou Mordica

I brought from home my weather station with the idea that the more info we (shooters) could get the better our performance on the target might be. I had the read out located on my reloading bench; so data logged was post each match. I was looking for a trend of some sort. The station was flag height 35 yards at 100 and 50 yards for the 200. What I learned (I already knew) the more the wind blew the bigger the groups. My station doesn't read direction and for this match the wind changed direction many times and quickly. At best, the info received was more precise than just understanding the wind blew and changed directions as well.

Below is the data from my experiment on using a weather station to monitor the shooting conditions for the match. My conclusion is the system I used isn't sophisticated enough to make any correlation between data received and results; other than more wind, larger groups. If you shoot for accuracy you already know this.

BTW Our last groups fired each day the temp was 100 on the range. When I got home I put the monitor in the back yard (where I had it the last 15 years or so) and in an hour or so the temp reached 110 for a high. Two and a half weeks before this match I wore 5 layers of clothing for Saturday's competition at the Cactus; welcome to Arizona.

The data wind speed average was for the 7 min. of the match and the max wind speed is max during the 7 min.

Accurate Weather Data	April 3 & 4 2021	Unlimited Match	Small Group	Large Group

TED MANNING CHALLENGE

May 15 - 16, 2021 -- Roanoke, Virginia

Results Received: 5/21/2021

Tim Singleton wins 2021 Ted Manning Challenge

Roanoke Rifle and Revolver Club hosted the 2021 Ted Manning Challenge May 15-16 2021. It was really great to see David Condor and Roy Darnell back after several years out of the game. Roy brought two new group shooters, Zachary Darnell and Caleb Stack. Zachary and Caleb...welcome to our family and we look forward to shooting with you in the future!

Saturday temps were very cool with shifting wind. Tim Singleton came out of the gate with .174 on match 1 to take the lead and never looked back. His consistent shooting resulted in a win with an agg of .1946. Wayne Campbell finished second with .2278 and Allen Arnette was third with .2676. Wayne Campbell shot a very nice .113 in match 3 to win small group.

In Heavy Varmint 100 Allen Arnette started strong shooting .179 in match 1. In match 3 Al Talley shot a very nice .159 pulling into second place. In match 4 Tim shot .134 to take the lead and finished with .187 in match 5 to take first place with an agg of .2150. Al Talley finished second with .2332 and Jack Neary was third with .2350. New shooter Zachary Darnell shot a nice .132 to win small group.

Sunday morning was warmer with zero wind. Wayne Campbell pulled out his Plan B rifle and started out with .277 in match 1, followed up by .257 and .280 in matches 2 and three. Everyone was talking about "World Record", and I guess we jinxed him leading to .430 in match 4. He shot .294 in match 5 to take the win with .1538. Tim Singleton shot consistently finishing second with .2063 and Allen Arnette was third with .2259. Wayne had the small group of .257.

Sunday afternoon the wind arrived. In Light Varmint 200 Wayne Campbell started with .340 in match 1. In match 2 Harley Baker shot .440 to take the lead and never looked back finishing first with .1984. Wayne Campbell took second place with .2374 and Steve Lee shot small group .268 in match 5 to win third with .2403.

In Light Varmint Grand Tim Singleton was first with .2232, Wayne Campbell finished second with .2326 and Harley Baker was a close third with .2343.

In Heavy Varmint Grand, Tim was first with .2107, Wayne Campbell second with .2209 and Allen Arnette third with .2363.

Tim won the 2 gun with .2169, Wayne Campbell second with .2268 and Allen Arnette third with .2489.

As usual Gil Gross, Mike Jennings and the entire Roanoke crew hosted a fine shoot with great food and good companionship. We hope to see everyone back for the Virginia State Championship September 11-12.

NORTHERN CO - VFS, HUNTER SCORE

May 1 - 2, 2021 -- Eaton, Colorado

Results Received: 5/18/2021

Howdy all! Wile E. Coyote reporting from Northern Colorado Benchrest Shooters. Welcome to another year of Benchrest competition at our beautiful range in Eaton, Colorado!

Our first match of the year was held May 1st and 2nd. Gorgeous weather for shooting graced 20 shooters who came out for Hunter and Varmint for Score matches. The loading barn buzzed as shooters caught up from the long winter and previous year. There's nothing like the first shoot of the year without COVID restrictions!

Saturday morning everyone lined up at our benches; eager to throw lead down range and praying to take 1st place bragging rights. Twenty shooters, chomping at the bit, let loose on "Commence Fire". Ron Powell wasn't only here to have fun, he meant business. In Hunter Class, Ron took the 1st place position with his outstanding score of 250 17x, which was also the High X-Count. Looks like he was starting on a trend here; that's one for the kennel and one for the birdcage.

Varmint for Score shooters stood back in awe of Irv Sheldon. Irv was on top of his game and took 1st place with 250 21x and he claimed the High X-Count too. Another kennel and birdcage being filled. I hope Irv has room at home for his trophies!

Way to go winners Ron and Irv! What a sensational day for shooting. The temp was just right, the company was top notch, and the enjoyment was off the scales.

After a nice long lunch with lots of laughing, eating, and preparing for the next phase, the shooters lined up at the benches for another Varmint for Score round. Once again, Irv was kicking booty and taking names. His score of 250 22x won him 1st place and High X-Count. Outstanding Irv! I'm not sure I believe it when he tells me he can't see...

Sunday morning began just as pretty as Saturday, though slightly cooler with a gentle wind. The weather service called for an afternoon storm. Everyone hoped it would wait for late afternoon. It didn't. Hunter shooters hurried to the line eager to try their hand at claiming first place. The current task, 200 yards. Ron Powell again dominated his opponents with his final score of 246 7x. Like before, he also claimed the High X-Count. Exceptional!

Not to be out classed, two Varmint for Score shooters, in the same family, earned the trophies. Irv Sheldon's 1st place score was 247 4x, while his son, Phillip Sheldon, proudly held his Roadrunner high for his X-Count of 6x. Super shooting fellas! I think it runs in the family...

After a well-earned lunch break, the shooters once again strode to the line. Everyone was ready for the last leg of the weekend festivities (though not the weather's idea). The shooters made it as far as the first target before the wind stomped in doing a horrible jig. Targets were ripped from frames and sent to neighboring ranges. A couple even made it out of state, I'm sure of it. Dakota did an excellent job of gathering the wayward targets, regardless of the weather's shenanigans. The group voted to avoid as much dirt in their guns and faces as possible and the final match was canceled. And none too soon, the rain conspired with the wind; we were done.

HARRELLSPREC.COM

Under the safety of the loading barn, the trophies were handed out. Irv Sheldon cleaned house this weekend with his Aggs. Varmint for Score Agg-1: 250 21x (remember the 200yds wasn't shot). Agg-2: 497 26x. Grand Agg 2 day: 747 47x. Holy smokes! Irv you are a master! Ron Powell took home the big trophy for his Hunter 100-200 Grand Agg score: 496 24x. That's some serious shooting folks! Lastly for our shooters who competed in both Hunter and Varmint for Score we have a 2-Gun Grand Agg winner. Hold on to your seats, folks. Ron Powell didn't hold any punches with his score of 746 37x. Amazing shooting! As always none of this could happen without the shooters who come to play and the amazing staff, match director and target crew. We hope you come to join us at any of our matches and don't forget about our Annual Firewalker Match!

Until next time, keep them in the 10 ring. - Wile E. Coyote

LAND'S END BR SPORTER/UNLIMITED

May 15-16, 2021 -- Whitewater, Colorado

Results Received: 6/4/2021

Mild temps and a light breeze were present during the start of match 1 of the 2021 Unlimited 10 shot as Dave Scherman wins match 1 with a nice .265. Match Director Tom Stiner takes match 2 with a .251. Match 3 will produce a tie between two veteran local shooters Dave Gibson and Larry Leser with a .253. Dave Gibson is back for the win in match 4 with a nice .221 in increasingly adverse conditions. Dave Scherman confirms his tune is on in match 5 with the small group for the yardage with a screaming .191 10 shot group, a very respectable group anywhere. Another veteran shooter from the Salt Lake Valley Dave Tunbridge was the winner for the yardage with a .2762 agg, rounding out the top 5 were 2nd Dave Gibson, 3rd Dave Scherman, 4th Pete Savage and 5th place would go to match director Tom Stiner.

After lunch the target frames were moved in position for the Unlimited 10 shot 200 yard. In thickening mirage and rapidly deteriorating conditions Joe Olas took match 1 with a .658. Winning match 2 with a .795 and match 3 with an impressive .511 that ended up being the small group for the yardage was local shooter Leon Noel. Local veteran shooter Dave Gibson won match 4 with a .740. Leon Noel also won match 5 with a .806

Top 5 in the Unlimited Grand as follows;

1st Dave Gibson .4013
2nd Dave Tunbridge .4101
3rd Joe Olas .4752
4th Leon Noel .5013
5th Larry Leser .5053

Sunday mornings Sporter 200 5 shot started in conditions that could get you in trouble if you weren't really careful. Benchrest Hall Of Famer Lowell Frei started off with a .374 for the match 1 win. Match 2 with a .499 was Kelly Ellis, match 3 with a .469 was Leon Noel, Match 4 with what ended up being the small group for the yardage was veteran front range shooter Darrel Phillips with a .361, rounding out the yardage with a match 5 win was local shooter Scott Pace, Scott also kept it together and won the yardage .3221

After lunch the target frames were moved back into position for the Sporter 100 5 shot. Central Utah's Paul Snow started strong with a .169. Match 2 was won by veteran shooter and rifle builder Dan Dowling with a .164. Match 3 again found Paul Snow winning with a .228 followed by Darrel Phillips in match 4 with a .152 finishing up the day with a .127 was Kelly Ellis, this score also held up for the small group of the yardage.

Top 5 in the Sporter Grand as follows;

1st Lowell Frei
2nd Scott Pace
3rd Dave Gibson
4th Dan Dowling
5th Leon Noel

Sporter / Unlimited 2 Gun top 10 were as follows;

1st Dave Gibson
2nd Dave Tunbridge
3rd Joe Olas
4th Leon Noel
5th Tom Stiner
6th Lowell Frei
7th David Scherman
8th Larry Leser
9th Mark Schwab
10th Paul Snow

A special Thanks goes out to Tom & Bonnie Stiner and Dan & Rose Dowling and their crew for putting on a great professionally ran match, their efforts are greatly appreciated.

TCGC 600 YARD MATCH

May 30, 2021 -- Sherwood, Oregon

Results Received: 6/1/2021

The match began with temperatures in the mid 50's and ended at noon in the mid 70's. Heavy mirage was a factor from the start of the match. Winds were between 3 to 10mph with gusts of 14mph – with swirling conditions throughout the match. Flags at 50 yards showed the wind blowing L-R, while flags down 100-200 yards showed the winds blowing R-L. The match was dominated by veteran shooter Billy Copelin from Tacoma, Washington. He placed first in seven out of ten categories we measure and was the overall match winner. Congratulations Billy for a fine shooting performance!

Thank you to all our shooters for attending with special thanks to Jeff Locke for measuring/scoring and George MacDonald, Larry Kahle, Matt Daly and Bruce Teel for setting up the pits for the match. As always thanks to Tri-County Gun Club for hosting the event. ~Fred Dobson~

Light Gun Group		
	Competitor	LG 1-3 Agg.
1	George MacDonald	2.3960
2	Billy Copelin	2.7803
3	Larry Wright	3.0223
4	Jeff Locke	3.3373
5	Craig Matthew	3.3823

Light Gun Score		
	Competitor	LG 1-3 Agg.
1	Billy Copelin	139-2x
2	Jeff Locke	138-2x
3	Larry Kahle	135
4	Craig Matthew	133-1x
5	Matt Daly	131-2x

Heavy Gun Score		
	Competitor	LG 1-3 Agg.
1	Billy Copelin	284-8x
2	Matt Daly	272-3x
3	Jeff Locke	271-2x
4	Larry Kahle	264-1x
5	Larry Wright	258-3x

Bruce Teel had the smallest LG and HG single target group targets with 1.998" and 2.389" respectively while Billy Copelin captured highest LG and HG single target scores with 48-1X and 96-4X.

In the 3-target aggregate category Billy C. won both LG and HG score. George MacDonald won LG group. The HG group was interesting as Bruce Teel and Billy C. had identical aggregate groups of 4.0777" but the tiebreaker went to Billy C. with the higher 3-target aggregate score of 284-8x to Bruce's 255-1X.

2 Gun Group				
	Competitor	LG 1-3 Agg.	HG 1-3 Agg.	6 Target Agg.
1	Billy Copelin	2.7803	4.0777	3.4290
2	George MacDonald	2.3960	4.5443	3.4702
3	Bruce Teel	3.4440	4.0777	3.7608
4	Matt Daly	3.5083	4.4080	3.9582
5	Jeff Locke	3.3373	4.7600	4.0487

Heavy Gun Group		
	Competitor	LG 1-3 Agg.
1	Billy Copelin	4.0777
2	Bruce Teel	4.0777
3	Matt Daly	4.4080
4	George MacDonald	4.5443
5	Larry Kahle	4.7113

2 Gun Score				
	Competitor	LG 1-3 Agg.	HG 1-3 Agg.	6 Target Agg.
1	Billy Copelin	139-2x	284-8x	423-10x
2	Jeff Locke	138-2x	271-2x	409-4x
3	Matt Daly	131-2x	272-3x	403-5x
4	Larry Kahle	135	264-1x	399-1x
5	Larry Wright	129-1x	258-3x	387-4x

Billy C. won first place in both two gun score and group. Again, Billy Copelin was first in match rank points with 5 followed by Jeff Locke in second place with 16 and Matt Daly with a third place finish of 17 points.

KELBLY'S

A HIGHER LEVEL OF ACCURACY

KELBLY KLP BENCHREST STOCK

Similar design to a Scoville/Scarborough Carbon Fiber shell that is foam filled for no vibration. Mold in colors available LV 26 oz HV 48 oz weight system is optional. 33 3/4" Length Low Profile, 3" forearm 1/2" flat on rear for better tracking. Check out other stock designs and other Kelbly Products at kelbly.com.

KELBLY PANDA ACTION

Kelbly's has redesigned the Panda action with a micro port and Sako style extractor. Ready to compete straight out of the box. 2-3 times the bedding surface area of a round action for a stiffer platform. Aluminum body with integral scope base reduces vibrations that affect accuracy. Black Nitride finish optional on bolts for an even smoother operation.

The Northwest Heavy Varmint Regional/Andrews Memorial match was held on June 5th (Saturday) and 6th (Sunday) at the Tacoma Rifle and Revolver Club. On Saturday morning, 14 shooters took to the line for the 100-yard Heavy Varmint matches. A couple hours prior to the match, the wind flags placed by shooters the day before were moving and the old saying, "Wind flags moving this early in the morning, shooter take warning" was in effect. The morning started cool with cloud coverage but then temperatures warmed up while the sun came out which led to intense mirage. Because of the mirage, it was not uncommon to hear, "I can't even see the rings in the target." The wind rapidly switched direction and intensity. Many shooters described having to "pick" at the target which meant they chose a condition to shoot in and then had to wait for the condition to come back after it changed. Other shooters described how they held over because it was difficult to determine whether a condition had come back. Often, flags within one shooter's array of flags were oriented in opposite directions with the flagging tapes showing varying degrees of wind intensity.

The morning started with the 100-yard Heavy Varmint class. Steve Kostanich shot a small .121. In the second match, Paul Weaver shot a .166. The third match had Mustafa Bilal shooting a tiny .089 for the small group! In the final matches, Dan Kjelland and Jim Lynn won the matches with .141 and .179 respectively. Larry Boers demonstrated good consistency in his groups and won the aggregate with a .1964 with Steve Kostanich (.2568) and Mark Walker (.2612) right behind Larry in the second and third slots respectively.

In the afternoon the 200-yard Heavy Varmint class was held and the mirage and switchy wind were in full effect. The first match was particularly difficult because of the conditions. Most shooters shot over 1 inch in the first match. However, in the first match, Jeff Lewis shot a .407 for the win. In the second match, Mark Walker shot the small group with a .273. In the final three matches, Jim Lynn (.327), Larry Boers (.440), and Dan Kjelland (.340) won matches three, four, and five respectively. Mark Walker won the aggregate with a .2301 with Dan Kjelland (.2960) and Jim Lynn (.3420) in the second and third slots respectively.

At the end of the day, Mark Walker won the grand aggregate with a .2457. Dan Kjelland took second place with a .2799 and Larry Boers took third with a .3007. Congratulations to Mark Walker and his "Frankenstein" rifle for pulling through the extremely difficult conditions for the win!

On Sunday, 15 shooters took to the line in the morning to begin shooting in the Unlimited class at 200 yards. A handful of the shooters came from Kenmore Shooting Range (within WA) to shoot the match. It was nice having them at the match! The conditions started off mild but as the morning progressed, the wind intensified. The wind switched at times but showed more consistency relative to the day before. The sun was nowhere to be found and it rained often and the temperature stayed cool all day. Paul Weaver won the first match with a .367. Match two went to Mark Walker with a .214. Matches three and four went to Steve Kostanich with a .236 and an INCREDIBLE .090 respectively. After match four, many shooters speculated about the possibility of Steve's group being a new NBRSA world record. Jeff Crose finished off the morning winning match five with a .169 and he won the aggregate for the yardage with a very consistent set of small groups; his aggregate measured .1817. Behind Jeff Crose were Steve Kostanich (.1819) and Larry Boers (.1883) in second and third places respectively. In the afternoon, shooters took

to the line for the Unlimited 100-yard matches. Larry Boers started off the first two matches with winning groups measuring .132 and .086 respectively. Mustafa Bilal won match three with a .133 and Jeff Crose won match four with a .119. In the final match, Mustafa Bilal shot an incredibly small group measuring .084 for the win, with an aggregate of .1410. Larry Boers came in second with a .1444 aggregate and Bryan Zolnikov in third with a .1580.

At the end of the day, Larry Boers won the grand aggregate with a .1663. Steve Kostanich took second place with a .1818 and Mark Walker took third with a .1849. Congratulations to Larry Boers on winning the day! The Heavy Varmint-Unlimited grand aggregate showed Mark Walker in first with an incredible .2153, Larry Boers in second with a .2335, and Steve Kostanich in third with a .2670. Congratulations Mark! It was a yet another great weekend with a lot of high energy. There was a great mixture of shooters all coming together to have a great time and learn from each other. It was great having our extended family from Kenmore join us on Sunday (Larry Wright, Richard Nicol, Bruce Teel, and Jeff Locke). A huge thanks to the crew that facilitated the match: Geoff Hallett, Craig Kensler and Cai Warner. They did a great job running the range, stats, and target crew. Also, Jeff Lewis works tirelessly "behind the scenes" to support the shooters and the matches so a massive thanks to Jeff.

2021 Agenda Items for the Board of Directors

(The annual Board of Directors meeting to be held on Saturday, September 18, 2021)

Eastern Region Agenda items:

- 1) Move the 200 yard unlimited to Saturday instead of Thursday for the NBRSA Nationals. I think that might get us a few more shooters that shoot bag guns only. Submitted by Don Rosette.
- 2) Allow our Alternate Regional Directors to fully participate in our annual BOD meeting. Currently, our Alternate Regional Directors are permitted to attend our annual BOD meeting, but unable to join in any of the discussions. This discussion restriction has resulted in discouraging all of our Alt. Directors from attending our annual BOD meeting over the past years, stifling the exchange of membership feedback and new growth ideas. Submitted by Jack Neary.
- 3) Allocate up to 60 minute agenda time during the annual BOD meeting for any members wishing to meet privately with our Board of Directors to review any issues or growth opportunities within the NBRSA. Submitted by Jack Neary.
- 4) Introduce a "Show Your Bolts" Range Master command requirement immediately after the cease-fire command during all NBRSA discipline registered matches - Long Range/Score and Group. I believe we have become much more cavalier regarding our gun safety at the firing-line, regarding all shooters remaining at the bench until the cease-fire command. The addition of a "show your bolts" bolts command after the cease-fire command will help prevent any potential dangerous safety issues with a loaded rifle leaving the firing line. Submitted by Jack Neary.
- 5) Create specific Long Range, Score and Group membership volunteer committees to properly focus on any pertinent operational issues and for the sustainable growth of each respective NBRSA shooting discipline. Each of these shooting committees would report, at least on a quarterly basis, during a BOD conf. call meetings their respective emerging issues or activities. Submitted by Jack Neary.
- 6) Install a two-term limit for all Regional Directors, Vice-President and President leadership roles within the NBRSA. This proposed two-term would help prevent complacency, provide new leadership strategies and provide increased opportunities for more members to participate in the steering direction of the NBRSA. In the event of the lack of an opposing candidate during a given NBRSA officer election, the unopposed incumbent Regional Director, VP and/or President would continue to serve in his/her current leadership role for the next 2-year term. Submitted by Jack Neary.

Gulf Coast Region Agenda items:

We met and had our annual Gulf Coast membership meeting on Saturday May 1st at the Bluebonnet at New Braunfels. The issue with the Seb front bag that happened where two shooters were disqualified at Midland at the Buffalo Shoot because their front sandbag was made with a dip in the middle of the bag to where the sandbag could not be made to make full contact across the forend of the rifle stock.

This is the way that the current rule reads with regard to the front sandbag.

Sandbags:

CURRENT RULE as written in the

Revision #43 Jan 2021 online rule book.

2.11.1. The front sandbag. The front shall be a bag, without additions, containing sand only, and at least 1/2" thick over its entire surface. The portion which contacts the rifle shall contact the entire surface under the fore end. Tape on the sandbag is legal.

Agenda Change Item 1, A or B

Proposed Change to 2.11.1

A.

2.11.1 The front sandbag(s). The front sandbag shall be a bag(s) without additions, containing sand only, and at least 1/2" thick at any point where it contacts the rifle stock. Tape on the sandbag is legal.

OR

B.

2.11.1 The front sandbag(s). The front sandbag shall be a bag(s) without additions, containing a pliable non-metallic filler, and at least 1/2" thick at any point where it contacts the rifle stock. Tape on the sandbag is legal.

This agenda item was presented by Darryl Whitman and voted to send as an agenda item to the annual directors meeting by the 30 members present at the regional meeting.

Below on the left is a photo of the Seb bag that was ruled illegal at Midland according to the above rule 2.11.1 in black above. The bag dips down in the middle of the bag and it can not be raised up in the middle of the bag to make full contact with a flat bottomed forend. The photo on the right is of another bag that would also not be legal for NBRSA competition according to rule 2.11.1 as currently written. Technically, as I read the rule as it is written, the front sand bag is a single bag as it is written "it shall be a bag". Changing the rule to front sandbag(s) allows that more than one sandbag can be used. Without having the front rest in the left hand photo in front of me, the sandbag in the photo appears to be a separate bag on the left and a separate bag on the right side with a separate bottom bag. This is made so that a single front rest can be used with forends of different widths. The shooter moves the bag on each side of the forend in or out to accommodate the width of your forend. I can particularly see this being of benefit to someone who has taken advantage of the NBRSA sporter class rules that have in effect done away with the 3" wide forend width restriction. You either have to have something like

this or you have to have at least a separate top for your existing front rest if you are going to take advantage of the change to the sporter class rules. I personally see no reason why the bag on the left should be illegal or the one that is shown on the Mini front rest in the right photo. Making either of these two rule changes would seem to be consistent with the stated objectives of the NBRSA especially line 1.1.1 of the objectives as stated in this email below the two photos shown. With either change to the rule book shown in the blue lettering above as A 2.11.1 or B 2. 11.1, both of these front sand bags would be legal sandbags. I am sure that both of these front sand bags were developed with F-Class matches in mind and not designed to circumvent NBRSA rules. Either of these changes would do away with the requirement that the front sandbag make full contact under the forend of the stock. Change B. would also allow other fillers to be used besides sand. It may not be necessary to make that change and other materials to fill the bag may not be any better, but at least with this change people could try other fillers and be able to compete and prove in competition whether it made a difference or not. It would still have to be a pliable material and lead shot would still not be legal to use as a filler. I think as a sport the last thing that we want to become is so hung up on standardizing our competition that we lose innovation.

On the first page of the rule book, the objectives of the NBRSA are stated as following:

1. OBJECTIVES OF THE NATIONAL BENCHREST SHOOTERS ASSOCIATION

- 1.1. The development and encouragement of extreme accuracy in rifles, ammunition, equipment and shooting methods.
- 1.2. The achievement of extreme precision in rifles, ammunition, equipment and shooting methods by shooting "groups".
- 1.3. To standardize on a national basis the entire Benchrest shooting program so that targets, ranges, scoring methods, records and match procedures will be uniform and comparable.
- 1.4. To assist and encourage any individual or organization in the promotion of Benchrest Shooting.
- 1.5. To gather and make available to its members pertinent statistics and technical data

[Agenda Change Item 2](#)

Change 1.1.2 to read as follows:

[1.1.2 The achievement of extreme precision in rifles, ammunition and shooting methods by shooting "groups" and/or the achievement of extreme accuracy in rifles, ammunition and shooting methods by shooting "score".](#) **Presented by Mike Bryant.**

NBRSA Proposed Rule Change – 6/1/2021, Submitted by Jason Peterson

Summary

The suggested rule changes are designed to change the relay and aggregate formats to achieve the following objectives:

1. Ensure that a competitor does not get to shoot ALL their targets at one time while other shooters work the pits or wait for their opportunity. It is quite common, especially at ranges in the Western U.S., for conditions to grow progressively worse in terms of both wind and mirage. The current relay structure virtually ensures that different relays shoot in much different conditions.

Studies of past matches have shown that shooters that shoot in the first relay almost always have the advantage and are commonly seen at the top of the group/score standings.

To try and make the format more equal we are suggesting that the match proceed in this order:

- Relay 1 shoots first 2 LG targets
 - Relay 2 shoots first 2 LG targets
 - Relay 1 shoots first 2 HG targets
 - Relay 2 shoots first 2 HG targets
 - Relay 1 shoots last 2 LG targets
 - Relay 2 shoots last 2 LG targets
 - Relay 1 shoots last 2 HG target
 - Relay 2 shoots last 2 HG targets
2. Expand aggregates from 3 to 4 targets for both LG and HG to establish a better standard to determine the winner of each class and the overall 2 gun, match champion.
 3. The number of record shots for LG and HG will not change. LG will continue to be 5 record shots per record target. HG will continue to be 10 record shots per record target.

Responses to likely questions:

1. Will this require existing records to be retired? Yes – EXCEPT in the case of single TARGET records (for score or group). All records will be retired to make room for new aggregative records that reflect the new 4 target format. It is our suggestion that we wait until the end of the first year of the format change to measure and finalize any new aggregate records. The match director will retain the TOP THREE sets of winning targets from each match during that year. At the end of the year, match directors and records committee shall review all winning entries and submit the best group/score aggregates to the records director for official scoring/measurements.

2. Will people be willing to rotate more frequently? The hope is that people will recognize that the benefits of the new format, in terms of equalizing match outcomes, outweighs the small inconvenience of having to rotate more frequently. With some practice, competitors should become more efficient in transitioning off benches and to the pits. Preliminary discussions with competitors of ALL AGES have revealed strong support for the suggested changes.

Revised Portions of Rulebook

*****Note - suggested rule changes impact the following parts of the current rule book in the order they appear. The changes are bolded and underlined and previous rules are denoted by [—]. Unless superseded by the rule changes, all other rules will remain unchanged.**

1.2.27. Relay: Competitors on the firing line or in the pits pulling targets or on standby. A relay consists of Light Gun **or [and]** Heavy Gun sighter and record targets.

1.4. Tournament Format

1.4.1. The following tournaments are recognized by the NBRSA and records may be set in these formats only.

1.4.1.1. One Day Tournament: Each Competitor shoots **four [three]** Light Gun record targets and **four [three]** Heavy Gun record targets. A Competitor may choose to shoot only Light Gun or only Heavy Gun class.

1.4.1.2. Two Day Tournament: Each Competitor shoots **four [three]** Light Gun record targets and **four [three]** Heavy Gun record targets each day. A Competitor may choose to shoot only Light Gun or only Heavy Gun class on any day of the of the Tournament.

1.4.1.3. Three Day Tournament: Each Competitor shoots:

- Day 1: **Four (4) Light Gun record targets and two (2) Heavy Gun record targets.**
- Day 2: **Four (4) Heavy Gun record targets and two (2) Light Gun record targets.**
- Day 3: **Two (2) Light Gun record targets and two (2) Heavy Gun record targets.**

A Competitor may choose to shoot only Light Gun or only Heavy Gun class on any day of the of the Tournament.

[Three Day Tournament: Each Competitor shoots two Light Gun record targets two Heavy Gun record targets each day. A Competitor may choose to shoot only Light Gun or only Heavy Gun class on any day of the of the Tournament.]

1.4.1.4. One Day Light or Heavy Gun Tournament: Each Competitor shoots ~~eight {six}~~ Heavy Gun record targets or ~~eight {six}~~ Light Gun record targets.

1.4.4. One Day Tournament Aggregates

1.4.4.1. The following aggregates are calculated for a one day tournament. See “3. Scoring Ties and Penalties” for definitions of the aggregates.

1.4.4.1.1. ~~Four {Three}~~ Target Light Gun Group Aggregate.

1.4.4.1.2. ~~Four {Three}~~ Target Light Gun Score Aggregate.

1.4.4.1.3. ~~Four {Three}~~ Target Heavy Gun Group Aggregate.

1.4.4.1.4. ~~Four {Three}~~ Target Heavy Gun Score Aggregate.

1.4.4.1.5. ~~Eight {Six}~~ Target Group Aggregate.

1.4.4.1.6. ~~Eight {Six}~~ Target Score Aggregate.

1.4.4.2. The following aggregates are calculated for a one day tournament where ~~eight {six}~~ Light Gun record strings or ~~eight {six}~~ Heavy Gun record strings are shot. See “3. Scoring Ties and Penalties” for definitions.

1.4.4.2.1. ~~Four {Three}~~ Target Light or Heavy Gun Group Aggregate.

1.4.4.2.2. ~~Four {Three}~~ Target Light or Heavy Gun Score Aggregate.

1.4.4.2.3. ~~Eight {Six}~~ Target Light and Heavy Gun Group Aggregate.

1.4.4.2.4. ~~Eight {Six}~~ Target Light and Heavy Gun Score Aggregate.

1.4.4.2.6. World record score or group aggregates can only be set of the first ~~four {three}~~ targets **(targets 1,2,3,4)** ~~{{(targets 1,2,3)}}~~ or second ~~four {three}~~ targets **(targets 5,6,7,8)** ~~{{(targets 3,4,5)}}~~ small group single target and high score single target.

1.4.4.2.7. All ~~four {three}~~ target group and aggregates shall be checked for records.

1.4.4.2.8. World records cannot be set on ~~eight {six}~~ target group or score aggregates.

1.4.5. Two Day and Three Day Aggregate.

1.4.5.1. The following aggregates are calculated for a two day or three day tournament. See “3. Scoring Ties and Penalties” for definitions.

1.4.5.1.1. ~~Eight {Six}~~ Target Light Gun Group Aggregate

1.4.5.1.2. ~~Eight {Six}~~ Target Light Gun Score Aggregate

1.4.5.1.3. ~~Eight {Six}~~ Target Heavy Gun Group Aggregate

1.4.5.1.4. ~~Eight {Six}~~ Target Heavy Gun Score Aggregate

1.4.5.1.5. ~~Sixteen {Twelve}~~ Target Group Aggregate

1.4.5.1.6. ~~Sixteen {Twelve}~~ Target Score Aggregate

1.5.19. Course of fire is:

1.5.19.1 For one day and two day tournaments:

- Relay 1 shoots first LG Relay
- Relay 2 shoots first LG Relay
- Relay 1 shoots first HG Relay
- Relay 2 shoots first HG Relay
- Relay 1 shoots last LG Relay
- Relay 2 shoots last LG Relay
- Relay 1 shoots last HG Relay
- Relay 2 shoots last HG Relay

~~[Light Gun first, then Heavy Gun except in an all light gun or heavy gun Tournament.]~~ This is the same for all days of a tournament, all relays. The Competitor shoots from the same bench all relays, all days.

1.5.19.2 Course of fire for a 3 day tournament:

1.5.19.2.1: Day 1:

- Relay 1 shoots 1st LG Relay
- Relay 2 shoots 1st LG Relay
- Relay 1 shoots 1st HG Relay
- Relay 2 shoots 1st HG Relay
- Relay 1 shoots 2nd LG Relay
- Relay 2 shoots 2nd LG Relay

1.5.19.2.2: Day 2:

- Relay 1 shoots 2nd HG Relay
- Relay 2 shoots 2nd HG Relay
- Relay 1 shoots 3rd LG Relay
- Relay 2 shoots 3rd LG Relay
- Relay 1 shoots 3rd HG Relay
- Relay 2 shoots 3rd HG Relay

1.5.19.2.3: Day 3:

- Relay 1 shoots 4th LG Relay
- Relay 2 shoots 4th LG Relay
- Relay 1 shoots 4th HG Relay
- Relay 2 shoots 4th HG Relay

1.5.20. A Light Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, and a second record string.

[1.5.20. In a one day or two day tournament, a Light Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, a second record string, a third sighter period and a third record string. Once the Light Gun is complete, the Competitor shoots a Heavy Gun relay similar to the Light Gun relay.]

1.5.21. A Heavy Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, and a second record string.

[1.5.21. In a three day tournament, a Light Gun relay consists of equipment set up, the first sighter period, a record string, a second sighter period, and a second record string. Once the Light Gun is complete, the Competitor shoots a Heavy Gun relay similar to the Light Gun.]

3.1. Record String

3.1.2. ~~Four~~ ~~{Three}~~ Target Aggregate

3.1.2.1. A "4-Target" Aggregate is defined as either target numbers 1, 2, 3 and 4 or as target numbers 5, 6, 7, and 8 of any multiple target aggregate shot in the same competition, regardless of the number of days of the competition.

~~[3.1.2.1. A "3-Target" Aggregate is defined as either target numbers 1, 2, and 3 or as target numbers 4, 5, and 6 of any multiple target aggregate shot in the same competition, regardless of the number of days of the competition. (Effective as of 1/1/08).]~~

3.1.6. Group Aggregates

3.1.6.1. Light Gun Group Aggregate is calculated by adding together the Light Gun record string groups **(four or eight targets)** ~~{{(three or six targets)}}~~ and dividing by the appropriate number of targets **(four or eight)** ~~{{(three or six)}}~~.

3.1.6.2. Heavy Gun Group Aggregate is calculated by adding together the Heavy Gun record string groups **(four or eight targets)** ~~{{(three or six targets)}}~~ and dividing by the appropriate number of targets **(four or eight)** ~~{{(three or six targets)}}~~

3.1.6.3. Two Gun group aggregate **(eight or sixteen targets)** ~~{{(six or twelve targets)}}~~ is calculated by adding together the Light Gun and Heavy Gun group aggregates and dividing by two.

3.1.7. Score Aggregates

3.1.7.1. Light Gun score aggregate is calculated by totaling the Light Gun record string scores **(four or eight targets)** ~~{{(three or six targets)}}~~ including X's.

3.1.7.2. Heavy Gun score aggregate is calculated by totaling the Heavy Gun record string scores **(four or eight targets)** ~~{{(three or six targets)}}~~ including X's

3.1.7.3. Two Gun score aggregate **(eight or sixteen targets)** ~~{{(six or twelve targets)}}~~ is calculated by totaling the Light Gun and Heavy Gun score aggregates including X's.

3.1.8.3. Aggregate Group – **4 target, 8 target, 16 target** ~~{3 target, 6 target and 12 target}~~

3.1.8.3.1. In case of a tie for aggregate group - the higher aggregate score determines the winner.

3.1.8.3.2. In case of a tie the aggregate group, and the aggregate score is also tied - the higher aggregate "X" count determines the winner.

3.1.8.3.3. If the tie still exist, duplicate winners are recognized.

3.1.8.4. Aggregate Score - **4 target, 8 target, 16 target** ~~{3 target, 6 target and 12 target}~~

~~{3.1.8.5. X count tied – go to highest single target score.}~~

~~{3.1.8.6. Highest single target score tied – go to X count.}~~

~~{3.1.8.7. You have up to 6 chances to break a tie on 3 target total and 12 on 6 target total.}~~

5.2. World Records

5.2.1. NBRSA recognizes the following World Records for 600 and 1,000 yard Light Gun class (to begin in 1996 season);

5.2.1.3. Smallest **8-Target** ~~{6-Target}~~ Group Aggregate

5.2.1.4. Highest **8-Target** ~~{6-Target}~~ Total Score

5.2.1.5. Smallest **4-Target** ~~{3-Target}~~ Group Aggregate

5.2.1.6. Highest **4-Target** ~~{3-Target}~~ Total Score.

5.2.2. NBRSA recognizes the World Records for 600 and 1,000 yard Heavy Gun class (to begin in 1996 season):

5.2.2.3. Smallest **8-Target** ~~{6-Target}~~ Group Aggregate

5.2.2.4. Highest **8-Target** ~~{6-Target}~~ Total Score

5.2.2.5. Smallest **4-Target** ~~{3-Target}~~ Group Aggregate

5.2.2.6. Highest **4-Target** ~~{3-Target}~~ Total Score.

5.2.3. NBRSA recognizes the following World Records for 600 and 1,000 yard Two Gun (Light Gun and Heavy Gun combined) (to begin in 1996 season):

5.2.3.1. Smallest ~~16 [12]~~ - Group Aggregate Target (~~8 [6]~~ Light Gun groups and ~~8 [6]~~ Heavy Gun groups).

5.2.3.2. Highest ~~16 [12]~~ - Total Score Target (~~8 [6]~~ Light Gun scores and ~~8 [6]~~ Heavy Gun scores).

5.2.3.3. Smallest ~~8 [6]~~ - Group Aggregate Target (~~4 [3]~~ Light Gun groups and ~~4 [3]~~ Heavy Gun groups).

5.2.3.4. Highest ~~8 [6]~~ - Total Score Target (~~4 [3]~~ Light Gun scores and ~~4 [3]~~ Heavy scores).

OAK HILL GUN CLUB HEAVY VARMINT

May 16, 2021 -- Davenport, Iowa

Results Received: 5/28/2021

Oak Hill Gun Club held its first NBRSA heavy varmint match of the year May 16, 2021 with 16 shooters. The conditions in the morning were cloudy with mild wind and the temp stayed in the mid 60's all day. Dave Coots started out with a screamer .081 on the first target followed closely by JIm Carstensen with a .091. In the end JIm Carstensen won the 100 yardage with a .1562 agg. followed by Dave Coots .1782 agg. In the afternoon we shot heavy varmint 200 yards, the winds picked up slightly but were steady. There were four different shooters that shot a screamer target in the ones . Dean Ekstrom shot the small group with a .152. JIm Carstensen won the 200 yardage with .2148 agg. followed by Dean Ekstrom's .2190 agg. JIm Carstensen won the HV grand with a .1855 agg.
Thanks to everyone for showing up.

Attention All Match Directors:

Please be advised, going forward, the NBRSA will only be publishing match reports for those ranges who are checking and verifying NBRSA membership cards for confirmation of current member status, as per the NBRSA Match Agreement you have each signed.

Most regrettably, there are Match Directors who are knowingly allowing non-members to compete in our various Group/Score and Long Range registered matches, resulting in numerous issues including receiving award plaques, potential world records, etc... robbing current paying NBRSA members, not to mention our liability insurance carrier requires all match competitors to be NBRSA members.

Thank you in advance for your cooperation.

Greg Swezey

Holmen Rod & Gun Club hosted the REO Memorial 2 gun for score on June 5th & 6th, 2021. Record breaking high temperatures. Winds were 10-25 with gusts up to 35 MPH. However, the humidity was only around 35% and combined with the wind, kept our way up north snowmen from melting into that big lake.

Thanks to Steve Rosendale for sitting on the high bench, called HBR relay 1 to the line at 0800. Only one 5X target was posted by Mike Bigelow 249-15X for the win. Second place goes to Jim Franzen, 249-11X and NNR (Ron Bertrand) finished 3rd 248-9X.

Chad Hilton's 246-5X was enough in those sassy conditions for top spot at 200 yards. Ron Bertrand was 2nd 246-2X and Wade Hunnewell finished 3rd 244-5X.

HBR Grand Agg. Ron Bertrand shooting as he calls it "That Old Remington" showed old school prevails. 30X47 HBR with heavy bullets posted the top score of 494-11X for the win. Chad Hilton 492-11X in 2nd and Mike Bigelow finished 3rd 491-19X.

June 6th VFS. Less heat, still hot and windy. 100 yards 1st place Mike Bigelow 250-17X put the hurting on 2nd place Michael Hart 250-17X. Ron Bertrand 3rd 250-15X. The 200 yard winner is Mike Bigelow 250-7X followed by Ron Gilsrud 245-4X and Ron Bertrand's 245-2X for 3rd place. VFS Grand Agg. Mike Bigelow shot an outstanding 500-24X in much less than ideal weather conditions for the crown. The back seat shooting was still impressive. 2nd Ron Bertrand 495-17X. 3rd goes to Ron Gilsrud 494-18X.

Did I mention the weather? I was glad to be match director on this one.

Congratulations Mike Bigelow 991-43X 2-Gun champion. Ron Bertrand shot a semi-respectable 989-28X for 2nd place and Chad Hilton finished 3rd 982-33X.

Thanks to all for attending and those that helped. Especially Stephany for filling in for one of our target crew that failed to show up.

- Craig Nagel

LINCOLN IZAAK WALTON SCORE 2-GUN

April 24-25, 2021 -- Bennet, Nebraska

Results Received: 5/16/2021

The Lincoln Izaak Walton League held their first score match of 2021. Saturday April 24th was the 100 and 200 yd Hunter phase. Sunday April 25th was the VFS portion of the 2-Gun. Shooters traveled from four different states (NE, IA, MO, MN) to get in on the action.

Conditions on Saturday were tolerable. Mid 40's in the morning, warming to lower 60's in the afternoon. Winds were mostly out of the north varying in speeds from 5-15 mph. Mirage was a little switchy and would put the bite on anyone not paying attention.

Lincoln offers VFS on Sat for anyone not wanting to shoot Hunter. Dick Winchester (NE) edged out Steve Mumford (NE) to win all yardages and therefore the Grand. In the Hunter class, Mike Bigelow (IA) won the 100 yd portion with a 250-13X. Jason Stanley (NE) won the 200 yd with a score of 247-7X. As Randy Robi-nett would say; "Stanley stomped his guts out" for the Grand by a 1X margin.

Conditions on Sunday started out cold, mid 30's. Shooters were putting on whatever layers that had brought. By the time we were picking up flags, the temperature had risen to the lower 70's. With the warmer temperatures came the wind from the south. Average speeds were in the lower 20's with measured wind gusts up to 49 mph. Items were being blown off benches, tails

were wrapped in propellers, flags were tipped over, and many bullets went astray.

Roughly three-fourths the competitors were able to stay clean at 100 with Logan Merrigan (MO) coming out on top with a 250-16X. Surviving the on-coming train wreck was the name of the game at 200. Mike Hart (MN) escaped with the least amount of damage shooting a 243-3X. His 200 yd win put him over the top for the Grand also. The coveted 2-Gun award went to Mike Bigelow.

Other notable winners: Overtime Award goes to the target crew of Jeff Shultz, Kent Kennedy, and Ron TeSelle with a speedy and fantastic job as always. Even in the high winds of Sunday, not one target was blown off. The Windshield Award goes to Frank Radloff and Mike Hart as they spent ten hours in the van (one way) driving from Duluth Minnesota to come to this match. Rod Dewey earned the Crew Chief Award for his exceptional control of the line. From a shooter's point of view, both days went very smoothly. The Einstein Award goes to scorer Jeff Shultz. Adding those 6,7,8's on Sunday was more difficult than the 9,10's he had to add on Saturday. Mike Hart wins the Gut Buster Award. His submarine joke took top honors in one of the most enjoyable loading rooms I have been in. However, there can be only one.

Mother Nature, once again, got her hand raised in Lincoln as The Grand Prize Winner. We hope to see you at the 1,2,300 yd VFS match in late August.

- Submitted by Rodney Dewey

Perfect Shoulder Bump!

Competition Shellholder Set

— With No Die Adjustment —

The easy to use Redding Competition Shellholders enable you to perfectly match the headspace of your reloaded ammo to any firearm. Once the proper shellholder is determined, your results are repeatable — *no die adjustment is necessary*. Each shellholder is clearly marked to indicate the amount it will change case to chamber headspace — *no special tools or gages are needed*.

— Packaged in five piece sets in .002" increments —

Note:

Please keep written match reports
to one page, two pages at most!

Reminder!

All match reports and content must be
received by the 13th of each month to be
included in the next month's issue.

Send to Editor Serena Juchnowski
serenajuchnowski@gmail.com

Please note that all match reports sub-
mitted are subject to editing to fit space
constraints. Email editor for full report and
include match name/date/requested info.

Attention All Match Directors:

Please be advised, going forward, the NBRSA will only be publishing match reports for those ranges
who are checking and verifying NBRSA membership cards for confirmation of current member
status, as per the NBRSA Match Agreement you have each signed.

Most regrettably, there are Match Directors who are knowingly allowing non-members to com-
pete in our various Group/Score and Long Range registered matches, resulting in numerous issues
including receiving award plaques, potential world records, etc... robbing current paying NBRSA
members, not to mention our liability insurance carrier requires all match competitors to be NBRSA
members.

Thank you in advance for your cooperation.

- Jack Neary

Important Message to All Members:

This is just a reminder of the importance of keeping your membership current. Should you ever
decide to run for a Regional Director position, you must comply with the bylaw listed below.
If there is any lapse in your membership, even a day, you would not be eligible to run until you
comply with the three (3) years of consecutive membership immediately prior to running bylaw.

ARTICLE III – BOARD OF DIRECTORS 1. Power of Board and Qualifications of Direc-
tors. 1.1. The Association shall be managed by its Board of Directors. Each director shall be at
least eighteen years of age and shall have been a member of the Association for at least three (3)
consecutive years immediately prior to running for director with no lapses in membership and
shall be a resident of the Region which he or she is elected to represent.

You also must be a member of the NBRSA to compete in our registered matches, receive ac-
knowledgement of world records, and receive your monthly magazine.

The Business Manager sends out renewal cards at least five (5) weeks prior to your expiration
date. This is a courtesy to our members but does not excuse members for not taking care of
renewals prior to their expiration date.

We value all of our members and want each member to be able to participate in all of our
NBRSA events.

May 2021 be a very successful year for all of you.

- Pam Campbell, Business Manager

Change of Address: To change your address or report a damaged or undelivered magazine, write: NBRSA, PO Box 349, Concord, VA 24538. Do not return damaged copies. Change of address should include both new address and a mailing label bearing the old one. In case of duplication send both labels.

Contributors: The editor is not responsible for unsolicited manuscripts or photographs. Advertisers: Rate cards and terms are available online at www.nbrsa.org/membership-info. We appreciate your support!

Safety Disclaimer: The publication, writers, organization officers, staff, and directors explicitly advise the readers that they make no representation of safety for any loads, techniques, and procedures if reported herein. The nature of participating in a shooting sport automatically requires caution at all times. Given the many variables present—weather, equipment, and components—the information presented is for your reading enjoyment.

Click Head Stainless Steel Bench Rest Quality Primer Tool

The feel, the precision, the quality and the ease of adjustment of this tool are unique.

Features include click head adjustments for precise primer seating and all stainless steel components with aluminum handle.

Concentricity Gauge with wheel

This device enables the user to rotate the case one complete revolution with about 1/8 of a turn on the wheel. Providing consistent pressure on the case. Easily retrofits in a snap to the 21st Century Shooting Concentricity Gauge (run out gauge - as shown). Features include canting to the left or right to keep the base of the case rotating against the stop. For unlimited setup scenarios. Simply amazing!

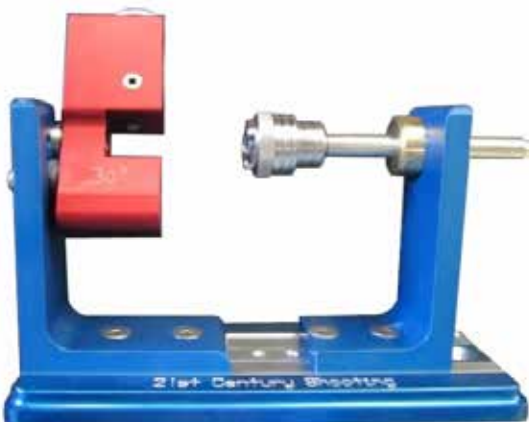

Neck Turning Lathe

The floating design of our neck turner and the universal floating case driver allows the case mouth (bore) to run on the arbor absolutely concentric. Therefore allowing O.D. to be turned concentric with I.D. The tail-stock creates a horizontal inline support for the base of the case. Also allows the operator to keep both hands on the power screw driver or drill. This makes it very easy to control feed rate of the cutting operation, generating a very fine turned finish. Case holder drivers are designed to be the most gentle driver, yet providing an adequate hold.

**DOES NOT DRIVE OFF THE PRIMER POCKET
NO PRIMER POCKET OR CASE DAMAGE.**

Driver shaft is hexed to use power screw driver or drill.
17cal. Fireball to a .416 Rigby. Also 50cal.

WE LOVE THIS SEATER DIE!
